FY-1962

**STATE OF GEORGIA
DEPARTMENT OF DEFENSE**

**S. ERNEST VANDIVER
GOVERNOR**

**MAJ. GEN. GEORGE J. HEARN
ADJUTANT GENERAL**

GOVERNOR S. ERNEST VANDIVER

MAJ. GEN. GEORGE J. HEARN

State of Georgia
DEPARTMENT OF DEFENSE
MILITARY DIVISION
Office of the Adjutant General
959 E. Confederate Avenue, S. E.
Atlanta, Georgia

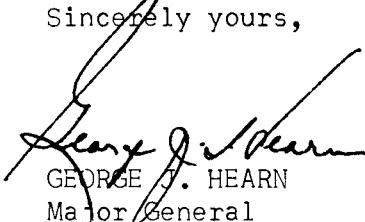

1 October 1962

Honorable S. Ernest Vandiver
Governor of Georgia
State Capitol
Atlanta, Georgia

Dear Governor Vandiver:

This report, submitted in accordance with Section 24, Georgia Military Forces Reorganization Act of 1955, is a summary of this department's major accomplishments and activities during the fiscal year 1962.

Sincerely yours,

GEORGE J. HEARN
Major General
The Adjutant General

MILITARY DIVISION

CHAPTER I

GENERAL

SECTION I

ORGANIZATION

1. "There shall be an agency of the State Government to be known as the Department of Defense of the State of Georgia, which shall be composed of the military agency as provided in the laws of this State, and the civil defense agency as provided in the laws of this State. The Adjutant General shall be the executive head of the Department of Defense. The term 'Department of Defense' shall include the term 'Department of Public Defense' wherever the latter appears in the laws of the State." --Ga. Code Anno. 86-201.

2. "There shall be within the Department of Defense as a division thereof, a state military agency which shall be styled and known as the 'Military Division, Department of Defense,' with the Adjutant General as the executive head thereof. The term 'Military Division' shall include the term 'Military Department' wherever the latter now appears in the laws of this State." --Ga. Code Anno. 86-202.

3. "State Civil Defense Agency; Director of Civil Defense: Adjutant General ex officio; Deputy Director. --(a) There is hereby created within the Department of Public Defense of the State Government, as a division thereof, a state civil defense agency which will be styled and known as the 'Civil Defense Division, Department of Defense,' (hereinafter called the 'Civil Defense Division'), with a Director of Civil Defense who shall be the head thereof. The Adjutant General as the executive head of the Department of Public Defense shall be the Director of Civil Defense, (hereinafter called 'The Director'). --excerpt, Ga. Code Anno. 86-1804.

4. Listed below are the officers who have served the State of Georgia as Adjutants General since the office was established in 1792:

<u>NAME</u>	<u>RANK</u>	<u>DATE OF APPOINTMENT</u>	<u>DATE OF RELIEF</u>
AUGUSTUS C G ELHOLM	LT COL	19 Dec 1792	15 Jan 1795
JONAS FAUCHE	LT COL	20 Feb 1796	2 Nov 1806
DANIEL NEWMAN	LT COL	13 Dec 1806	10 Nov 1817
JOHN C EASTER	LT COL	13 Nov 1817	11 Nov 1835
DANIEL NEWMAN	BRIG GEN	25 Dec 1837	22 Dec 1840
HENRY C WAYNE	MAJ GEN	12 Dec 1860	10 May 1865
JOHN B BAIRD	COL	16 Oct 1879	5 Nov 1882
JON S STEPHENS	COL	6 Nov 1882	31 Dec 1886

CHARLIE F. CAMP	MAJ GEN	10 Jul 1957	12 Jan 1959
GEORGE J. HEARN	MAJ GEN	13 Jan 1959	date

HISTORICAL

5. The office was first created by Act of the General Assembly, 14 December 1792, abolished 22 December 1840, re-established 12 December 1860, abolished 7 March 1866, and re-established 16 October 1879.

6. Between 1840 and 1860 the duties of Adjutant General were discharged by the Division Inspectors, and between 1866 and 1879 the duties devolved on the Secretary of State.

SECTION II

AWARDS & DECORATIONS

The following awards were presented to units and individuals concerned during the period covered by this report:

- a. Governor's Trophy for Proficiency in Training -- Troop D, 1st Recon Sq, 108 Armor.
- b. Adjutant General's Trophy for best Supply and Administration -- Hq Co, 4th Med Tk Bn, 108 Armor.
- c. Adjutant General's Trophy for Small Bore Rifle competition -- Co A, 4th Med Tk Bn, 108 Armor.
- d. Eisenhower Trophy -- Hq & Hq Co, CC B.

SECTION III

STATE RELATIONS WITH THE FEDERAL GOVERNMENT IN MILITARY MATTERS

1. The relationships between the State Militia (National Guard) and the Federal Government have been more clearly established in various Congressional actions starting with the Dick Act of 1903 and other Federal legislation in 1908, 1916, 1920 and 1933. In 1952 Congress restated these policies and that the strength of the National Guard as an integral part of the first line of defense of this Nation must be at all times maintained and assured.

2. The National Guard represents tradition in the best sense of American history. Although the units vary in background and current activities, they are by and large, reservoirs of pride and patriotism at a grass roots level. They are substantial buffers against efforts to replace traditional ways with "progressive" ways in which there is no place for pride of land and reverence of the past.

3. The Governor of a State is the Commander-in-Chief of all National Guard forces located in his State. He may call them to State Active Duty under any emergency conditions that he deems appropriate. These troops are indeed the State's armed forces during periods other than National emergencies. This concept of National Guard structure was conceived by the Nation's founders and is reflected in the Constitution of the United States. It has existed for over 300 years. It is a successful operation and has figured most prominently in winning all of America's wars. It effectively progresses in peace because it has the backing and support of the Congress, the people, the Governors and the communities.

4. In return for Federal support within the States, the Guard is obligated to meet certain requirements directed by the Federal Government, among them:

a. To train personnel in accordance with programs published by the Department of Defense.

b. To meet standards of proficiency as required. Such proficiency to be tested through observation and examination by Regular establishment personnel.

c. To meet Department of Defense standards in all officer promotions and appointments.

d. To maintain unit strengths as directed by Federal policies.

e. To maintain all equipment in accordance with Federal policies.

f. To maintain acceptable standards of housing and security for personnel and arms.

Having accomplished these goals, the National Guard is considered our country's first line Ready Reserve Force and available for Federal duty on appropriate call or order.

5. The Federal Government's obligations in the National Guard structure are:

- a. Provide Federal Recognition to units meeting the requirements.
- b. Furnish equipment, uniforms and arms; and, pay and allowances for armory drills and field training.
- c. To provide training aids, literature for armory drills and camp facilities for field training.
- d. To provide certain National Guard personnel with 6 months active duty training, and advisory personnel for both field training and armory training.
- e. To match State funds 75% to 25% for armory construction.
- f. To provide school facilities for training of National Guard specialists.
- g. To provide personnel or funds for full time maintenance of Government equipment at concentration sites.

MISSION
of the
NATIONAL GUARD OF THE UNITED STATES

To provide units of the reserve components for the Army, adequately organized, trained and equipped, available for mobilization in the event of national emergency or war, in accordance with the deployment schedule, and capable of participating in combat operations, in support of the Army's war plans. This mission may include the defense of critical areas of the United States against attack.

MISSION
of the
ARMY AND AIR NATIONAL GUARD OF THE SEVERAL STATES

To provide sufficient organizations in each State, so trained and equipped as to enable them to function efficiently at existing strength in the protection of life and property and the preservation of peace, order and public safety, under competent orders of the State authorities. (From "Department of the Army Policies Pertaining to the Reserve Components of the Army," October 1953)

MISSION
of the
AIR NATIONAL GUARD OF THE UNITED STATES

To provide trained units and qualified individuals to be available for active duty in the United States Air Force in time of war or national emergency and at such other times as the national security may require, to meet the requirements of the United States Air Force in excess of those of the Regular components thereof, during and after the period needed for procurement and training of additional trained units and qualified individuals to achieve the planned mobilization. (From Air Force Regulation 45-1, 1 January 1953)

SECTION IV

FISCAL (STATE FUNDS)

1. The Department of Defense appropriation for Fiscal Year 1962 amounted to \$545,000.00, with special appropriation of \$25,000.00 for operation of a State Officer Candidate School for the Georgia Army National Guard. In addition, \$739.52 was carried over from fiscal year 1961. \$301.34 was received during the year from the Federal Government as matching funds; \$89.37 was turned in from the unit fund accounts of the 111th Signal Battalion when the battalion was called to active duty; \$940.00 was received from insurance claims; and \$51,656.00 was transferred from the State's Emergency Fund, making a total of \$623,726.23 available for expenditure for the year. Of this amount \$141,109.82 was turned over to Civil Defense Division, which is reporting separately, leaving a balance of \$482,616.41.

2. Actual expenditures and funds obligated for the operation of the department and its activities for Fiscal Year 1962, by object, was as indicated below:

Personal Services	\$170,270.87
Travel Expense	18,170.53
Supplies & Materials	9,301.92
Communication Services	9,578.04
Heat, Light, Power, Water	4,112.90
Printing & Publicity	685.65
Repairs & Alterations	2,424.12
Rents	124.24
Insurance & Bonds	2,438.63
Equipment Purchases	2,849.25
National Guard Units	211,637.99
Transfer of Funds:	
Retirement & FICA	14,766.71
Merit System	495.87
Health Insurance	638.25
Indemnities	119.98
Miscellaneous Services	1,852.15
State Active Duty	28,431.28
Obligated, 30 June 1962	4,455.10
<hr/> Total Outlay	\$482,353.48

3. The above does not include funds expended or obligated for armory construction for the Army National Guard. These funds are reported separately in Section XIV, of the report. During the year \$1,268.77 was collected in interest from armory funds placed in Time Deposit Ledger Account, all of which was transferred to the State Treasury within the year.

4. As of 30 June 1962, there were thirty-two full-time and one part-time military and civilian employees paid from State funds in the Military Division of this department.

SECTION V

PUBLIC INFORMATION OFFICE

1. The function of the Public Information Office is to establish and implement the necessary recruiting and promotional programs that serve to enhance membership in the Georgia Army and Air National Guard. To create a public awareness of the Guard and to maintain a high degree of acceptance of its aims and missions constitute the goals of this office.

2. Embellishing the high esteem with which the Guard is held by the general public is one of the major tasks of this office. This -- the external information phase -- has consisted of the following activities during the period covered by this report:

News Releases

3. Thirteen major news releases concerning the Army and Air National Guard have been sent to the appropriate news media calling attention to the events outlined below:

- a. Dates of summer encampments.
- b. Plans for National Guard Association conference.
- c. Governor's Day ceremonies at field training.
- d. Call up of 111th Signal Battalion.
- e. Changes of command.
- f. Start of Georgia Military Institute's Class #2.
- g. Reorganization of Air Defense battalions.
- h. Completion of armory building program.

4. Additionally, some 200 captions were written for photographs made during the various field training encampments during this period. Some of these were written by temporarily assigned personnel under the supervision of the public information officer.

5. Approximately 25 captions were written for pictures made of the new officer candidates of the Georgia Military Institute's Class #2.

6. This office also assisted the Civil Defense Division in composing and mailing out three news releases.

Photography

7. Both still and motion picture photography was utilized by this office to provide more graphic news coverage of National Guard activities. Feature page pictorials appeared in three separate editions of the Atlanta Journal and one in the Columbus Ledger-Enquirer.

8. Photographs were made during the annual field training periods of personnel in practically every Army and Air Guard component. Approximately 300 5x7-inch or 8x10-inch photos were made during the summer training periods, of which some 200 were eventually published by daily and weekly newspapers.

9. Several reels of film for television were also made by the public information officer during the year when arrangements cannot be made with TV station personnel to cover the event themselves. Film made at the 1961

convention of the National Guard association was used by an Atlanta station, and others of the Georgia Military Institute's Miss GMI contest and of summer camp activities have been shown.

10. A mobile photographic processing laboratory was taken to the major field training sites at Travis Field and Fort Stewart to provide the necessary processing of pictures during the summer training periods.

11. In addition to news pictures, portrait and other types of photos pertinent to the operation of the Department of Defense were made. It is estimated that the total number of pictures taken by this office during FY 62 exceeded 1,000. From these negatives some 2500 prints were made -- mostly 5x7-inches in size.

The Georgia Guardsman Magazine

12. The primary organ of the National Guard's internal relations program is The Georgia Guardsman magazine. Edited and published by the department, it falls within the scope of this office. Published bi-monthly, 5,550 copies are distributed throughout the Georgia National Guard.

13. The responsibilities of this office in producing the magazine are as follows:

- a. To cover stories of statewide interest concerning the Guard and report the event in story and pictorial form.
- b. To edit or re-write stories submitted for publication.
- c. To prepare the layouts for photographing and platemaking.

National Guard Association Membership

14. It is the function of this office to furnish all Guard units with application forms so that officers may apply for membership in the National Guard Associations of Georgia and the U. S. Funds are collected at unit level and forwarded to this headquarters for processing. Forms for approximately 1,170 officers, or 100% enrollment, are processed each year.

Special Events

15. Non-recurring events constituted a large portion of the time personnel of this office devoted to their jobs. Briefly these may be described as follows:

- a. Speech writing and doing research on others.
- b. Assisted in preparation of three armory dedication programs and one for the National Guard Association of Georgia.
- c. Covered departure of 111th Signal Battalion for active duty.
- d. Attended several weekend assemblies of the Georgia Military Institute in Forsyth to assist in yearbook photography.
- e. Was the Armed Forces Day project officer of the Guard in Georgia.
- f. Covered activities of the 111th Signal Battalion while on active duty at Fort Meade, Maryland.
- g. Made trips to Winder and Forsyth to cover change of command ceremonies.
- h. Covered armory dedications in Quitman, Savannah and Statesboro.

i. Was appointed assistant coordinator for the "Salute to Growing Georgia" week at Lenox Square and devoted the equivalent of several man-days to the making of arrangements for the exhibits prior to the event and within the time period of this report.

Distribution of Promotional Material

16. Shipments of posters, pamphlets, booklets, billboard posters, mats, car cards, etc., furnished this office by the National Guard Bureau were broken down and distributed to the units concerned. Additionally, special films were scheduled by this office for showing by units or TV stations.

Personnel

17. The personnel of this office consists of one public information officer and one secretary. Both work full time. Partial assistance is rendered by other employees of the department, specifically during the production of The Georgia Guardsman magazine.

SECTION VI
PRINTING ACTIVITIES

DURING THE FISCAL YEAR ENDING 30 JUNE 1962, THE DEPARTMENT OF DEFENSE PRINT SHOP WAS ENGAGED IN PRINTING VARIOUS FORMS, LETTERS AND ORDERS FOR THE GEORGIA NATIONAL GUARD. THE GEORGIA GUARDSMAN, WITH A CIRCULATION OF 5,500 COPIES, IS THE OFFICIAL DEPARTMENT PUBLICATION.

SECTION VII

SERVICE CONTRACT

1. Service Contracts are contracts authorized for the support of maintenance and operation of National Guard facilities. This type of contract is negotiated under the provision of Title 10, United States Code, Section 2304(a)(10). All Service Contracts are administered and supported in two catagories as follows: (1) Cooperative type contracts- the Federal Government furnishes 75% of the funds necessary and the State 25% of the funds. (2) 100% federally supported contracts.

2. As mentioned above cooperative type contracts funded on a 75-25% basis are contracts for maintenance, repair, and the payment of utilities for certain National Guard installations authorized by the National Guard Bureau. These installations being (1) Organizational Maintenance Shops, (2) Aviation Maintenance Shop Hangar, (3) National Guard State Maintenance Shop, (4) United States Property and Fiscal Office and Warehouse space, (5) Post Engineer Operation and Warehouse, (6) Office of State Maintenance Officer.

3. One Hundred Per Cent (100%) federally supported contracts are authorized for opening, operating, maintaining, and closing of State-controlled training sites for annual field training of National Guard troops and State-controlled vehicle concentration sites where an activity is utilized for the storage and training of more than one State.

ORGANIZATIONAL CHART - USPFO FOR GEORGIA

GENERAL

1. The office of the United States Property and Fiscal Officer for Georgia furnished logistical support to Army and Air National Guard units during Fiscal Year 1962 with a staff of one (1) officer, the United States Property and Fiscal Officer, on extended Federal active duty; and sixty-two (62) federally paid office and warehouse employees. The mission of the USPFO is to "receipt and account for all Federal funds and property belonging to the United States in possession of the National Guard of the State of Georgia."

2. Federal funds available for the support of Army and Air National Guard units in Fiscal Year 1962 were \$14,777,569.50. This amount represents funds actually allotted by the National Guard Bureau to the State of Georgia for direct expenditure. Included in this amount is approximately \$3,083,000.00 expended yearly for Army National Guard armory drill payments; and approximately \$1,000,000.00 expended annually for armory drill payment of Air National Guard personnel.

3. Further details of the funding, property, and allied transactions of the various activities of the office of the United States Property and Fiscal Officer for Georgia for Fiscal Year 1962 are included in the following sections.

BUDGET & FISCAL

1. The Georgia National Guard utilized 99% of all federally appropriated funds made available during Fiscal Year 1962. High utilization rate is directly attributable to close budgeting and continued review and analysis of programmed funds. The detail breakout of funds utilized is categorized by major areas of funds except for monies spent on requisitioned parts, materials and individual clothing from Military Depots flows directly into existing local economies of all areas of the State.

2. Major expenditures during Fiscal Year 1962 were for payment of 863 full time technicians, \$4,251,758.67; Armory Drill Pay to 11,535 Guardsmen and Construction costs in the amount of \$1,683,194.54. Federal costs for construction included armories at Sparta, Baxley, Glennville, Hinesville, Jesup, Moultrie and Tifton. Also construction of latrines and mess halls at the Army National Guard Training Site, Fort Stewart, Georgia and minor repair and utility projects at all three Air National Guard Installations.

3. Fiscal Accounting reporting was converted to IBM card system during Fiscal Year 1962. Information was extracted from machine posted ledgers obtaining card reports by complete machine operation. Fiscal Accounting Section processed 10,475 vouchers and P/Rolls for payment during the fiscal year.

4. Following is a breakdown of Federal funds utilized during Fiscal Year 1962 by the Army and Air National Guard of the State of Georgia.

Appropriated and Open Allotments Utilized

FY 1962

<u>FIELD TRAINING:</u>	<u>ARMY</u>	<u>AIR</u>
Pay and Allowances	605,550.07	332,941.29
Travel and Transportation	20,358.73	11,502.13
Subsistence	71,371.39	71,693.95
Misc Expense; POL & Other Expendables	30,786.72	15,117.13

ACDUTRA COSTS:

Pay and Allowances, Service Schools	172,388.29	102,740.52
Pay and Allowances, Area Schools	10,125.35	
Travel, Service Schools	12,001.50	8,591.00
Travel, Area Schools	1,317.80	

OTHER MILITARY COSTS:

Pay and Allowances While Hospitalized	2,153.02	646.22
Subsistence, Inactive Duty Training	37,866.24	19,732.70
Uniform Allowances Officers	12,450.00	90,811.74
Individual Clothing, EM	153,745.15	
Command Inspection Travel	163.50	N/A

PURCHASING AND CONTRACTING

1. During Fiscal Year 1962 5,452 delivery and/or Purchase Orders effecting the local procurement of supplies and services for Army and Air National Guard units were issued in an amount of \$605,804.00. These purchases represented, for the most part, local purchases effected in and around communities supporting National Guard units.

2. Six (6) Repair and Utility Contracts in a total cost of \$45,000.00 were awarded during the fiscal year to local construction firms covering the repair or rehabilitation of facilities. A major non-armory construction contract was awarded for construction of mess halls and latrines at the National Guard Training Center at Fort Stewart, Georgia in an amount of \$813,310.00.

ARMORY DRILL PAY:ARMYAIR

Estimate of Funds Paid from Open Allotments for inactive duty training	3,083,194.80	960,203.52
--	--------------	------------

SUPPLIES AND EQUIPMENT:

New Construction	<u>1,535,479.45</u>	<u>-0-</u>

Total Funds Used Fiscal Year 1962	\$9,758,765.43	\$5,018,804.07
-----------------------------------	----------------	----------------

ARMY SUPPLY DIVISION

1. The Supply Division of the USPFO consists of the Transportation Section, Stock Control Section, Warehouse Section, Self Service Supply Center, Distribution Section and Service Stock Section consisting of a total of thirty-one (31) employees.

2. Within the period covered by this report the Supply Division has processed turn-ins and issues for the 126 property accounts of the Georgia Army National Guard. The property issued by the Supply Division was requisitioned and received from eighteen (18) Army Depots serving this office. Stock record cards are currently maintained for approximately 2,100 major and secondary items and for 4,091 repair parts and expendable items for a total of 6,191 stock record cards.

3. During FY 1962 a total of 43,987 vouchers were processed by the Supply Division; 33,967 documents were informal vouchers and 10,020 documents were formal vouchers.

4. Instructions received from the Department of Defense and the National Guard Bureau to implement the new Single Line Item Requisitioning Procedure have been accomplished. This procedure requires the utilization of the IBM Punch Card Machine, Model 0-26.

5. Ammunition fired by units of the Georgia Army National Guard during their week-end training and annual field training exercises at Fort Stewart, Georgia, amounted to 1,067,615 rounds. Of this total of ammunition fired, 657,615 rounds were fired and expended during the week-end training periods; 410,000 rounds were fired and expended during the annual field training period.

6. Loss of Government property utilized by this state amounted to \$7,449.43 covered by the droppage media of Statements of Charges and Quarterly Droppage Allowances. Reports of Survey were prepared for a total of \$305,636.96 with an actual loss of \$25,356.17. The actual loss of the large monetary volume was due to accidents involving several vehicles and the destruction by fire of a 105MM Self-Propelled Howitzer.

7. Total sales processed by the Self Service Supply Center amounted to \$103,723.18. These sales consisted of small expendable consumable type items. Through the utilization of the Self Service Supply Center, a voluminous amount of administrative posting and clerical time is saved.

8. The Service Stock Section processed 9,377 items of clothing and spare parts. This exchange service is performed for the purpose of making available a serviceable item for an unserviceable item or in the case of clothing an item of the right size for an item that does not fit. This is accomplished on a one for one basis with a minimum of administrative action.

9. The Distribution Section has been operating efficiently for several years offering the units of this state a pick-up and delivery service. Through this system the unit submits their turn-ins and issue documents to this office for processing and the Distribution Section delivers the items requested by the unit and picks up those items from the unit that are to be turned in. Miles traveled to accomplish this service amounted to approximately 76,000 miles during FY 1962.

10. Through the screening of excess property listings published by the General Services Administration on property excess to various Government agencies, this office was able to obtain \$58,312.66 worth of authorized serviceable property with no cost to the National Guard.

11. The following Statement of Inventory Transactions reflects the various types of property transactions by total dollar value that have occurred in the USPFO account during the period covered by this report. The closing inventory figure of \$698,365.00 represents a decrease of \$63,172.40 in the amount of property held in the Warehouse account over the previous year.

Opening Inventory Balance	\$ 761,538.00
---------------------------	---------------

INCREASES

Serviceable Returns from Units	222,978.07
Unserviceable Returns from Units	283,687.70
Receipts from Depots	763,119.67
Receipts from Local Procurement	188,390.54
Receipts from GSA Procurement	38,046.09
Lateral Transfers (In) Between States	502,291.24
Physical Inventory Gains	7,515.56
Standard Price Gains	21,144.58
Accounting & Miscellaneous Increases	249,392.19
Total Increases	2,276,565.64

DECREASES

Issues	1,645,412.97
Returns to Depots	259,036.55
Serviceable Transfers to PDO	96,612.91
Unserviceable Transfers to PDO	50,393.34
Shipments to Other Federal Agencies	12,074.33

Quartermaster	191,534.00	5,471.00	1,609.00	198,614.00
Signal	10,841.00	825.00	3,099.00	14,765.00
Transportation	<u>55,549.00</u>			<u>55,549.00</u>
TOTAL	594,653.00	44,014.00	59,699.00	698,366.00

TRANSPORTATION

To support both the Army and Air National Guard transportation requirements, the following documents were accomplished in Fiscal Year 1962:

- a. 602 Transportation Requests - For passenger travel. Total cost \$48,648.60.
- b. 625 Army Meal Tickets.
- c. 965 Outbound Bills of Lading - To move 7,565 tons of material at a total cost of \$155,158.98.
- d. 3,436 Inbound Bills of Lading - 7,919 tons of material received.
- e. 77 Gasoline Credit Cards issued.

AIR SUPPLY

1. During Fiscal Year 1962 the Georgia Air National Guard completed the transfer from Fighter-Type Aircraft to (H) Transport Type in all units both at Travis Field, Savannah, Georgia and Dobbins Air Force Base, Marietta, Georgia. This change in type aircraft represented an individual cost increase of \$1,248,472.00 as compared to \$582,493.00 for Fighter-Type Aircraft.

2. With a change in Aircraft, Mission and Major Command (MATS) comes a complete change in equipment and spare parts necessary to maintain this new type aircraft. Fighter-Type spares and equipment had to be disposed of and new transport type equipment and spare parts had to be requisitioned, purchased, transferred or obtained from Air Force Depots throughout the states. The above change represented many hours of travel, research, planning and hard work on the part of ANG personnel within the state.

3. Additional requirements have been made on the IBM (026) type Key Punch Machine with even more anticipated for the future. Current requirement for Key Punch Machines within the Supply and Accounting Field is (1) IAM-Inventory Accounting Monetary for preparing monthly, quarterly and annual reports and (2) Maintenance Division in compliance with provisions of ANGM 66-1, man-hour accounting and maintenance data reports.

4. The USPFO office experienced their first annual Air I. G. Inspection, from the new gaining command (EAST) - MATS on 27 October 1961. Results of the above inspection failed to indicate any major discrepancies or irregularities in the present system and stated that staff supervision and assistance given to assistant USPFOs were considered very satisfactory.

5. Periodic visits to units and bases are being made by the Inspector, ANG, of the Air Supply Section to coordinate changes, assist and determine that adequate supply records are being maintained on all federal property loaned to the state for use by the Air National Guard. Written reports submitted covering these visits keep the USPFO informed of the current status of ANG supply activity within the state.

AUDIT

1. Property Audits. The Audit Division performed a total of 162 property audits during Fiscal Year 1962.

2. Monetary Shortages. Total monetary value for federal property covering shortages disclosed on annual and/or special audits, Fiscal Year 1962, compared with previous year results:

<u>Type Adjustment</u>	<u>Monetary Shortages</u>		<u>Amount of Decrease</u>	<u>Percentage of Decrease</u>
	<u>FY-61</u>	<u>FY-62</u>		
S/C	\$962.68	\$117.20	\$845.48	.8782
QDA	1114.95	487.15	627.80	.5630
R/S	845.66	417.78	427.88	.5059
TOTALS	\$2923.29	\$1022.13	\$1901.16	.6503

3. The following units had Superior Efficiency Ratings on Fiscal Year 1962 audit:

101	Co C, 110th Signal Battalion	Savannah
102	Co D, 110th Signal Battalion	Savannah

PERSONNEL (CIVILIAN TECHNICIANS)

1. Army National Guard Technicians. The federally supported civilian employees with Georgia Army National Guard units are termed Army National Guard Technicians. Federal funds, allotted to Georgia, expended for the payment of these technicians, who are members of the unit with which they are employed, directly contribute to the administration and training of the Georgia Army National Guard; however, a small portion of these technicians are female and non-guard male employees. All technicians are employed in the following broad categories:

a. Organizational (Project 7512) - The major portion of these technicians are employed directly by the Army National Guard units of Georgia. These technicians are employed at staff and company level and pursue administrative, logistical and training duties.

(1) Organization Maintenance Shop (Project 7512) - These technicians are considered organizational but they are mechanics employed in 19 Organizational Maintenance Shops located geographically throughout Georgia to serve all Army National Guard units. Each shop is assigned to a battalion headquarters to facilitate control and these mechanics are members of the pertinent battalion.

b. USPFO (Project 7513) - These employees (military, non-military and females) serve in staff and clerical capacities to administrate the activities of the Georgia National Guard (including Air National Guard - See Paragraph 2 below) at state level.

c. Field Maintenance (Project 7514) - These technicians are involved in field maintenance to support the Georgia Army National Guard and are divided into the following categories:

(1) Combined Field Maintenance Shop (Based in Atlanta). The technicians perform field maintenance on all assigned equipment to the Georgia Army National Guard. Equipment requiring Field Maintenance is evacuated to Atlanta by technicians employed at the respective Organizational Maintenance Shop (See 1a(1) above).

(2) Army Aviation Maintenance Shop (Based in Savannah). These technicians perform all maintenance on Army aviation aircraft assigned for use by the Georgia Army National Guard.

(3) National Guard Equipment Concentration Site (Based at Fort Stewart, Ga.) - This shop is operated by the Georgia Army National Guard out of Federal funds. It performs organization and field maintenance on all equipment stored at this site by Army National Guard units from Alabama, Florida, Georgia, North Carolina, South Carolina and Tennessee. This activity also performs backup maintenance support for all Army National Guard units from these several states when they are engaged in annual active duty for training at Fort Stewart, Georgia.

The state-level section which administers the Army National Guard Technician Program (Projects 7512, 7513 and 7514) is termed the Personnel Branch of the USPFO for Georgia. The Personnel Branch is furnished technical supervision by the Technician Personnel Officer and operated by a Time, Leave and Payroll Supervisor and two (2) Time, Leave and Payroll Clerks. (One of these clerks handles Air National Guard Technician Payrolls.)

A recapitulation of Army National Guard Technicians employed as of 30 June 1962 is as follows:

<u>TYPE TECHNICIAN</u>	<u>SUPPORTED TECHNICIAN</u>	<u>EMPLOYED</u>	<u>FUND UTILIZATION</u>
Organizational (Less OMS) (Project 7512)	174	173	\$1,000,814.88
Organizational (OMS) (Project 7512)	86	85	511,650.29
USPFO (Project 7513)	62	62	331,215.93
Field Maintenance (Project 7514)	149	149	929,887.75
	471	469	\$2,773,568.85
FICA			70,825.19
			\$2,844,394.04

2. Air National Guard Technicians. The federally supported civilian employees with Georgia Air National Guard units are termed Air National Guard Technicians. Federal funds, allotted to Georgia, are used in payment of the salaries of these approximately 400 employees. With the exception of a few female personnel employed in clerical positions, all of these Air Technicians are military members of the specific unit for which employed. The civilian salary paid by the Federal Government therefore directly contributes to the training and efficiency of each man in his military assignment. These employees are located as follows:

<u>UNIT AND LOCATION</u>	<u>NUMBER OF EMPLOYEES</u>
116th Air Transport Wing Dobbins AFB, Marietta, Ga.	181
129th AC&W Squadron Dobbins AFB, Marietta, Ga.	18
202d Comm Maint Squadron Cochran Field, Macon, Ga.	9

<u>UNIT AND LOCATION</u>	<u>NUMBER OF EMPLOYEES</u>
165th Air Transport Group Travis Field, Savannah, Ga.	140
117th AC&W Flight Savannah, Georgia	17
224th Radio Relay Squadron St. Simons Island, Ga.	10
ANG Field Training Site Travis Field, Savannah, Ga.	<u>19</u>
TOTAL	394

These 394 employees are those personnel required on a daily basis to perform the administrative, maintenance - both aircraft and vehicular - supply, and training duties to insure the highest possible state of proficiency and readiness. At the close of FY 1962 these employees had received federal salaries in an amount of \$2,407,364.63.

CHAPTER II

ARMY NATIONAL GUARD

SECTION IX

ORGANIZATION

1. The Army National Guard of Georgia underwent a major reorganization in the year just passed, in that three battalions of Air Defense Artillery were converted to meet current needs of the Army as follows:

a. The 1st Gun Battalion (90mm), 214th Artillery, with headquarters located in Augusta, was converted to the 5th Medium Tank Battalion (Patton), 108th Armor.

b. The 2d Gun Battalion (90mm), 214th Artillery, with headquarters in Statesboro, was converted to the 265th Engineer Battalion (Combat)(Army).

c. The 4th Gun Battalion (Skysweeper), 214th Artillery, with headquarters in Elberton, was converted to the 1st Howitzer Battalion (105mm), 214th Artillery.

2. On following pages, included as a part of this section, are:

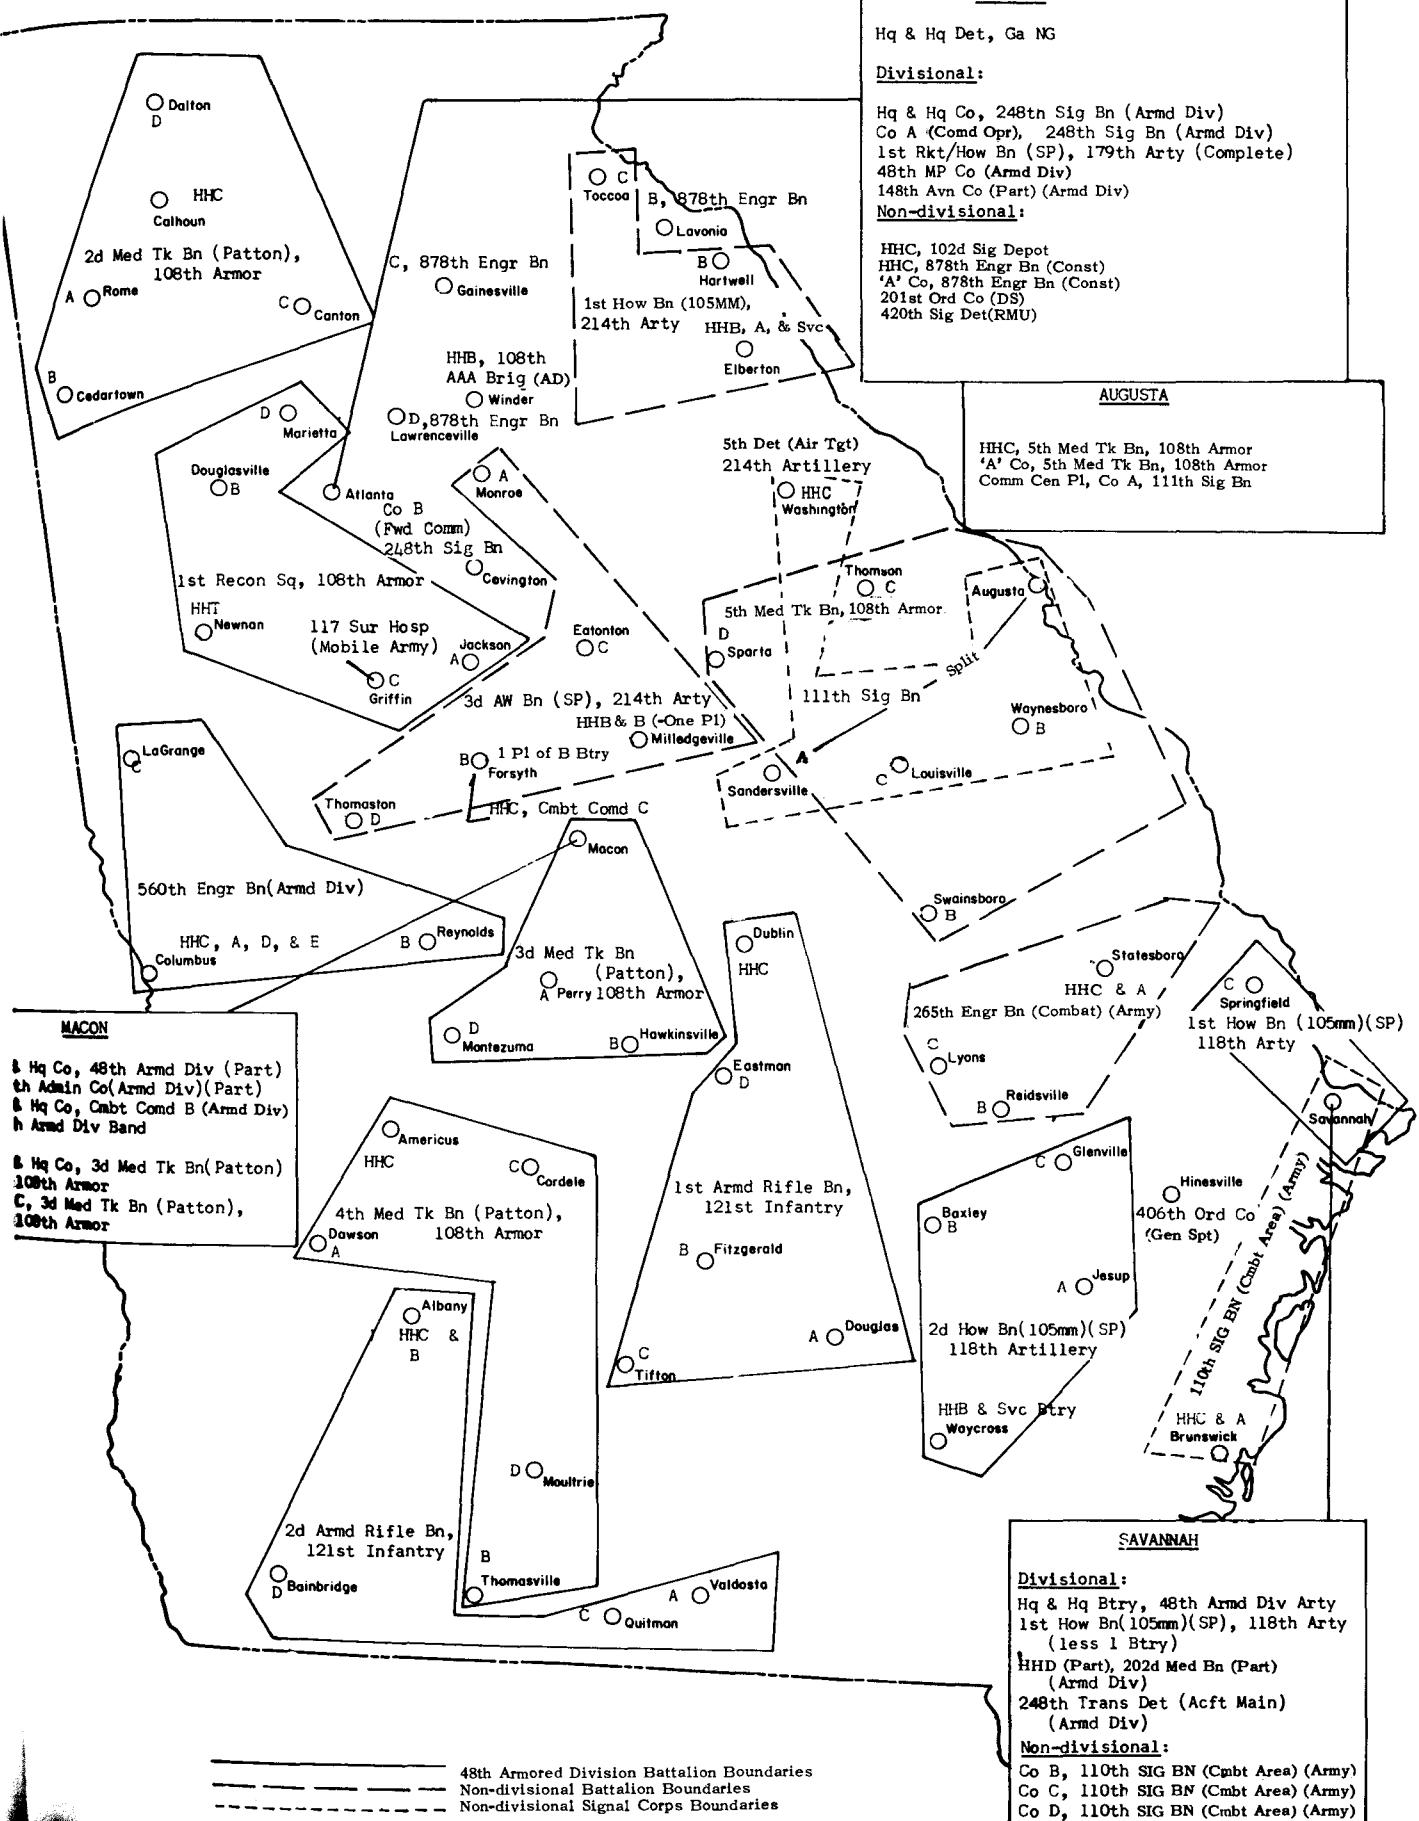

a. An organizational map showing designations of units and locations of battalion boundaries.

b. A Station List.

c. A Strength Report as of the close of the fiscal year.

SECTION XI PERSONNEL & ADMINISTRATION

1. Personnel and administration for the Georgia Army National Guard are handled by the Army Personnel Branch of the Adjutant General's Office. This Branch writes and publishes all orders; provides reproduction services; maintains all officer and enlisted personnel records for both the active and inactive National Guard; maintains all records pertaining to, and submits all reports on the strength of the Georgia Army National Guard. Also, administers awards and decorations, processes line of duty investigations and security clearances, and provides guidance and assistance on administration to the units in the field. This Branch is responsible for micro-filming all officer and enlisted records in the Army and Air National Guard and any other vital records of the department.

Army National Guard Strength

2. The Army National Guard entered Fiscal Year 1962 with an actual strength of 761 officers, 124 warrant officers, and 8,595 enlisted personnel for an aggregate strength figure of 9,480. As of 30 June 1962, our actual strength was 714 officers, 119 warrant officers, and 8,872 enlisted men with an aggregate figure of 9,705. A breakdown of this strength among the major commands is shown in Appendix 1. In spite of the Berlin buildup and the President's Executive Order #10957 of August 1961 placing restrictions on the enlistment of non-prior service personnel during the period 1 October through 31 December 1961, an all-out recruiting drive by all units increased the strength of the Georgia Army National Guard. The fiscal year closed with an assigned strength of 9,705, just 135 spaces below the state ceiling of 9,840, imposed by the National Guard Bureau. Appendix 2 indicates actual assigned strength, by unit, of the Georgia Army National Guard as of 30 June 1962.

Personnel Actions (Officers)

3. During the fiscal year, the Officer's Section processed 56 applications for initial appointment in the Georgia Army National Guard, 434 request for reassignment or transfer, and more than 1,000 officer and warrant officer efficiency reports and medical examinations were screened thoroughly before being forwarded to the National Guard Bureau. During the year, this section processed 140 applications for promotion of officers and warrant officers to a higher grade, also, 108 officer and warrant officer records were processed for separation from the active Georgia Army National Guard.

Personnel Actions (Enlisted)

4. This Section, during the fiscal year processed more than 10,500 individual morning reports. This processing included receipt, checking for correctness, posting of status changes, and verification before transmittal to the National Guard Bureau for statistical purposes. From the reports a consolidated monthly strength report is compiled, published, and distributed

to all units of the Guard and other interested parties and agencies. The 107 units of the Georgia Army National Guard have a large turnover of personnel, causing the Section to process some 11,000 personnel records a year. The Section is responsible for preparing various certificates of service pertaining to individuals who have, from time to time, served in the military service of the State of Georgia. Requests received ranged from the Civil War period to the present time. Approximately 1,200 of these requests were received and processed during the year. In addition to the above, the Section handled the following personnel actions during the year: 1,036 new enlistments; 985 reenlistments; 1,821 total gains; 1,549 total losses; 272 net gains; 105 transfers to inactive National Guard; and 67 transfers from inactive to active.

Security Clearances

5. The Army Personnel Branch processes all requests for security clearances and maintains a master file of such clearances for members of the National Guard. During the fiscal year, 250 security clearances were processed to Third United States Army for classification categories of Top Secret and Secret.

Line of Duty Investigations

6. This Branch is responsible for establishing the necessary procedures for, and reviewing all line of duty investigations made on individuals who sustain an injury or disease while attending annual active duty for training or armory drills. During Fiscal Year 1962, 78 line of duty investigations were processed and reviewed. Of the 78 line of duty investigations, 20 cases involved personnel in an armory drill status, and 58 cases resulted from annual active duty for training.

Property Control Auditor

7. The Property Control Auditor performed 121 audits of unit fund accounts of Georgia National Guard units and 22 Georgia Air National Guard units. Conducted annual property inventory and maintained property records of all State property within the Georgia National Guard. Issued 218 Georgia National Guard Service Medals to personnel having attained a total of 10 years honorable and faithful service. Further, he received, processed applications, and issued 2,761 Distinctive Georgia National Guard automobile license plates to individuals of the Guard and processed approximately 200 applications for transfer of license plates.

Service Schools

8. The Army National Guard Service School Program is considered to be an essential part of the overall Training Program. All Guardsmen are eligible and encouraged to attend Army Service Schools to better qualify themselves in their present or anticipated assignments. During the fiscal

year, this Branch processed 284 applications and issued 234 orders directing attendance at service school for the number of officers and enlisted men indicated below:

<u>Officers, Warrant Officers</u>	<u>Enlisted Men</u>
138	96

This figure includes 18 individuals who attended the Special National Guard Army Officer Candidate School at Fort Benning, Georgia. This program is supported entirely from Federal Funds. \$130,832.94 were allocated to the state by the Federal Government to support this program during the fiscal year.

Awards and Decorations

9. The Georgia Army National Guard recognizes a Guardsman's length of service by awarding him a service medal for the first ten years of service and an appurtenance, consisting of a bronze boar's head for the next ten years's service. During Fiscal Year 1962, 218 applications were processed and orders were issued authorizing issuance of these medals. Applications were also received and processed for the Armed Forces Reserve Medal, an award provided by the Federal Government to individuals who complete 10 years of service as a member of one or more of the reserve components of the Armed Forces of the United States. Upon completion of 20 years and 30 years of such service, a device is added indicating the length of service. During the year, approximately 250 applications were processed and verified for the medal.

Pre-Camp Conferences

10. Federal funds were made available to the State during the fiscal year for the purpose of conducting Pre-Camp Conferences and reconnaissance of the annual field training area. These conferences allow commanders and staff officers to coordinate and complete details pertaining to field training prior to departure from home station. This Branch issued 47 orders directing the attendance of 91 officers and warrant officers for 211 man-days of this training.

Six Months Training, Reserve Forces Act of 1955

11. During the fiscal year, 1,146 non-prior service personnel entered the six month basic training program for basic training with the active military establishment. This figure is somewhat lower than the previous year due to suspension of the program from 31 August through 31 December 1962 by the President's Executive Order previously referred to. This makes a net total of more than 5,500 trainees from the Georgia Army National Guard who have received this valuable training since its inception in 1957.

Military Publications

12. The Publications Section received and distributed approximately 50,000 new or revised publications or forms to all units and activities of the Georgia Army National Guard. In addition, this Section, requisitioned, stored and distributed approximately 4,500 line items of re-supply publications and blank forms from various publication supply sources; requisitioned and distributed all additional publications and forms required by units ordered into active military service; received and processed 3,000 separate requisitions from units in the Georgia Army National Guard with a total of 3,500 line items. The Section maintained some 30,000 stock records, and initiated and answered all correspondence relative to publications. During the year, the Section prepared and shipped approximately 20,000 individual pieces of mail pertaining to publications, and operated a central message center where intra-reservation mail is distributed.

APPENDIX I

* ARMY NATIONAL GUARD STRENGTH

<u>MAJOR UNITS</u>	<u>AUTHORIZED STRENGTH</u>				<u>ACTUAL STRENGTH</u>				<u>NO. UNITS</u>
	<u>OFF</u>	<u>WO</u>	<u>EM</u>	<u>AGG</u>	<u>OFF</u>	<u>WO</u>	<u>EM</u>	<u>AGG</u>	
48th Armd Div (Ga Part)	594	47	8813	9454	425	47	5385	5867	65
108th Arty Bde (AD)	187	13	2494	2694	123	26	1736	1885	21
102nd Sig Depot	98	24	1915	2037	74	21	844	939	11
Separate Units	72	13	1101	1186	82	25	907	1014	10
GRAND TOTAL	951	97	14323	15371	714	119	8872	9705	107

* Strength ceiling imposed on the Georgia Army National Guard by the National Guard Bureau for Fiscal Year 1962 9840.

Note The above strength figures include the 432 Off, WO and EM of the 111th Sig Bn ordered to Active Military Service at the call of the President of the United States effective 15 October 1961, but who are still assigned to the Georgia Army National Guard.

SECTION XII

OPERATIONS & TRAINING

1. Training in the Army National Guard falls in four general classifications:

- a. Armory drills.
- b. Week-end or multiple drill training.
- c. Annual active duty for field training.
- d. Service schools - Including army extention (correspondence) schools.

2. Armory Drills: Armory drills are normally scheduled once per week for a total of 48 per year. (Less any that are converted to multiple drills or week-end training). These assemblies are held at the unit armory and the subject matter taught is that which can be conducted indoors. By means of lectures, motion pictures, class room and sand table exercises. This training covers such subjects as:

- a. School of the soldier with and without arms.
- b. Weapons nomenclature and functioning.
- c. First aid and military sanitation.
- d. Crew served weapons training (except firing).
- e. Specialists training.
- f. Guard, parades, ceremonies, military courtesy and customs of the service.
- g. Map exercises and staff functions.

3. Annual General Inspections: The high point of armory training is the annual general inspection, when Inspectors General of the Regular Army test the proficiency of the unit in such fields as:

- a. Adherence to prescribed Army training directives.
- b. Alert and mobilization readiness.
- c. Supply, administration and motor maintenance.
- d. Care and maintenance of weapons, armories, records, vehicles and equipment.
- e. Personal knowledge, morale and appearance of individuals.

- f. Leadership qualities of officers and noncommissioned officers.
- g. Quality and quantity of assigned specialists. (cooks, mechanics, vehicle repairmen, radiomen, etc.)

4. The 99 units (company size) inspected during the training year, were graded as follows:

13 Superior Units
75 Excellent Units
11 Satisfactory Units
0 Unsatisfactory Units

- 5. Multiple Drills (Week-end Training): Multiple drills are held to:
 - a. Demonstrate and practice small unit operations.
 - b. Conduct known distance weapons qualifications and familiarization firing.
 - c. Conduct staff training which may include:
 - (1) War Games.
 - (2) Command Post Exercises.
 - d. Competitive marksmanship matches.
 - e. Marches, convoys, bivouacs, security, etc.
 - f. The incidental training afforded cooks, drivers, supply and administrative personnel by on-the-job training in their assigned functions.
 - g. Squad, platoon and crew served weapons firing combat problems.

6. Annual Active Duty for Training (2 weeks field training):

a. This training is under Federal active service and is normally conducted on a Regular Army military reservation where logistical and administrative support are provided as needed by the Regular services. All of the Georgia Army National Guard attended field training at Fort Stewart, Georgia, during the training year. A part of this training is the movement to and from the camp from local armories emphasizing training in convoy discipline, bivouacs, security and road march procedure.

b. Training at camp includes practical tactical exercises on suitable terrain and with logistical support not available at armory and week-end training sites. Combined unit exercises teach teamwork, operations at Battalion, Combat Command, Brigade and Division level. It further orients all participants on capabilities and functions of supporting and allied organic forces.

c. The active duty field training also affords boards of Regular officers an opportunity to test, analyze and measure the combat efficiency of National Guard units, personnel and equipment. Results of these test (recorded on Form 914) are disseminated to Department of Defense agencies concerned. This year's results show:

71 Units Rated Superior
28 Units Rated Excellent

7. Service Schools: Regular Service Schools available to officers and men of the National Guard consist of the following:

- a. Six months basic training for recruits.
- b. Officer Candidate Schools.
- c. Officers Branch School (basic and advanced).
- d. Officers Branch Refresher Courses.
- e. Command and General Staff College.
- f. Special (Nuclear) Weapons Schools.
- g. Specialists school for officers and enlisted men.
- h. Army Aviation Schools for both rotary and fixed wing pilots.
- i. Army Extension Schools (which provide a means through correspondence of professional self improvement to those individuals who are unable to take time from their civilian employment to attend service schools).

8. Georgia National Guardsmen were ordered to State active duty by the Governor on 10 occasions during the fiscal year. Occasion, unit concerned, and location of operations are described on chart on next page.

SECTION XIII

"Home of the Brave"
of the Georgia Beach.

Instructors for Georgia Military Institute's Officer Corps of the Georgia National Guard are based on experience as instructors in either military or civilian fields. Instructors must have successfully completed

"Maybe this will teach him how to make a correct display", says Tactical Officer Lt. George J. Hearn III of Monroe, Georgia.

and meet one of the following qualifications: 1. Army or Special National Guard Officer Candidate standing graduate of Georgia Military Institute, or 2. have recently completed a tour of active military duty.

A total of one hundred twelve (112) cadets attended GMI's inaugural active duty training program at Fort Gordon, Georgia. Eleven (11) of the one hundred twelve (112) cadets failed to satisfactorily complete the course of instruction.

"Now you must remember this!!!!", explains instructor, Capt. William R. Aiken of Covington, Georgia.

basic combat training, taught by the Infantry, requirement of 200 hours, a period of 18 months, consisting of 100 duty training periods.

Cadets are selected from the

"Where did you learn to give such a command as that?", demands Tactical Officer Lt. Otis C. Malcom, Jr. of Macon, Georgia.

"End of work day ---- but not for the Cadets"

GEORGIA MILITARY INSTITUTE

In September of 1960 Governor Vandiver authorized and appropriated money for the establishment of an officer candidate school for the Georgia Army National Guard.

The school was styled "Georgia Military Institute".

GMI was organized for, and dedicated to, the task of training selected enlisted men and Warrant Officers so they might qualify to accept appointments as commissioned officers.

The program of instruction for GMI is furnished by the Infantry School at Fort Benning Georgia with a minimum requirement of 200 hours. The schedule of instruction for GMI covers a period of 18 months, consisting of 8 weekend assemblies and two active duty training periods of two weeks each.

Instructors for Georgia Military Institute are selected from the Officer Corps of the Georgia Army National Guard. Selection of instructors is based on experience, personality, intelligence and proven ability as instructors in either military or civilian capacities. All instructors must have successfully completed a course in Methods of Instruction.

Tactical Officers are selected from the Officer Corps of the Georgia Army National Guard. They must be recommended by their Commanding Officer and meet one of the following qualifications: 1. Graduate of the Active Army or Special National Guard Officer Candidate School Programs. 2. Outstanding graduate of Georgia Military Institute. 3. Junior Officers who have recently completed a tour of active military service.

A total of one hundred twelve (112) cadets of Class Number One attended GMI's inaugural active duty training period 16-30 July 1961, at Fort Gordon, Georgia. Eleven (11) of the one hundred twelve failed to satisfactorily complete the course of instruction.

In February 1962, forty-seven (47) cadets applied for and were accepted for enrollment in GMI Class Number Two. The total enrollment of cadets at this time was one hundred forty-eight (148).

GMI conducted the second active duty for training period 10-24 June 1962 at Travis Field, Savannah, Georgia. A total of one hundred twenty-nine (129) cadets participated in this training; ninety-six (96) cadets of Class Number One and thirty-three (33) cadets of Class Number Two. Eighty-one (81) cadets of Class Number One and thirty-one (31) cadets of Class Number Two satisfactorily completed the course of instruction for this period.

A new class is scheduled to begin its course of instruction in February of each year. A total of one hundred twenty-five cadets can be accepted for enrollment in each class.

SECTION XIV ARMORY CONSTRUCTION PROGRAM

On 13 May 1952, the Office of the Adjutant General received a request from the Chief of the National Guard Bureau to execute an Agreement as required by Public Law 783, 81st Congress, in order to expedite the release of federal funds for armory construction if the State of Georgia desired to participate in the Armory Construction Program as authorized by the aforementioned Public Law.

By Executive Order dated 20 June 1952, Governor Herman E. Talmadge ordered that the Adjutant General, as Executive Head of the Military Division, Department of Public Defense, enter into such Agreement and contracts with the federal government and others within the purview of law as might be necessary to construct, expand, rehabilitate or convert facilities for the Georgia National Guard.

The original Agreement was executed by the Adjutant General on 26 June 1952 and approved by the Chief, National Guard Bureau, on 3 July 1952.

To date the Armory Construction Program has progressed as follows:

<u>FY 1954</u>					
<u>Location</u>	<u>Unit Size</u>	<u>Date Cont. Awarded</u>	<u>State Share</u>	<u>Fed. Share</u>	<u>Total Costs</u>
Bainbridge	1	24 Aug. 1953	\$25,327.50	\$75,982.50	\$101,310.00

In summation, all National Guard units in the State of Georgia now have a new facility constructed under Public Law 783 with the exception of those units located in Atlanta, Georgia, which still occupy a structure completed in 1941. It is anticipated that future expansion, alteration and addition will be needed due to reorganization recently directed by the Department of Army.

It is also anticipated in the future that an Armory-Shop-Hangar combination to be located at Fulton County Airport will be constructed for the Army Aviation Battalion of the 48th Armored Division to house, maintain and support the Air arm of the 48th Armored Division.

The foregoing construction has - in addition to bringing in over a million dollars federal funds - increased the state's land holdings by approximately 369 acres.

SECTION XV - MAINTENANCE ACTIVITIES FOR FISCAL YEAR 1962

The Combined Field Maintenance Shop of the Georgia National Guard, located in Atlanta, Georgia, performs field maintenance on all equipment of the Georgia National Guard (Army) either in the shop in Atlanta or by contact team dispatched therefrom to units or organizational maintenance shops throughout the State. The Combined Field Maintenance Shop is maintained by personnel in the categories as listed below:

1 each Shop Superintendent	1 each Jr Artillery Repairman
3 each Inspector	2 each Small Arms Mechanic
1 each Shop Foreman	1 each Instrument Repairman
1 each Parts Specialist	1 each Electronic Section Chief
1 each Production Control Clerk	2 each Sr Signal Repairman
1 each Automotive Section Chief	2 each Signal Repairman
7 each Sr Automotive Repairman	1 each Machinist
23 each Automotive Repairman	1 each Welder
7 each Jr Automotive Repairman	3 each Canvas & Leather Repairman
1 each Elec Repairman	1 each Painter Sr
1 each Armament Section Chief	1 each Painter
1 each Artillery Repairman	

The annual payroll for Field Maintenance technicians for Fiscal Year 1962 amounted to \$929,887.75. This includes payment of personnel at the Combined Field Maintenance Shop, Army Aviation Maintenance Shop and Field Training Equipment Concentration Site. A total of \$439,294.64 was spent for spare parts during Fiscal Year 1962 for the maintenance of National Guard equipment.

There were 10,176 repair jobs completed by the Combined Field Maintenance Shop during Fiscal Year 1962, requiring a total number of 86,551 man hours. The maintenance inspection team inspected 11,627 items during Fiscal Year 1962.

**AUTOMOTIVE AND POWERED EQUIPMENT
MAINTAINED BY
COMBINED FIELD MAINTENANCE SHOP**

<u>Nomenclature</u>	<u>Quantity</u>
Automobile, sedan (all makes and models)	37
Trucks and truck-tractors, thru 2½-ton, incl (except amph)	1540
Trucks and truck-tractors, over 2½-ton (incl Prime Mover for Earth Pan)	103

Lubricator, engine driven	4
Grader, road, motorized, machine ditching, rock crushers, machine paving, cement mixer, 5 yds and over	15
Compressor, air, 30 thru 210 CFM	34

MAINTENANCE ACTIVITIES
OF THE
FIELD TRAINING EQUIPMENT CONCENTRATION SITE
FISCAL YEAR 1962

1. The mission of the Concentration Site is to receive, store, issue, account for, and maintain heavy mechanical TOE equipment, such as special purpose vehicles, motorized cranes and shovels, graders, track laying vehicles, tank transporters, artillery materiel of all types, mobile signal and radar equipment and "on equipment material" pertaining to such equipment used by two or more states during field training. The storage of this equipment at the field training site eliminates the necessity for shipping to and from home stations, thereby effecting great savings in transportation costs. It also provides more efficient maintenance with fewer personnel by having the equipment pooled in one location and the life of costly equipment is extended through reduction of wear and tear usually incident to shipment of large quantities of material.

2. The Concentration Site has the responsibility for organizational and field maintenance of all equipment stored except during field training periods when the equipment is actually in the hands of the using units, during which time this responsibility is borne by the units or their support organizations. Back-up field maintenance support is provided by the Concentration Site to using units when this support is beyond the capabilities of their normal supporting units.

3. There is presently located at the Concentration Site the following list of equipment, plus related items that are necessary for the operation and maintenance of this materiel, such as radios, instruments, machine guns and tools:

8 Generator Set, 5 KW
17 Carriage, Motor, 105MM Howitzer, Self-Propelled
128 Gun, Twin 40MM, AA, Self-Propelled
85 Armored Personnel Carrier, M75
39 Tank, 76MM Gun, M41A1
207 Tank, 90MM Gun, M48
1 Transporter, Tank

4. The monetary value of the above equipment is approximately \$45,000,000. The majority of these items are utilized during four different field training periods each summer, with states in the Third U. S. Army area having equipment issued to them for use during their field training. The field training site at Fort Stewart is normally used each year by two Armored Divisions, one Armored Group, one AAA Brigade, one Corps Artillery and several separate units, with a total of approximately 30,000 troops.

5. During Fiscal Year 1962, major item property transactions with using units during four field training periods involved the issue and turn-in of over 800 track vehicles and 141 pieces of anti-aircraft

artillery equipment, plus the necessary related items of OEM. Using an average distance of 300 miles, the transportation cost for shipment of this amount of equipment to and from home stations would amount to approximately \$1,101,250. In addition to this figure would be added the cost of manpower and blocking and crating materiel, which would amount to an average of \$150 per major item, or approximately \$133,500, which, added to the \$1,101,250 transportation cost, amounts to a total cost of \$1,234,750. During Fiscal Year 1962, salaries of the Concentration Site personnel amounted to approximately \$240,000 and funds expended for repair parts and supplies to repair equipment amounted to approximately \$175,000, a total of approximately \$415,000 expended for the operation of the Concentration Site. This figure, subtracted from the savings effected in transportation costs, amounts to approximately \$819,750 net savings during Fiscal Year 1962.

6. There were 3,920 property transactions involving the receipt and issue of spare parts and supplies, and 291 transactions involving memorandum receipt property during the fiscal year.

7. Under the present personnel manning criteria, the Concentration Site is manned by 60 full-time employees.

MAINTENANCE ACTIVITIES
OF THE
ARMY AVIATION MAINTENANCE SHOP
FISCAL YEAR 1962

The Army Aviation Maintenance Shop located at Travis Field, Savannah, Georgia, is responsible for the field maintenance of Army aircraft assigned to the Georgia Army National Guard. During Fiscal Year 1962, the State was assigned 15 fixed wing aircraft and 5 helicopters. The Army Aviation Maintenance Shop is manned with 14 full-time aircraft maintenance technicians.

MAINTENANCE ACTIVITIES
OF
ORGANIZATIONAL MAINTENANCE SHOPS
FISCAL YEAR 1962

Organizational maintenance of the Georgia National Guard (Army) is performed by nineteen (19) organizational maintenance shops within the State. These organizational maintenance shops are geographically located in order that all units of the Georgia National Guard can receive organizational maintenance with a minimum of travel involved for the employees of these organizational maintenance shops. These shops performed organizational maintenance for 106 units and detachments throughout the State. Organizational maintenance shops within the State are located and operated by number of personnel as listed below:

Organizational Maintenance Shop Nr 1

Location: 959 E. Confederate Avenue, S. E., Atlanta, Georgia

Units Serviced

Hq & Hq Detachment	420th Signal Detachment
48th MP Company	Hq Btry, 108th Arty Brigade
201st Ordnance Company (DS)	148th Aviation Company

Number of Personnel Employed: 6

Organizational Maintenance Shop Nr 2

Location: 4460 Mead Road, Macon, Georgia

Units Serviced

CHAPTER III AIR NATIONAL GUARD

SECTION XVI

ORGANIZATION

1. The only organizational change during this fiscal year was the reorganization of the 165th Fighter Group, Travis Field, to the 165th Air Transport Group (Heavy). This completes reorganization of the 116th Air Transport Wing units to the air transport mission.

2. In addition, the 158th Aeromedical Evacuation Flight was activated at Travis Field and attached to the 158th Air Transport Squadron. This gives the state one Aeromedical Evacuation Squadron and two Flights, which provides aeromedical evacuation capabilities at Dobbins AFB and Travis Field.

SECTION XVII

PERSONNEL

1. The organizational changes outlined above resulted in an increase in officer personnel authorized, increasing from 346 on 1 July 1961 to 443 on 30 June 1962. Most of the additional positions authorized were in the aircrew spaces (pilots and navigators).

2. There was a net loss in assigned personnel again this fiscal year; this can be attributed to the lack of training spaces for non-prior service personnel. Our recruiting efforts toward prior service personnel have not achieved the desired results, and only 198 basic training spaces were received for the fiscal year, which was insufficient to maintain our previously assigned strength.

3. Table A shows authorized and assigned strength of Air National Guard units as of 30 June 1962.

4. A roster of officer personnel is shown in Section XVIII.

SECTION XIX

TRAINING

1. The conversion of the 128th Fighter Interceptor Squadron during last fiscal year and the 158th Fighter Interceptor Squadron during this fiscal year to an air transport mission has required an intense retraining program to be initiated. All pilots were required to attend a Mobile Training Detachment on the C-97 aircraft, after which they went through the Flight Simulator, before they could be transitioned from the F-84F to the C-97.

2. Maintenance personnel also were required to undergo training from the jet engines to the reciprocating engines on the C-97. In addition to this, flight engineers and loadmasters had to be trained, most of them requiring extensive training at AF Technical Schools. This was done in the shortest possible time, even though the operations and maintenance activities had to be continued while the training was conducted.

3. Flight training of all personnel has been accomplished by the conduct of training flights, both in the United States and to overseas areas. Flights are made over regular MATS overseas routes, and while aircraft are outside the United States, they are under control of MATS. During the performance of these training flights, cargo is transported in support of MATS, which is also providing an excellent training program for our loadmasters.

4. In addition to flights of our aircraft to Puerto Rico and local training of aeromedical evacuation personnel, live in-flight missions are being performed by these medical personnel with MATS in overseas areas.

5. During fiscal year 1962, there were 109 airmen who attended basic training at Lackland Air Force Base, Texas while 89 airmen attended basic training with subsequent entry into a technical school. USAF Service Schools were attended by 24 officers and 16 airmen.

6. Following are dates and locations of field training for all units during fiscal year 1962:

<u>UNIT</u>	<u>SITE</u>	<u>DATES</u>
116th Air Transport Wing	Dobbins AFB, Ga	13 - 27 Aug 61
165th Air Transport Group	Travis Fld, Savannah, Ga	10 - 24 Jun 62

SECTION XX

EQUIPMENT AND SUPPLIES

1. The 128th and 158th Air Transport Squadrons are each authorized eight C-97 aircraft, and each has assigned one C-47 aircraft.

2. All units have on hand approximately 90% of supplies which are authorized by applicable directives. There is no shortage which would prevent all units from accomplishing their federal mission if they were called upon to do so.

PART II

CIVIL DEFENSE DIVISION

FOREWORD

In response to the special threat which nuclear weapons and sustained international tension pose to the safety and survival of the civilian population, as well as to our security as a State and a Nation, both the Federal and State Governments have written into Law plans for nonmilitary defense of the home-front as an adjunct to military preparedness.

The Georgia Civil Defense Act of 1951, as amended, is the basis for establishing Civil Defense organization at State and local levels. The Act gives the Governor extraordinary powers in case of a Civil Defense emergency and provides for mutual aid between states and between Georgia's counties and towns.

The Policy and Purposes of the Law are set forth as follows:

"Because of the existing and increasing possibility of the occurrence of disasters or emergencies of unprecedented size and destructiveness resulting from enemy attack, sabotage or other hostile action, and in order to insure that preparations of this State will be adequate to deal with such disasters or emergencies, and generally to provide for the common defense and to protect the public peace, health and safety, and to preserve the lives and property of the people of the State of Georgia, it is hereby found and declared to be necessary: (1) to create a State Civil Defense Agency, and to authorize the creation of local organizations for Civil Defense in the political subdivisions of the State; (2) to confer upon the Governor and executive heads the emergency powers provided herein; (3) to provide for the rendering of mutual aid among the political subdivisions of the State, and with other States, and with the Federal Government with respect to the carrying out of Civil Defense functions; and (4) to authorize the establishment of such organizations and the taking of such steps as are necessary and appropriate to carry out the provision of this Act."

The ensuing report covers the progress made during the 1961-1962 biennium towards fulfilling requirements of this Law.

BASIC PLAN OF OPERATION

Survival plans prepared under the supervision of the State Civil Defense Agency form the basis for all Civil Defense Operations in the State. These plans are practical, based upon the utilization of already existing facilities and services within our governmental structure at all levels. They are also realistic, based upon assumptions issued by Federal authorities and updated as required by the changing international situations. Properly established, they represent not only our best security, but a possible deterrent to enemy aggression.

Publications produced and distributed include the overall State Survival Plan, Individual Survival Plans for target areas and a prototype Reception and Care Plan for all support counties to follow and adapt to their respective situations.

All basic State Agencies, such as Health, Welfare, Public Safety, Highway Department, etc. have received delegations of responsibility and each has prepared a separate Annex for its section. The Coordinators of these agencies meet bi-monthly at State Civil Defense Headquarters to discuss their related problems and make plans.

LOCAL CIVIL DEFENSE

The establishment of the local Civil Defense of a County or Municipality is the responsibility of the governing authority of that political subdivision, Civil Defense is an operation of Civil Government, utilizing all resources and manpower under emergency conditions.

All local Civil Defense Directors are nominated by the executive head of the political subdivision and are appointed by the Governor. Funds for operation are allocated by the local County Commission or Mayor and City Council, in some instances these funds will be "matched" by the Federal Government.

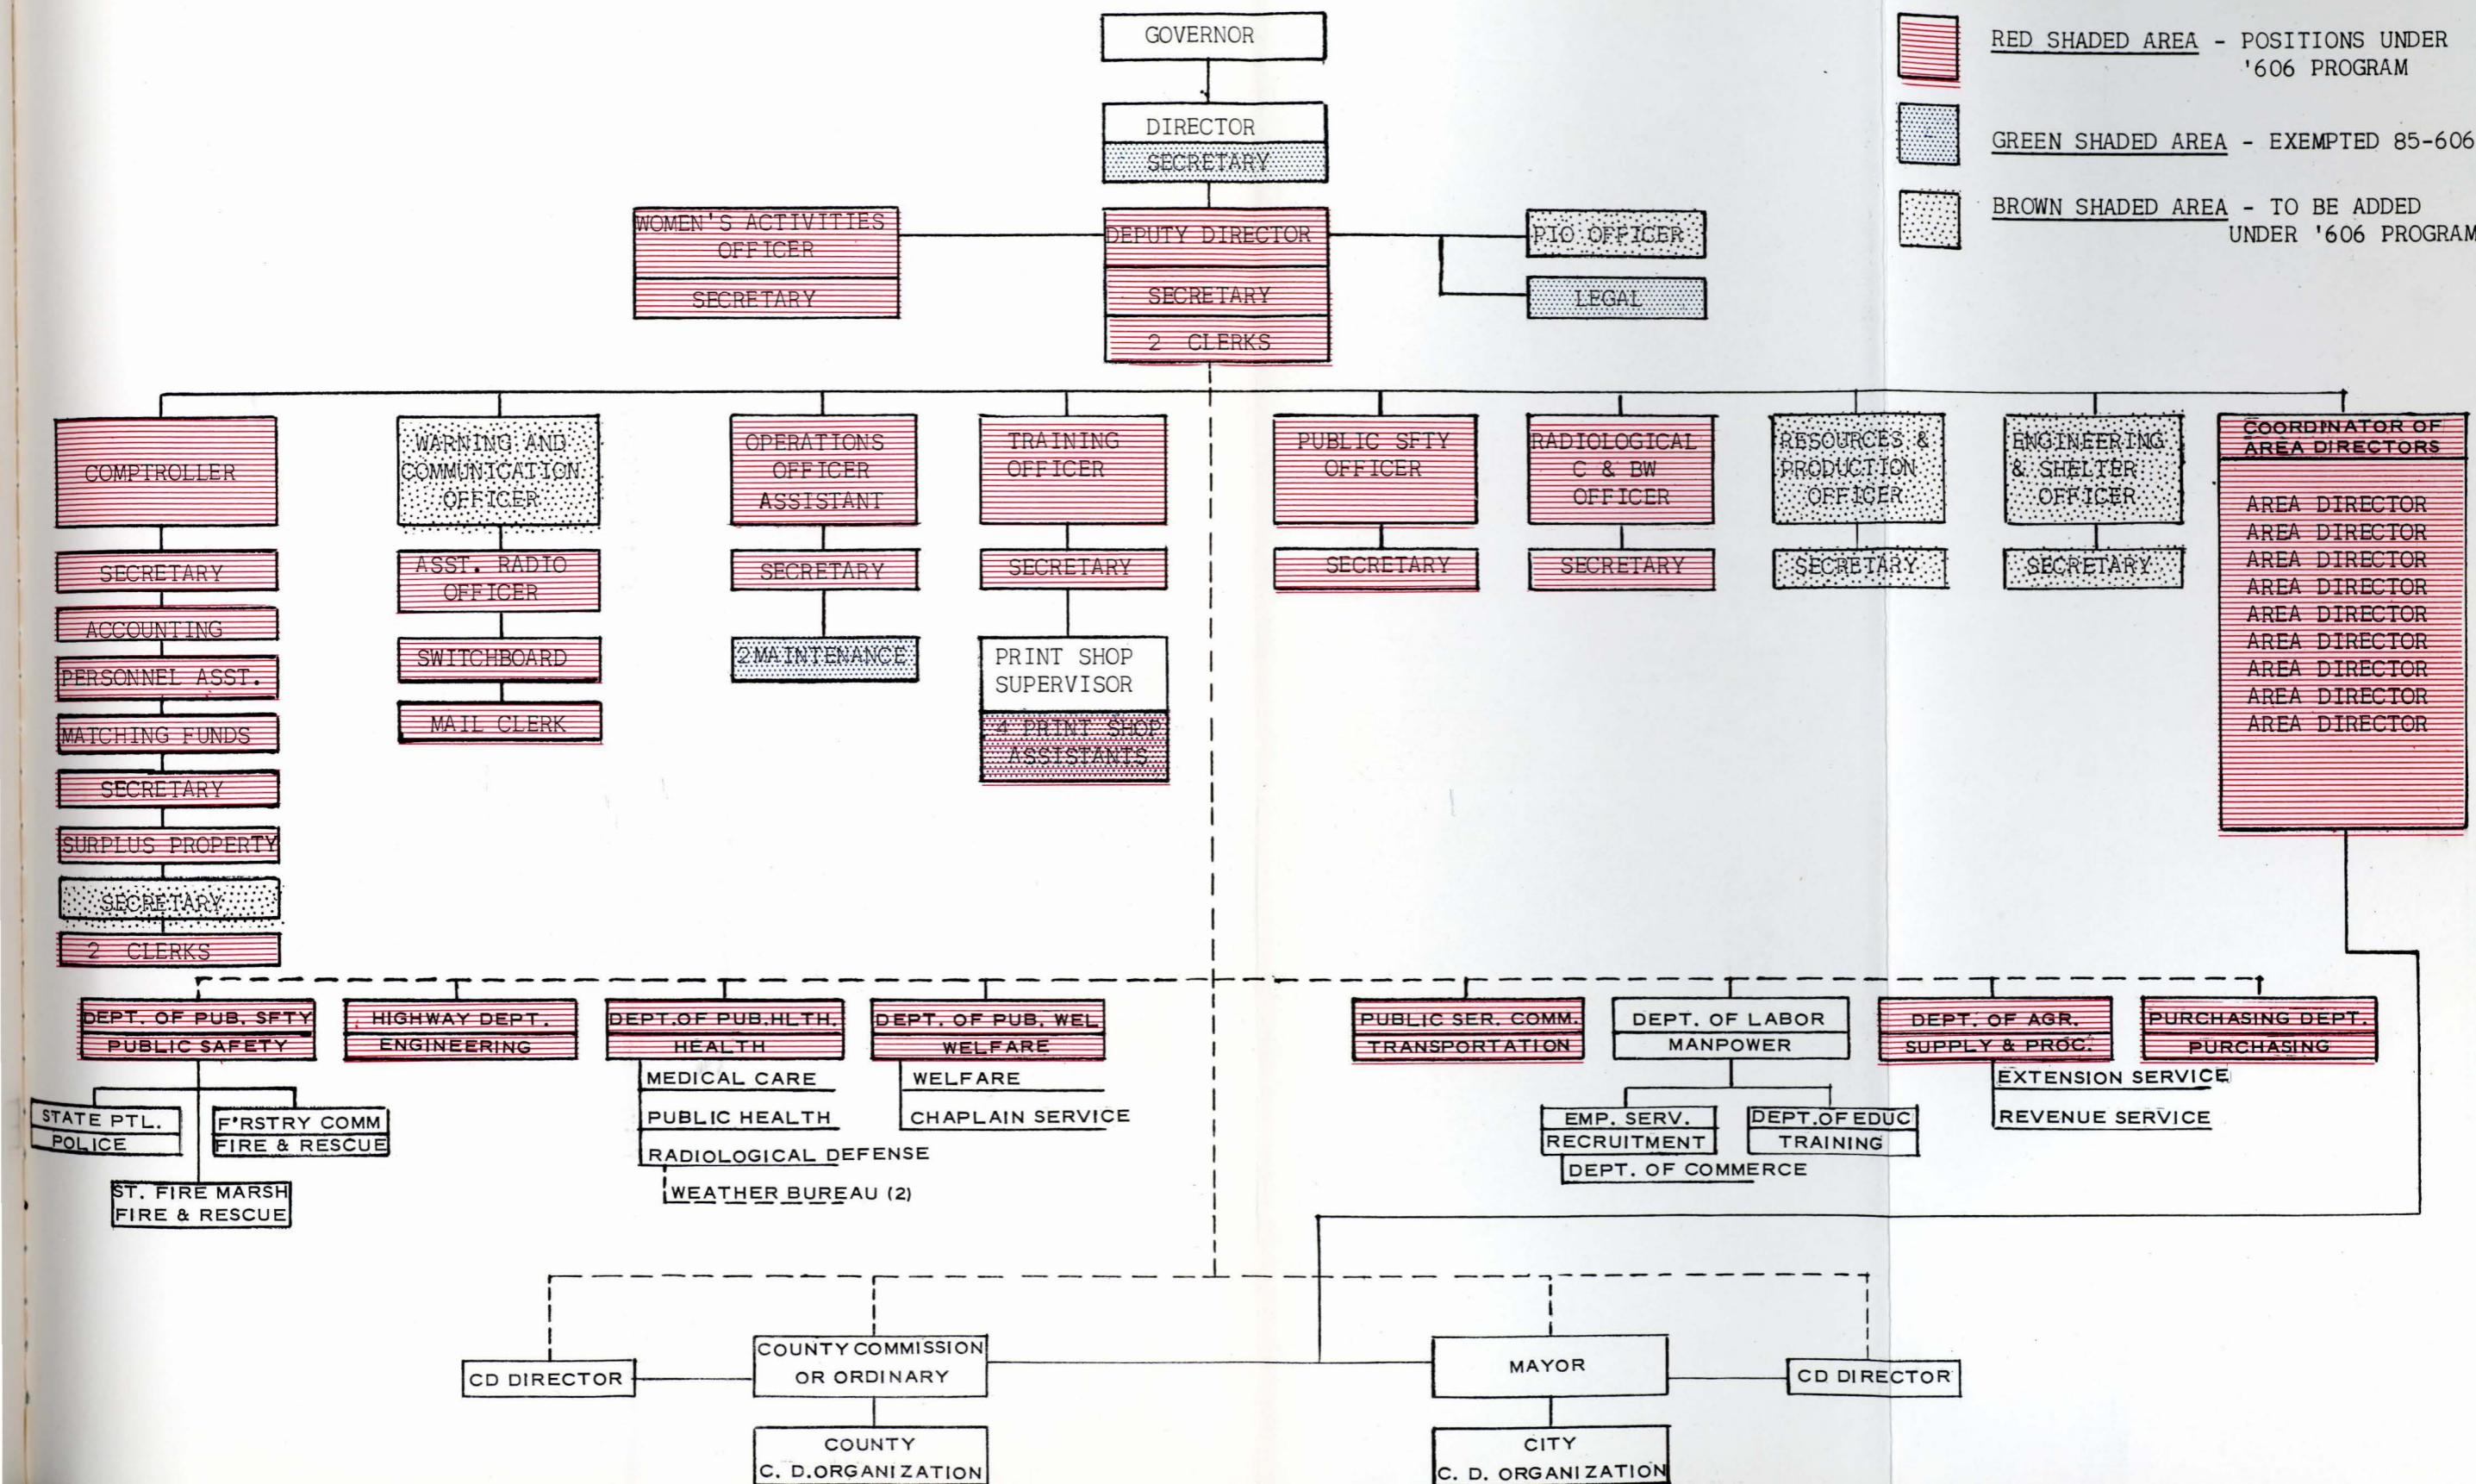

There are 437 local political subdivisions in Georgia at present with Civil Defense organizations, the primary leadership for these organizations numbers approximately 7,000 persons.

The State Agency employs ten Area Directors who are assigned an "Area" of approximately twenty counties and their responsibility is to do what is necessary to assist the local director in bringing his organization to an operational readiness status.

As FY 62 draws to a close the job of finding shelter for four million Georgians becomes larger with each day. Out of 4,000 potential public shelters that the U.S. Army Corps of Engineers and the contracting Architects and Engineers have looked at, there are some 1500 that may be suitable to stock and use at this time. If these shelters provide for a minimum of 50 persons each, then it is possible to protect about 75,000 persons at this time in public fallout shelters, this is far from four million - The emphasis on programming for FY 63 will be "Shelters". This program must include plans for selection, modification, stocking, use and management. During FY 63 it is anticipated that we will have to train 255,600 persons in the performance of these tasks.

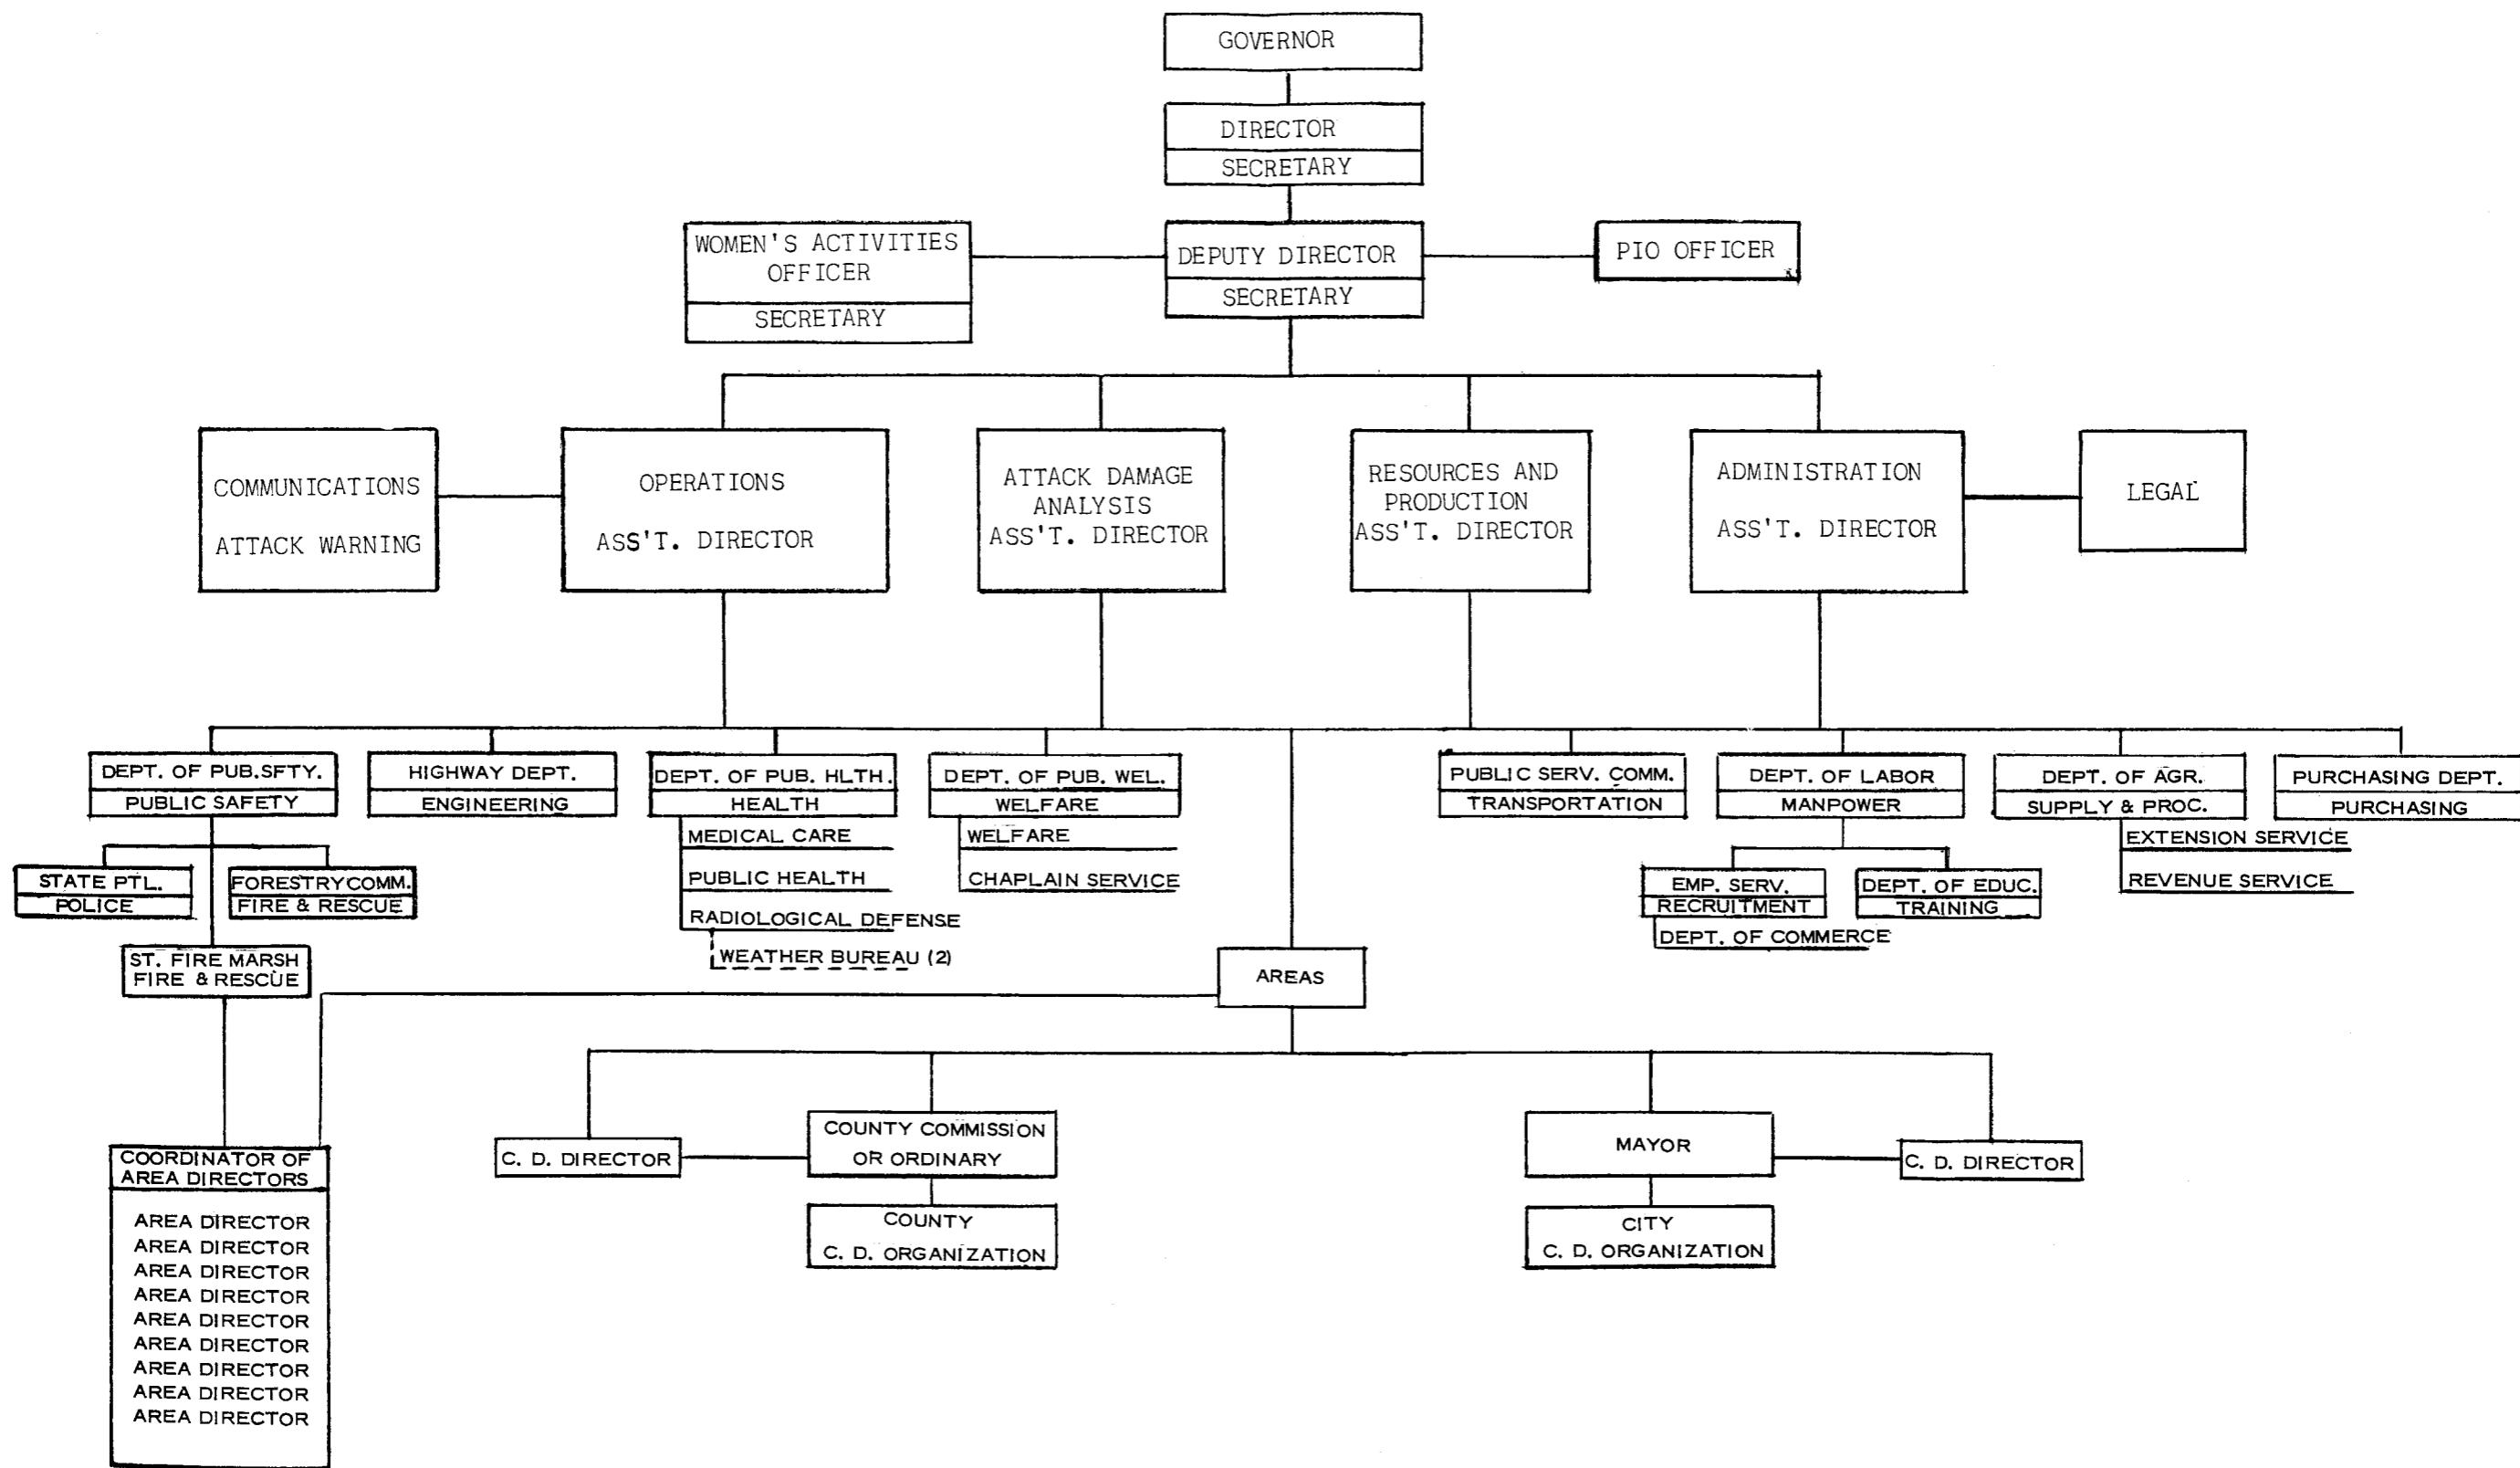

NORMAL OPERATIONS ORGANIZATION

1 JULY 1961 - 1 JULY 1962

EMERGENCY OPERATIONS ORGANIZATION

1 JULY 1961 - 1 JULY 1962

REPORT OF THE PERSONNEL & ADMINISTRATIVE PROGRAM

January 1, 1961, Federal Matching Funds were made available to the State of Georgia to project efforts of Civil Defense. Cities and Counties receiving Personnel & Administrative Funds have made an outstanding progress in their Civil Defense Program.

Counties and Cities under the P & A Program for the State of Georgia are:

Adel-Cook Co., Albany-Dougherty Co., Americus-Sumter Co., Ashburn-Sycamore-Turner Co., Athens-Clarke Co., Atlanta-Fulton-Dekalb Co., Augusta-Richmond Co., Bainbridge-Decatur Co., Brunswick-Glynn Co., Buena Vista-Marion Co., Cairo-Grady Co., Calhoun-Gordon Co., Carrollton-Carroll Co., Clarkesville-Habersham Co., Clayton Co., Cobb Co., Cochran-Bleckley Co., Dalton-Whitfield Co., Darien-McIntosh Co., Dooly Co., East Point, Elberton-Elbert Co., Fitzgerald, Forest Park, Gainesville-Hall Co., Glennville, Hapeville, Jefferson Co., Jones Co., Laurens Co., LaGrange-Troup Co., Lawrenceville-Gwinnett Co., Macon Co., Macon-Bibb Co., Marietta, Monroe-Walton Co., Monticello-Jasper Co., Moultrie-Colquitt Co., Newnan-Coweta Co., Ocilla-Irwin Co., Polk Co., Quitman-Brooks Co., Reidsville, Rome-Floyd Co., Royston, Savannah-Chatham Co., Smyrna, Statesboro-Bulloch, Sylvania-Screven, Sylvester-Worth Co., Tattnall Co., Thomaston-Upson Co., Thomasville, Tifton-Tift Co., Valdosta-Lowndes, Warner Robins, Washington-Wilkes Co., Waycross-Ware Co., Agriculture Department, Health Department, Highway Department, Public Safety Department, Public Service Commission, Welfare Department, Purchasing Department, and State Civil Defense Department.

Ones in Progress:

Gray, Pembroke-Byran

There will be approximately twenty (20) new subdivisions which have asked to come under the Personnel & Administrative Funds Program for Fiscal Year 1963.

Thomaston					5,567.50	1	5,567.50
Total	\$4,120.55	\$1,200.00	\$12,385.24	\$600.00	\$14,258.76	41	\$32,564.55

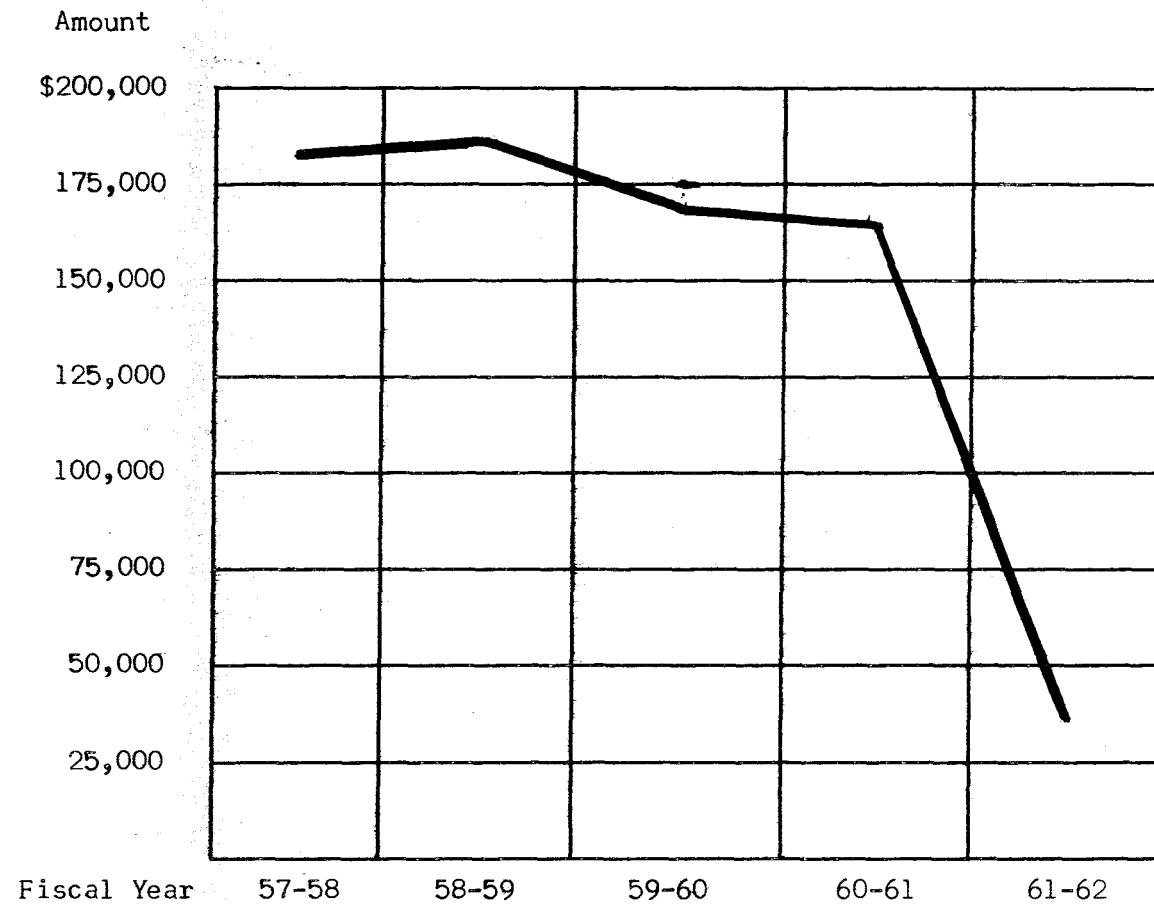

FEDERAL CONTRIBUTIONS FOR SUPPLIES, EQUIPMENT, AND FACILITIES
 1 July 1961 - 9 May 1962

	<u>Communications</u>	<u>Police</u>	<u>Rescue</u>	<u>Training</u>	<u>Warning</u>	<u>Total Applications</u>	<u>Federal Share</u>
Disapproved Applications	4,071.07			452.62	314.75	10	4,838.44
The following represents applications expected to be approved prior to 30 June 1962:							
Awaiting Federal Approval	19,425.10	452.50	6,417.67	2,856.53	585.25	22	29,737.05
Additional Justification requested	10,849.35					5	10,849.35

The total amount shown reflects only Federal Share or one half of the program.

Additional regulations have been imposed on the Contributions Program. In order for a political subdivision to be eligible for Federal Contributions, it must have a legally constituted civil defense organization with a full-time or part-time director and a State approved operational plan consistent with the State Plan. The result is that we will not accomplish as much in the Fiscal Year 1962 as during the prior five fiscal year periods. A comparison of these periods is shown by the chart on the following page.

FEDERAL CONTRIBUTIONS FOR SUPPLIES, EQUIPMENT, AND FACILITIES
Fiscal Year Periods 1958 - 1962

SURPLUS PROPERTY DONATIONS
1 JULY 1961 - 1 JULY 1962

Listed below by political subdivisions are the Federal Government Acquisition Cost and Donee Cost covering Fiscal year period 1 July 1961 - 1 July 1962.

These donations have been based on the capabilities, locations, and Operational Plans submitted to the State Civil Defense Director.

Federal donations after 1 October 1961 of all items listed "NO" in the Federal Classification Catalog (FSC), require sufficient justification from a political subdivision to qualify for these heavy-duty items such as motor graders, bulldozers, road scrapers, and cranes.

ANNUAL REPORT
COORDINATOR OF AREA DIRECTORS

1 JULY 61 - 1 JULY 62

The Civil Defense Program of the State of Georgia has been divided into eight geographical areas. Each area is assigned an Area Director, and the general nature of his work is to supervise and coordinate all civil defense activities within his assigned area. Duties are performed under general supervision.

1. EXAMPLES OF WORK.

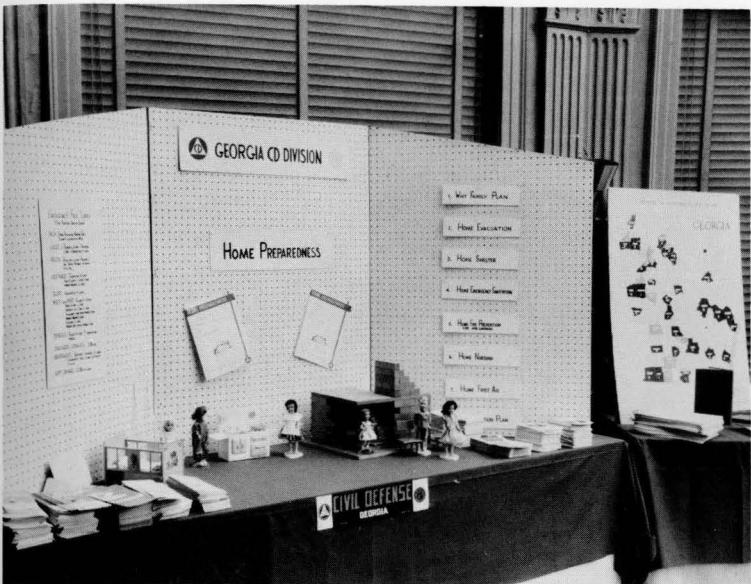

- A. Advise local civil defense directors and local officials on the development of organizational plans, and on the preparation of operational plans and ordinances.
- B. Advise and assist local civil defense directors and officials on the proper procedures for obtaining literature, equipment, and specialized assistance.
- C. Consult with and advise local civil defense officials in developing emergency operating centers, and in planning for the preservation of essential records.
- D. Maintain liaison between the State Civil Defense Director, State Staff and the civil defense directors and officials of the political subdivisions within the assigned area.
- E. Conduct meetings to brief officials and local civil defense directors in planning and organizational matters; speak to public gatherings regarding the plans, objectives, of the civil defense effort.

All of the appointed eight Area Directors for the State of Georgia have completed the following courses:

- 2. BASIC CIVIL DEFENSE COURSE
- 3. BASIC CBR MONITORING COURSE, under the supervision of Mr. Walter Chesnut.
- 4. STATE STAFF OPERATIONS AND ADMINISTRATION PROCEDURES
- 5. SURPLUS PROPERTY - MATCHING FUNDS
- 6. BASIC RESCUE COURSE
- 7. NATURAL DISASTER BRIEFING
- 8. RURAL CIVIL DEFENSE BRIEFING

The number of towns contacted during the fiscal year 1 July 61 to 1 July 62 is 1,927. The total number of people contacted through organized groups such as P.T.A., and civic organizations is 22,875.

Late in FY 62 - under reorganization, a new position was created, that of Coordinator of Area Directors. It is expected that the program will be strengthened by this action.

WOMEN'S COORDINATOR

Home Preparedness Workshops	42	3,610
Seminars for Instructors	9	309
Speaking Engagements	<u>39</u>	<u>4,663</u>
TOTAL	90	8,582

A continued effort to get local Coordinators of Women's Activities appointed resulted in 53 new appointees bringing the total to 131.

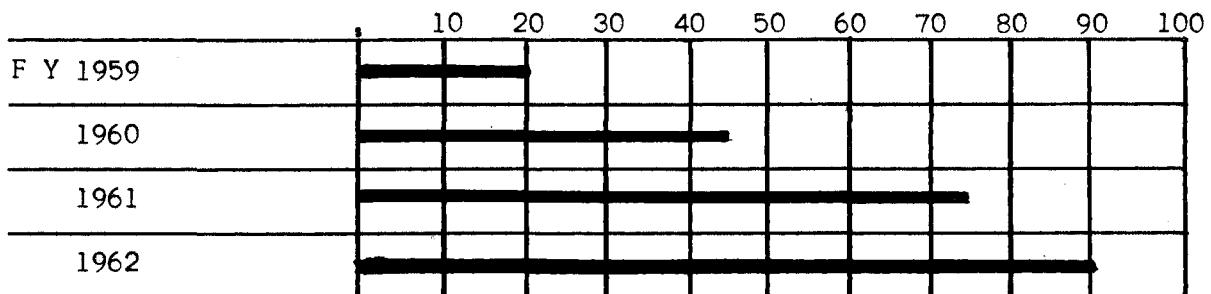

Numerous pieces of literature were developed, printed and distributed including the "Women's CD Council", a handbook for members of the local council for women's activities. This handbook includes: Council Structure and Function; Interrelationship of Council and Coordinator; Membership; Committees; Program Suggestions; Education available; Club Projects; CD Organizational Charts; and Directory of local members.

COMMUNICATIONS

COMMUNICATIONS AND WARNING

1 JULY 1961 - 1 JULY 1962

In the field of Communications and Warning, State Civil Defense Control Center, located in Atlanta, Georgia, is the only place in Georgia where all the State Radio Nets are tied together.

In Georgia, we have ten communication networks to handle the dissemination of messages during emergencies and regular day-to-day traffic.

The Ten Networks are:

1. THE GEORGIA STATE HIGHWAY MAINTENANCE NET

The Georgia State Highway Maintenance Net has seven - 250 watt base stations and twelve 50 watt base stations and approximately 300 mobile units. Under the State Plan, the Highway Maintenance Department is responsible for all heavy-duty rescue work and engineering services.

2. INTER-CITY POLICE NET

There 94 police stations on the Inter-City Police Network, operating on the Civil Defense coordinating frequency of 155.37 mc. These stations are in contact with the next near by city and in some instances more than one other city. Thus, all 195 radio equipped police stations throughout Georgia are able to be brought into Civil Defense.

3. RADIO AMATEUR CIVIL EMERGENCY SERVICE

The Radio Amateur Civil Emergency Service, better known as RACES, will be the only non-governmental and non-commercial radio stations licensed to operate in time of a national emergency, brought on by armed attack, against this nation. The Georgia State Civil Defense RACES Network is intended to provide a command net with direct radio communications between the State Civil Defense Control Center and other RACES stations located throughout the entire State of Georgia in the event of armed attack or of any disaster or other incident endangering public safety. This service provides communications by radiotelephone and c.w. There are 268 RACES members in the State of Georgia.

4. CIVIL AIR PATROL

The function of the Civil Air Patrol in Civil Defense is to provide communications between State and designated Municipal Civil Defense Directors and also be used in aerial monitoring. This is accomplished by having approximately 70 base stations operating on Very High Frequency and 130 mobile units on High Frequency and Very High Frequency also 20 air borne radios and 20 walkie talkies.

5. GAME AND FISH COMMISSION

The function of the Game and Fish Commission in Civil Defense is to back up the Police. The Game and Fish Commission have a total of 19 base radio stations and approximately 300 mobile units.

6. MILITARY AFFILIATE RADIO SERVICE

Due to the fact that the Armed Forces has first call on the use of MARS stations, the Army and Air Force MARS will not be used unless the Federal Government assigns them to civilian use.

7. GEORGIA STATE FORESTRY COMMISSION NET

The Forestry Commission has a total of 398 base stations and 983 mobile units and is responsible for light-duty rescue, warning and rural fire defense.

8. NACOM 1

NACOM 1, which is a teletype network, ties Georgia in with all Regional and State Civil Defense Offices, throughout the United States. Until a time of national emergency these machines will not be activated. All messages, until such time, will be sent by way of the Teletype Exchange Service.

9. CITIZENS BAND RADIO

Citizens Band communications provides for communication from the field to the Local Civil Defense Director and is the newest form of communications to be employed by Civil Defense within the last year. There are now approximately 275 Citizens Band operators working in Civil Defense in the State of Georgia.

10. NATIONAL WARNING SYSTEM

A great deal of effort is being put forth to develop and refine methods for statewide dissemination of Civil Defense warning. The Georgia State Patrol Headquarters located in Atlanta, Georgia, is the State Warning Point from which messages from the Continental Air Defense Command and the Air Defense Command are disseminated to all points of Georgia. There are now a total of sixteen Warning Points located throughout the State. Four of these sixteen having been installed within the first two weeks of April 1962.

The Local Warning Points are located in the following principal cities of Georgia:

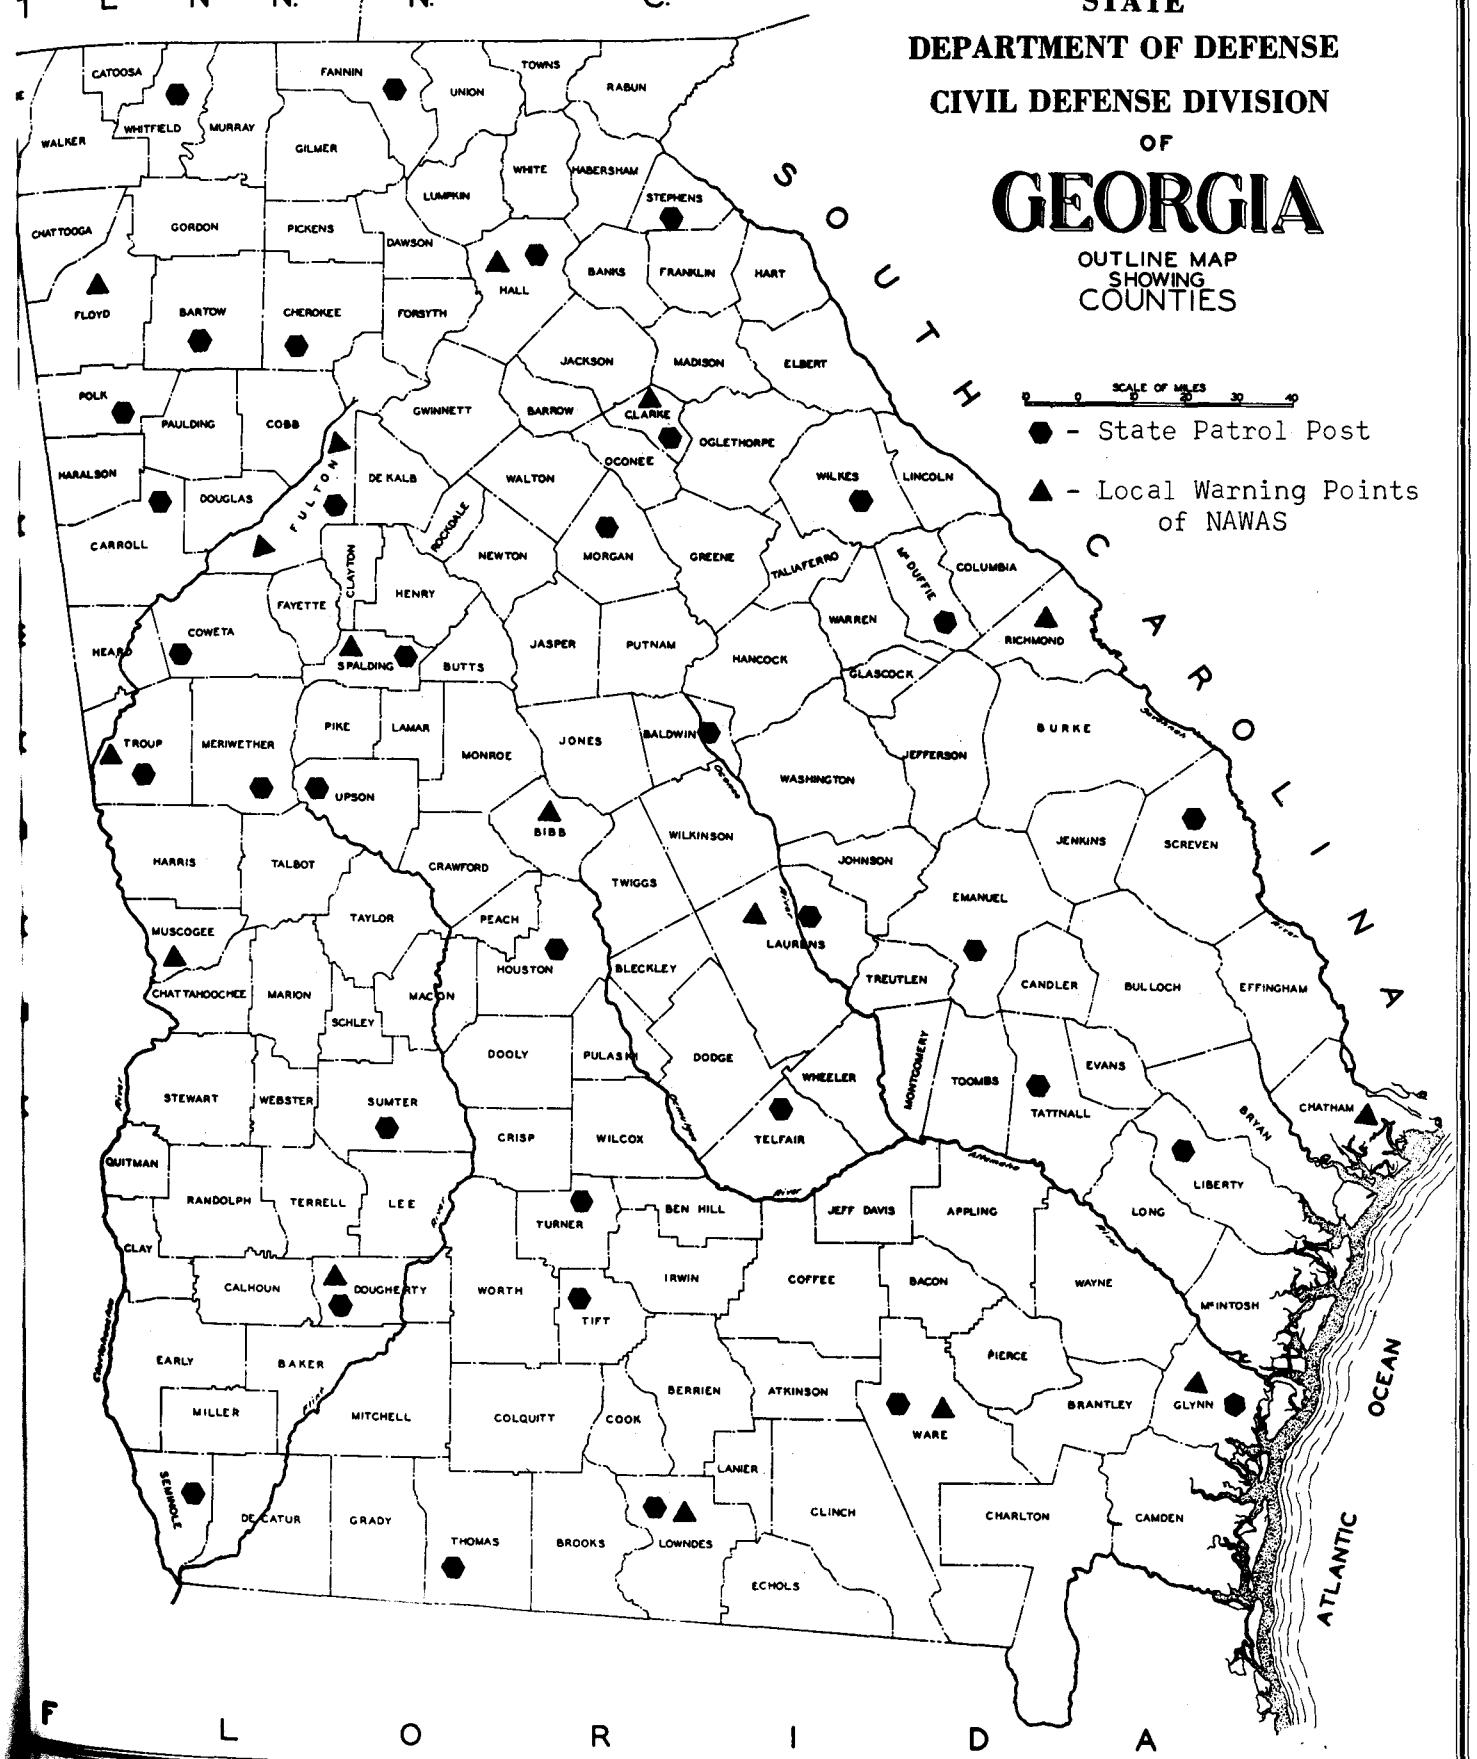

a. Albany	i. Gainesville
b. Athens	j. Griffin
c. Atlanta	k. LaGrange
d. Atlanta Federal Penitentiary	l. Macon
e. Augusta	m. Rome
f. Brunswick	n. Savannah
g. Columbus	o. Valdosta
h. Dublin	p. Waycross

OPERATIONS

OPERATIONS SECTION
1 JULY 1961 - 1 JULY 1962

Beyond normal day-to-day functions, the Operations Section objectives and progress made in attaining the same during the period of this report was:

1. Objective

Update the State Operational Survival Plan by coordinating and assisting State Agencies in revising and updating Annexes to the State Plan to reflect a more realistic operational capability.

Progress

- a. Manpower, Health, Transportation, Supply and Welfare Service Annexes have been prepared and reviewed.
- b. The Warning and Communication Annex, formerly a part of the Basic Plan, has been completed in accordance with OCD and FCC rules and will become effective 1 January 1963.
- c. The remainder of the Service Annexes are in the process of revision.

2. Objective

Develop closer coordination between State Civil Defense Division and State Agencies by conducting bi-weekly meetings of State Staff and State Agency personnel.

Progress

- a. Bi-weekly meetings of the State staff and State Agencies became effective early this year and have proved to be most productive.

3. Objective

Develop and conduct a series of training exercises to familiarize State Civil Defense and State Agency personnel with Control Center Operations.

Progress

- a. Three such exercises have been conducted and the knowledge gained by all personnel involved indicates that such training is invaluable.
- b. Continued emphasis will be placed on this program and additional exercises are planned for Fiscal Year 1963.

4. Objective

Complete a program to update local civil defense organizations' Operational Plans based on State manual, "If Attack Comes," which was designed as a guide for local governments in forming civil defense organizations.

When this manual is followed step-by-step, it greatly simplifies the task involved in formulating the plan and annexes.

Progress

- a. This program was placed in effect and has resulted in updating over 60% of local civil defense organizations' Operational Plans.
- b. Emphasis will be continued on this program until all organizations' Operational Plans are updated and uniform throughout the State.

5. Objective

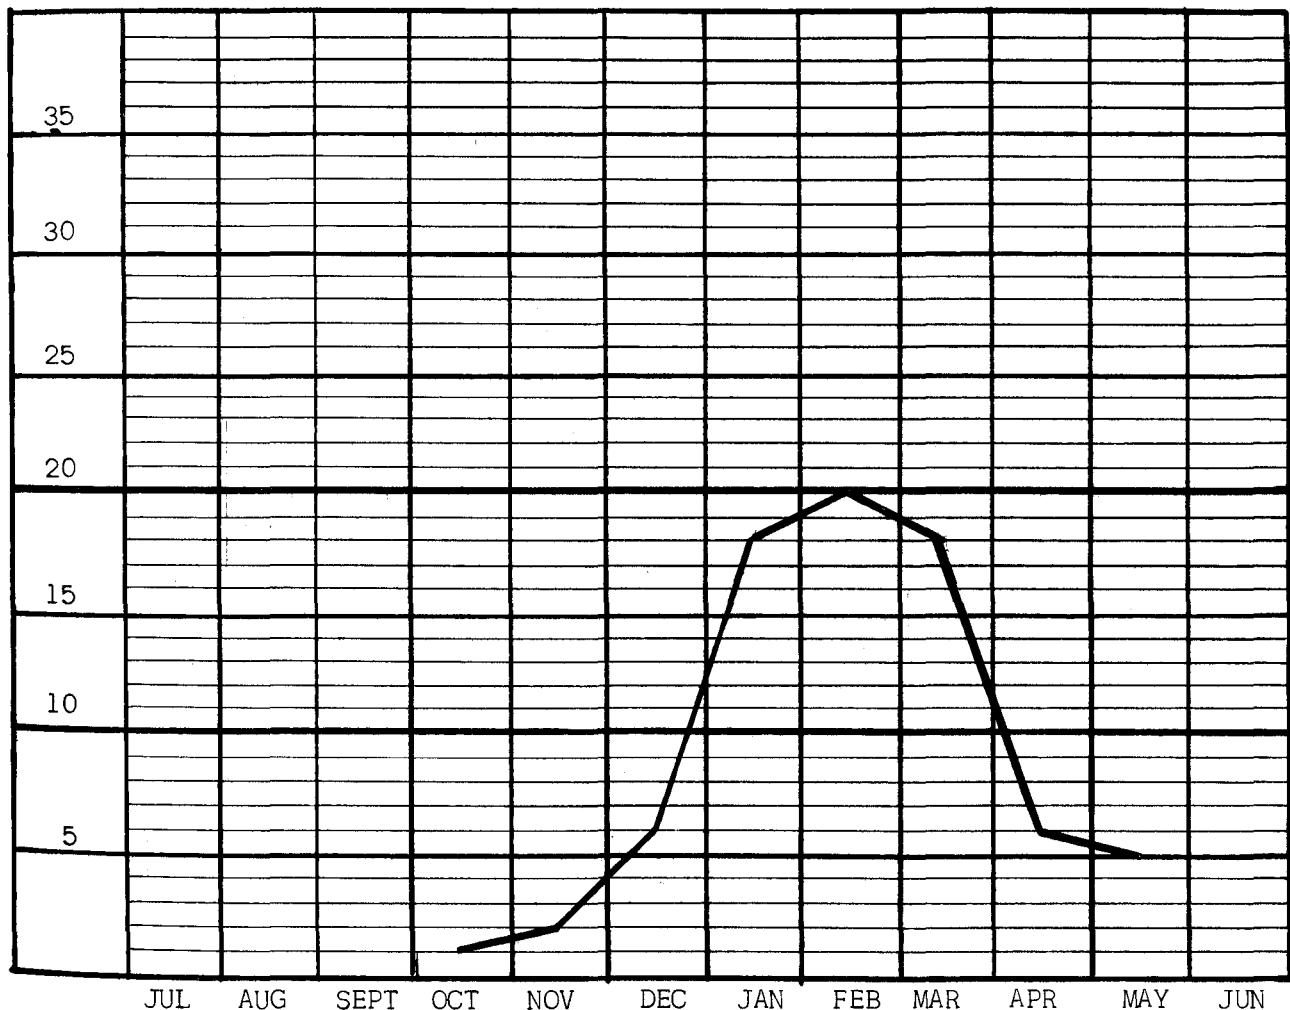

Promote development of civil defense organization in six (6) counties with no civil defense activity; continue development of organizations in nineteen (19) counties which were only partially organized; and promote civil defense organization of civil defense in cities where no organization exists.

Progress

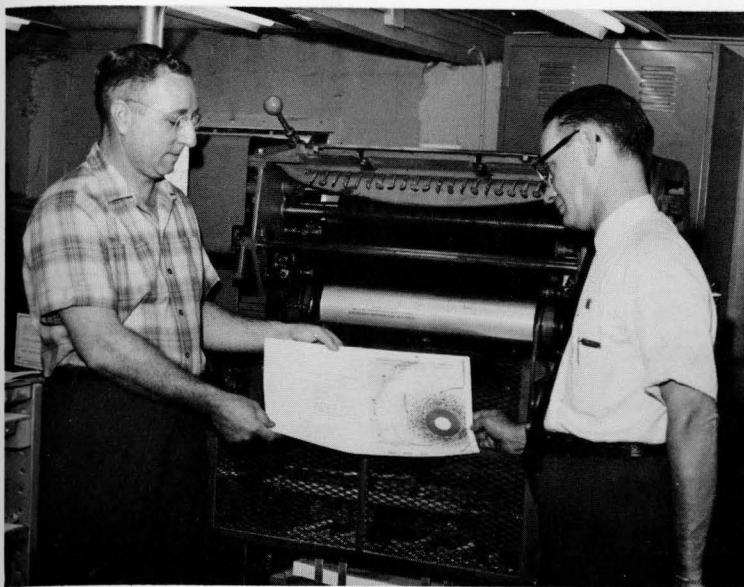

- a. Work on civil defense organizations has been initiated within all of the six (6) counties where no activity existed at the beginning of Fiscal Year 1962. Emphasis will be continued in these areas through Fiscal Year 1963.
- b. Of the nineteen (19) counties where only partial organization existed at the beginning Fiscal Year 1961, organizations have been developed and Operational Plans have been completed.
- c. Civil defense organizations have been formed and Operational Plans started in approximately ninety (90) subdivisions during the period of this report. This program will continue with the objective of having civil defense activities in all cities and towns throughout the State.

NUMBER OF APPROVED OPERATIONAL PLANS
DURING FY 1962

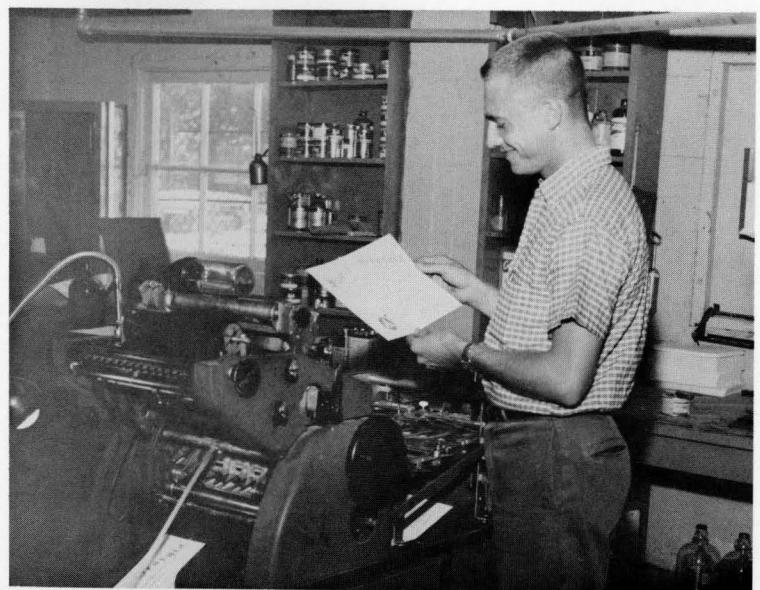

As indicated by the chart below there have been seventy-one Operational Plans approved by the State Office during the period covered by this report. This number includes a total of one hundred eight Civil Defense Units throughout the State. In addition four hundred sixty-two Annexes and seventy-six Basic Plans have been reviewed. There are approximately thirteen plans which should be approved within the next thirty days.

Special courses that are not included in the total number of basic courses offered for the year are:

1. Auxiliary Police Course for Instructors. (25 graduates)
2. Area Directors Conference
3. Principles of Organization and Staff Responsibilities conducted for the local Civil Defense Directors and their staffs. (35 graduates)
4. A Heart Resuscitation Class
5. An eight hour Civil Defense Orientation Course for the U. S. Army Reserve. (100 attended)
6. A Civil Defense Orientation Course for
Winder-Barrow Highschool 600 students
Glenn County Jr. High 500 students
Alma Highschool 500 students
7. An Introduction to Chemical, Biological and Radiological Warfare and Basic Civil Defense was presented to the Health classes of Marietta Highschool, Marietta, Georgia. (150 students)
8. 784 people attended Emergency Mass Feeding Courses and 697 attended special courses in the Care for Sick and Injured.
9. 8582 people attended special Home Preparedness Orientation classes. There were also nine seminars conducted and 309 Instructors qualified to teach Home Preparedness Workshops.
10. Numerous visits and talks were made throughout the State by the Director, Deputy Director and members of the State staff. These included speeches to Civil Defense Units, P.T.A.'s, Civic Clubs and other organizations.
11. 16MM motion picture film were used very effective as training aids. The 52 films within the Georgia Civil Defense Library were issued for showing 277 times.

The 1961-62 figure does not represent refresher courses conducted, only classes for which the initial certificate of training was issued.

No. of
Courses Taught

RADEF

RADIOLOGICAL TRAINING AND OPERATION

1 July 1961 To 1 July 1962

The Radiological Officer (Civil Defense) coordinates with State Health Department Officials in planning, developing and interpreting chemical, biological and radiological defense activities of the State. To accomplish its mission, various programs involving guidance and training are being developed.

1. Monitoring Program

The Radiological Section is responsible for the development of adequate monitoring capability in every county in the State. Some of the operations necessary to the fulfillment of this objective are described below:

- a. Basic radiological monitoring courses were developed and presented by the State RADEF Officer or local RADEF Chiefs at numerous training sites throughout Georgia. More than 1000 student monitors attended these courses. In addition, a two hour sub-course involving chemical and biological warfare defense was presented at 15 training sites by the State RADEF Officer. As a result, 327 operational monitoring stations were established. (Map #1 indicates those counties having at least one station.)
- b. An advanced course for radiological monitor instructors, held in Atlanta, was attended by 30 local RADEF Chiefs. This comprehensive course, consisting of 40 hours of intensive instruction, was considered to be of most practical use in developing, organizing and conducting local RADEF programs.
- c. A study and reference guide entitled "Basic Handbook for Monitors" was completed and distributed to monitors assigned to the designated monitoring stations in the State. This three part, 108 page pamphlet attempts to explain, in simple terms, many of the problems involved in chemical, biological and radiological warfare defense.

2. Guidance

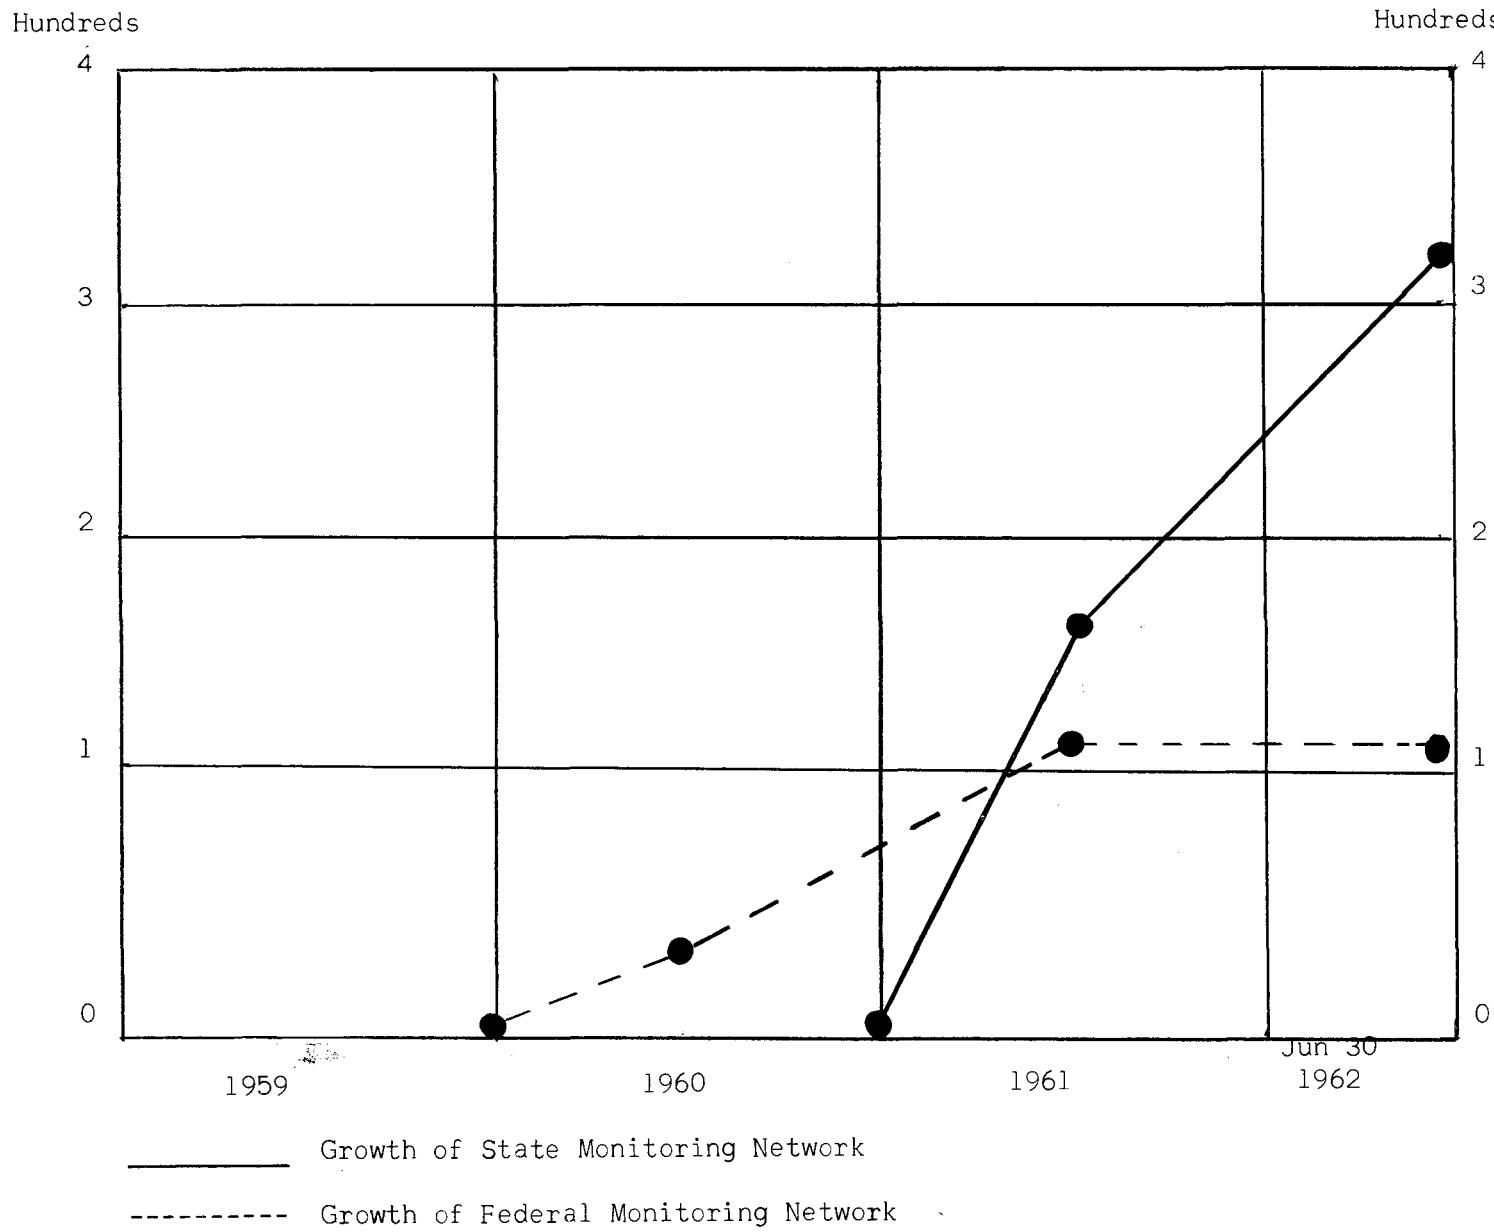

This office provided chemical, biological, radiological and shelter information and/or aid in answer to enumerable requests by interested individuals or groups.

3. High School Program

277 kits containing radiation detection equipment have been distributed to various high schools able to meet certain minimum training requirements. They are being used under the general direction and guidance of the Radiological Section, to train student and adult groups. (Map #3 indicates the assignment of these high schools kits by county.)

4. Federal Monitoring Network

There are 110 Federal Monitoring Network stations established in Georgia with instruments and trained operators on site. (Map #2 indicates those counties having at least one station.)

DISASTER CLAIMS UNDER PUBLIC LAW 875 AS AMENDED

During February and March of 1961 excessive rains over a large part of the State resulted in the declaration of a major disaster by the President of the United States on March 8, 1961, upon the request of the Governor.

The Cities and Counties began to complete their repair work at the close of FY 61 and the processing of applications for payment continued into FY 62.

Forty-seven cities and counties filed claims. Payment has been received on forty-three of these, two have not been paid and two dropped out of the program on the basis of lack of justification. As of May 11, 1962, a total of \$202,366.83 has been paid in claims.

A breakdown of claims paid by the Federal Government to the Cities and Counties is as follows:

<u>City</u>	<u>Amount Received</u>
Columbus	\$1,050.10
Dallas	9,582.23
Gainesville	2,506.76
Smyrna	3,272.88
West Point	11,141.04

<u>County</u>	<u>Amount Received</u>
Baldwin	\$1,607.92
Banks	5,059.00
Barrow	2,983.59
Butts	2,406.40
Carroll	6,135.50
Cherokee	3,188.20
Clayton	2,015.18
Cobb	4,226.90
Coweta	9,013.20
Dawson	1,047.06
Douglas	3,923.00
Forsyth	8,511.77
Franklin	2,175.49
Gilmer	4,388.85
Gwinnett	4,789.92
Hall	13,347.67
Hancock	2,460.13
Henry	2,542.00
Jackson	8,659.70
Jones	2,511.81
Lamar	9,217.08
Madison	2,162.80
Meriwether	4,499.61
Monroe	6,127.74
Muscogee	1,788.52
Newton	2,718.00
Paulding	12,638.04

<u>County</u>	<u>Amount Received</u>
Pike	\$2,545.88
Rabun	7,232.05
Rockdale	1,807.32
Spalding	1,082.65
Taliaferro	2,979.01
Talbot	5,641.20
Taylor	7,718.60
Troup	6,807.58
Upson	3,544.85
Walton	3,133.20
Warren	<u>2,176.40</u>
Total	\$202,366.83

The two outstanding claims are:

*Crawford County	\$3,245.30
*Fayette County	\$6,783.43

*The amount shown is that filed in the claim. Some of this could be suspended by the Federal Government due to insufficient justification and could result in smaller amounts being received by these two subdivisions.

FIRE AND RESCUE
Fiscal Year 1962

During FY 62, 804 personnel were trained in fire and rescue operations throughout the State and certificates were issued.

Ten refresher courses for 300 State Forestry Department personnel were conducted in the division of that Department. Eight Rescue Demonstrations were held for local communities.

Fifty-six Basic Rescue Squads exist throughout the State and each squad has an operational capability. In order to encourage additional training, these teams are urged to participate in local activities where rescue is required. The following pages reflect a breakdown of some of these activities.

DISASTER REPORTS

During the past Fiscal Year we had many Disaster Reports to come in from points all over the State.

Listed below are some of the disaster reports which we received, the location, date and nature of the disaster and net result which was achieved with the assistance of Civil Defense Organizations:

<u>Location</u>	<u>Date</u>	<u>Situation</u>	<u>Net Result</u>
Bartow County, Etowah River, Marietta, Ga.	4-29-62	3 boys lost on raft	Found 2 boys as of this date - still searching for 3rd
Cases Cave, Lookout Mountain, Dade County	4-23-62	3 boys lost in cave	Boys found with the help of Rescue Unit from Rome-Floyd County Civil Defense
Georgia Highway #18 - Dames Ferry Road	4-10-62	Airplane Crash	2 bodies recovered with help of Rescue Unit from Macon
Royston, Georgia Outside City Limits	4-2-62	House fire - old lady burned badly	House & belongings saved - lady died en-route to hospital
King's Road, Clayton Co.	3-23-62	6 yr. old boy lost	Located by Clayton County Police and Civil Defense Unit 406
GEX, South Expressway Mountain View, Georgia	2-13-62	Fire found	CD Rescue & Fire Units treated 17 victims of smoke
Byrd Road Union City, Georgia	2-12-62	Union City Fire Dept. called Red Oak CD - House full of smoke	Only a mattress on fire - caused by electric blanket - damage to bed & small water damage
Dixie Lake Union City, Georgia	2-10-62	4 houses in row - 1 totally involved in flames - wind blowing toward other 3	1 house lost - saved other 3
Red Oak, Georgia	2-9-62	Heart attack victim - residence call	Revived
Stonewall Tell Road Red Oak, Georgia	2-5-62	4-room frame house on fire	Confined fire to this area
Highway #138 - Off Buffington Road	2-5-62	Garage building on fire from trash in yard	Delayed alarm - total loss

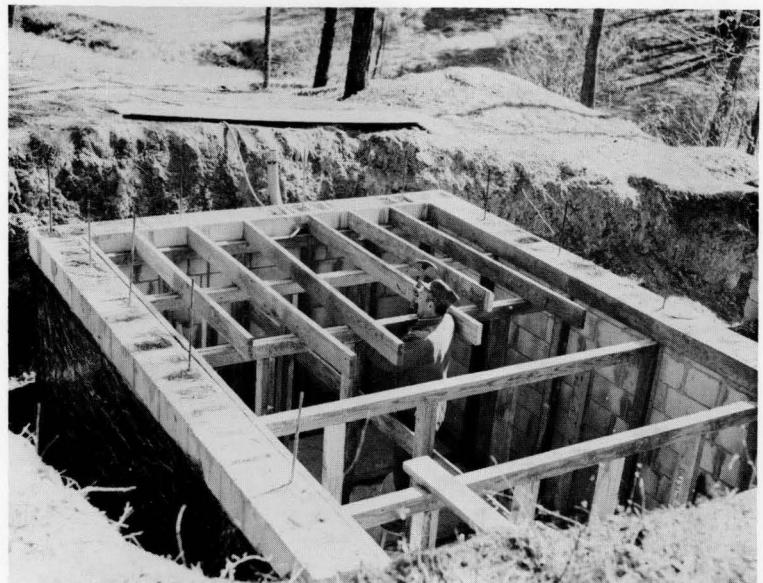

<u>Location</u>	<u>Date</u>	<u>Situation</u>	<u>Net Result</u>
Port Wentworth, Georgia	2-2-62	Search for body of woman who was kidnapped	Body was found with help of Civil Defense workers
Rockdale County off Highway #20	1-30-62	Mission to pump out 2 lakes for G.B.I.	Pumped from 3 p.m. to 4 a.m.
" " " "	1-31-62	" " "	Pumped all day - Mission accomplished
Bohannon Rd. - 2 miles S.E. of Fairburn	1-22-62	8-room frame house on fire	Delayed alarm - total loss
Cleveland, Georgia	1-21-62	Mentally disturbed person lost - Missing 16 hours	Located by CD Rescue Unit
Washington Road Red Oak, Georgia	1-18-62	Navy plane crashed in wooded area - 2 men on board	Craft total loss as no equipment could be gotten into area
Old Carrollton Road Near Sargent, Georgia	1-16-62	4 yr. old boy missing	Found within 4 hrs. in a case of near shock
Noonday Ranch, State Highway #5 (Canton Rd.)	1-13-62	9 yr. old child fell in lake walking on ice	Pulled from lake alive by mother and brought home in CD jeep. No other type vehicle could get to him
Americus, Georgia	1-11-62	50 yr. old man lost in woods in 12° weather	Found & rushed to hospital
Appling & Bacon Counties	1-6-62	Tornado damage	CD assisted
Americus, Georgia	1-5-62	Tornado warning	CD organizations stood by until warnings were lifted
Cascade Rd. at Danforth Road	12-31-61	Fire in paper storage room of school	Fire confined to one room - Extensive roof damage
Fairburn, Georgia	12-29-61	Fire in store room of 7 room brick home - caused by electric iron cord	Fire was confined to store room - only light damage
#138 Highway	12-20-61	5-room frame house on fire	Fire confined to kitchen - some smoke damage in living room but basic structure undamaged

<u>Location</u>	<u>Date</u>	<u>Situation</u>	<u>Net Result</u>
Union City, Georgia	10-15-61	5-room frame house on fire - 5 more houses in danger - Help call received from fire department	Lost one house - saved 5 houses
Red Oak, Georgia	10-15-61	Heart attack victim Age 71	Was given oxygen and rushed to hospital - Now recovering
Cleveland, Georgia Within City Limits	10-14-61	Auto wreck	Assisted in traffic control
Cleveland, Georgia White County-Lumpkin County Line	10-14-61	Single car accident	Assisted in traffic control
College Park, Georgia	10-9-61	5-room frame house on fire	Confined to kitchen
4261 Cascade Road Atlanta, Georgia	9-17-61	Child in well	Recovered
Carroll County	8-31-61	Small tornado damage	Message received in State Headquarters
White County-Hall County Line	8-27-61	2 car collision - 3 people injured	Assisted in removing injured persons to hospital
Blue Creek Section - White County	8-19-61	Pick-up truck left road and overturned - Driver pinned under truck and dead	Assisted in removing driver
White Mill Road 2 miles from Fairburn, Georgia	8-18-61	2-room frame house on fire - vacant	Heavy loss - adjoining houses saved
Rivertown Road - 4 miles out of Fairburn, Georgia	8-16-61	6-room frame house on fire - totally involved on arrival	Saved 2 large out buildings
Atlanta, Georgia, to Columbia, South Carolina	8-8-61	Tornado warning	Civil Defense stood by until warning was lifted
East Fayetteville Road Clayton County	7-29-61	House fire	Total loss

<u>Location</u>	<u>Date</u>	<u>Situation</u>	<u>Net Result</u>
Columbus, Georgia	12-12-61	Tornado alert received, stemming from 30 miles E. of Columbus, Ga., to 50 miles E. NW of Florence, S. C.	Civil Defense stood by until tornado warning was lifted
1738 Duke Road Chamblee, Georgia	12-12-61	Cresting of water - home in danger	Man, wife & 7 children evacuated from home
Bremen, Georgia	12-12-61	Tornado report - causing train wrecks, auto wrecks & considerable damage to buildings	Rescue Team provided assistance to railroad and by lighting the working area
Lock and Dam at Coosa River - Rome, Ga.	12-11-61	Fishing group of 3 - Swift water overturned skiff	2 persons saved - body of 3rd victim not recovered even though extensive search was carried on
Savannah, Georgia	12-7-61	Missing aircraft	Aircraft tracked by CD, State Patrol, State Highway Dept., Forestry Dept. & Fish and Game Comm. - Located
Rockdale County	11-25-61	Pumping of 2 lakes in search of a male victim	Search continued throughout the day
Nursing Home Red Oak, Georgia	11-23-61	Heart attack victim Age 75 - white female	Given oxygen and rushed to hospital
Woods north of Robins Air Force Base	11-20-61	Missing hunting party consisting of 2	Located safe
White County - Horse Range Mountain	11-16-61	Hunting accident - man shot in left leg	Assisted in giving medical attention
Near Union City, Ga. 1 mile off Highway #29	11-11-61	Man left party drinking and never seen again	He was found dead
Union City, Georgia	11-10-61	Help requested in searching for suspected murder victim	Assistance given
Stonewall Tell Road & Highway #29 (Fulton Co.)	11-9-61	Person reported lost	Short search made and advised to return to station and stand by
West Brook Road Red Oak, Georgia	10-19-61	Vacant house on fire	Total loss

SHELTER

THE FALLOUT SHELTER PROGRAM

In line with the President's program of shelter for everyone in the United States, the Georgia program is progressing rapidly in this direction. Based on the National average the shelter space requirements for Georgia will be:

1,505,000 through the National Fallout Shelter Survey
2,150,000 through the proposed Shelter Incentive Program
75,250 Incorporating Shelter in Federal Buildings
1,290,000 Private, by industry, institutions, home owners and others not eligible for Federal monetary grants for shelter construction.

Working through the United States Army Corps of Engineers local contracting architects and engineers of eight firms are executing twelve contracts to date (May 15, 1962). The following results have been achieved:

Number of Federal Reports (Printouts) Received	456
Number of Buildings Reported	3,744
Number of Buildings that can be licensed now	1,572
Number of Buildings with Protective Factor of 100 or better	1,186
Found, Shelter Spaces with Protective Factor of 20 to 40	643,322
Found, Shelter Spaces with Protective Factor of 100 or better	336,200

Training requirements for Fiscal Year 1963 for managing and operating these shelters will be approximately 251,000 trainees with a minimum of four hours training.

STATE AGENCY ASSIGNMENTS

Many of the State Agencies have Civil Defense emergency responsibilities which in several instances reach down to the county. Some affect both counties and municipalities. Listed below are the State Agencies which are assigned responsibilities and specifically what they are concerned with:

<u>Division</u>	<u>Mission</u>
Highway Patrol	Public Safety
Highway Department	Engineering
Health Department	Public Health, Medical Care, Radiological Defense
Welfare Department	Emergency Welfare Services
Labor Department	Manpower
Department of Agriculture	Supply
Forestry Commission	Light Rescue and Communications
Department of Education	Training
State Parks	Welfare
Game and Fish Commission	Communications - Public Safety
State Revenue Department	Supply (Fuel)
Veterans Service	Manpower

Most of these agencies have representation in each county and all have district offices throughout the State where a representative can be contacted for assistance.

Another agency having representation in each county and principal city throughout the State is the American Red Cross. The American Red Cross assists the Civil Defense by teaching first-aid, home nursing, whole blood program and assistance to individuals and families in natural disasters with food, shelter, clothing and financial assistance.

STATE AGENCY REPORT
PUBLIC SAFETY SERVICE - POLICE
Fiscal Year 1962

The following report indicates the activities of the State Patrol-Public Safety Civil Defense Coordinator.

One of the major activities of the Coordinator has been that of contacting local Civil Defense Organizations for the purpose of assisting them in writing plans and annexes and furnishing guidance to local law enforcement authorities for this responsibility. He also conducted training in the duties of police at the Basic Civil Defense School for Directors at the Chrysler Training Center, Atlanta, Georgia April 16-20, 1962.

The Public Safety Coordinator has attended numerous training courses throughout Georgia and other states as follows:

State Agency bi-monthly meetings at Civil Defense Headquarters.

Basic Civil Defense Course for Local Directors at Griffin, Georgia Training College (1 week).

Training Seminar for the United States Army Reserve Unit at Chamblee, Georgia, in which he conducted a 7 hour course in Law Enforcement Rules and Regulations, Traffic Control, Panic Control and Riot Control.

Civil Defense Seminar in Miami, Florida January 8-11, 1962.

Fire Training School, Forest Park, Georgia Training Center, April 10-12, 1962.

In addition to their regular Police Training, 36 State Patrolmen have been trained in Radiological Monitoring and Reporting and it is anticipated that each graduating class of the State Patrol will henceforth receive the same training.

The Deputy Director of State Civil Defense and the Public Safety Coordinator visited the States of Kentucky and Virginia to review plans of those States in order to obtain assistance in revising the Georgia Operational Survival Plan.

Auxiliary Police Units participated in a drill promoted by the Rescue Teams throughout the State at the Griffin Training Center in Griffin, Georgia in November 1961.

The Georgia State Patrol bears the primary responsibility of air raid warnings throughout the State through the NAWAS System, 34 State Patrol Posts and approximately 800 Mobile Units. Recently 4 new air raid warning points have been made in the NAWAS Net, which gives us a total of 16 receiving points in the most populated cities at this time.

In order to improve the capability of the State Patrol Communications System for the dissemination of warning and to handle Civil Defense emergency communications, a Matching Funds Application in the amount of \$249,688.00 was approved during FY 61 and the work of installation has proceeded to near completion at the end of FY 62.

The Public Safety Coordinator is responsible for the supervision, maintenance and use of 1,200 - 38 caliber revolvers issued to the State Patrol for operational readiness purposes through the Surplus Property Program.

Basic Auxiliary Police Courses to be held in the near future will be conducted at Hawkinsville, Summerville, Reidsville, Bainbridge and Pelham. Courses that

have been completed for Regular and Auxiliary Police are as follows:

<u>City/County</u>	<u>Personnel</u>
Albany	21
Ringgold	18
Wayne County	20
Tattnall County	20
Gainesville	20
McRae	20
Clarkesville	20
Carrollton	26
Hawkinsville	20
Summerville	20
Dougherty County	20
Reidsville	20
Bainbridge	20
Cairo	20
Pelham	18
Bremen	8
Warner Robins	32
Temple	13
Cochran	19
Millen	40
Sylvania	30
Unadilla	14
LaFayette	143
Forest Park	17
Austell (In Training)	31
Dalton	75
Chickamauga	26
LaFayette	46
Cartersville	43
Dallas	41
Rockmart	30
Canton	38
Ocilla	19
McRae	38
Dawsonville	40
Unadilla	54
Worth County	47
Cuthbert	46
Habersham	56

HEALTH SERVICE
DEPARTMENT OF PUBLIC HEALTH
1 JULY 1961 - 1 JULY 1962

CIVIL DEFENSE EMERGENCY HOSPITALS

Included with this report is a map showing the present locations of all of the Civil Defense Emergency Hospitals, plus proposed locations, if any additional hospitals become available to us. During the first quarter of fiscal year 1961-62, Mrs. Maria D. Harper, Emergency Health Services Officer, visited the Civil Defense Emergency Hospitals where storage inadequacies had been reported and attempted through conference with the local authorities to rectify these inadequacies.

During January, February and March 1962, emphasis was placed on obtaining additional storage space for stockpiling of medical supplies in connection with these Emergency Hospitals. As of April 30, 1962, arrangements had been made on all but two hospitals. These two are making efforts to find storage space and it is anticipated that in the very near future this will have been completed.

HEALTH ANNEXES

A great deal of Mrs. Harper's and Dr. Petrie's time has been spent during the last two quarters of this fiscal year in the preparation and implementation of workable health annexes. Visits to the District Health Offices by Mrs. Harper has been supplemented by considerable productive correspondence by both Mrs. Harper and Dr. Petrie. At present, it is understood that the Health Service will review all health annexes before final approval is granted. Largely due to Mrs. Harper's efforts, a considerable improvement has been noted in the quality of recent annexes submitted.

MEDICAL SELF HELP TRAINING

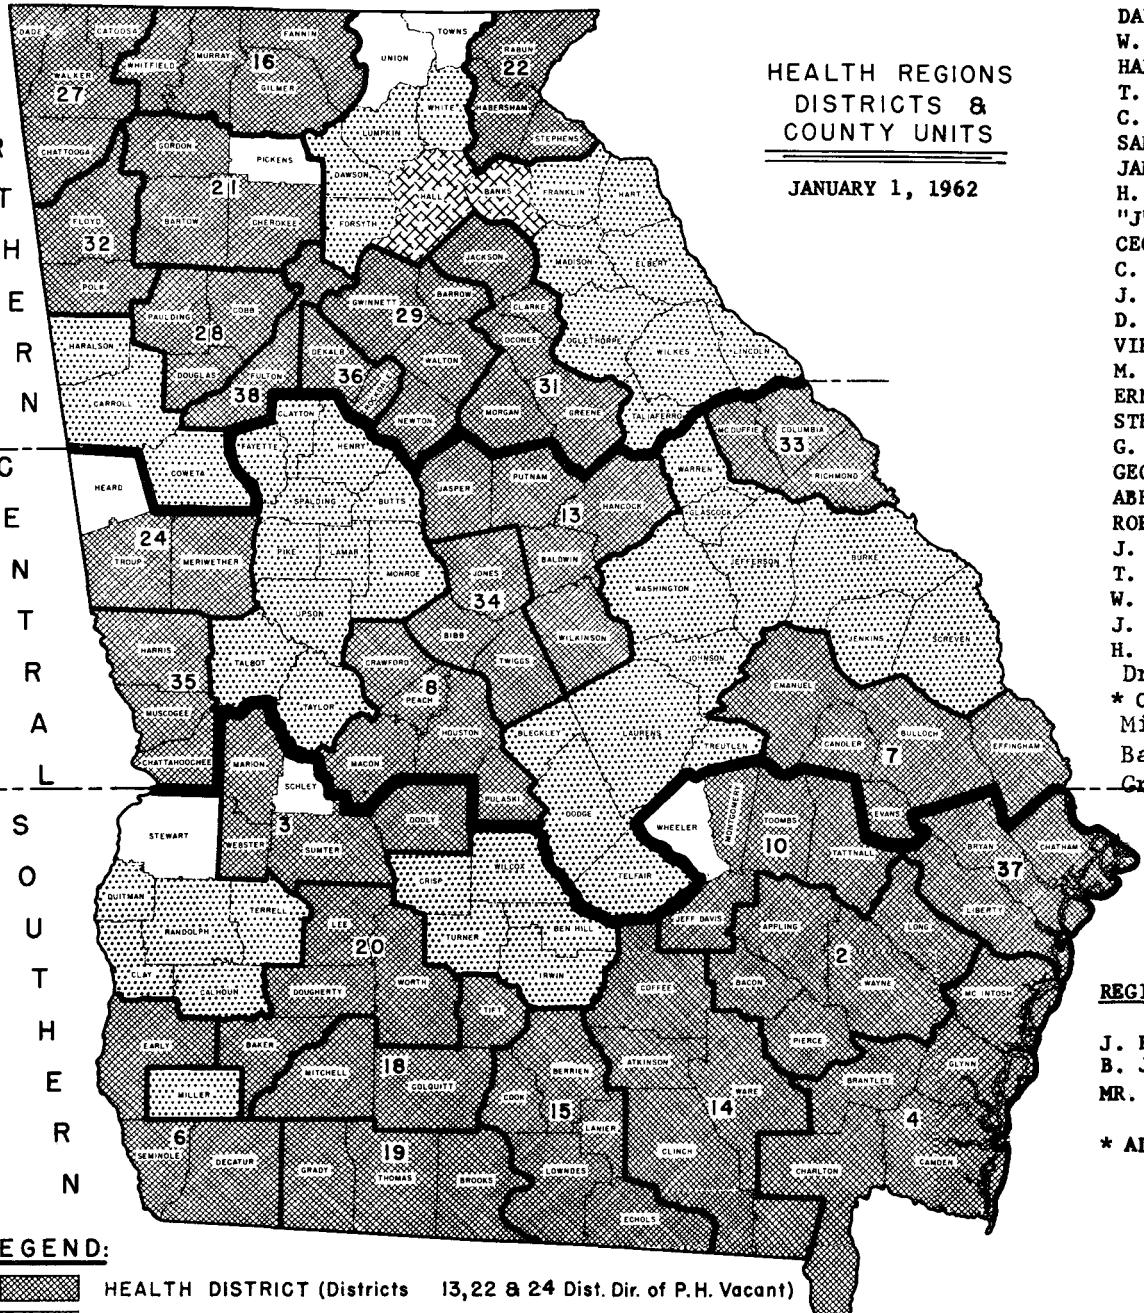

Medical Self Help Kits have been distributed on a basis of 1 kit per 50,000 population, to those Health Districts of Georgia with Medical Directors. This gives a statewide coverage. Milledgeville State Hospital, Battey State Hospital and the Gracewood School and Hospital will each receive one kit for the training of attendants. A training course for Senior Dental students at Emory University has been completed. A training course for State Health Department employees has been completed and negotiations with the Continuing Education Center, University of Georgia, for production of a television service are progressing satisfactorily. (Map included)

COMMUNICATION

The map on the following page entitled "Radio Functional System Diagram" gives pertinent data as to location, etc., of the present radio communication centers connected with this service.

EMERGENCY WELFARE SERVICE
GEORGIA STATE DEPT. OF PUBLIC WELFARE
1 JULY 1961 - 1 JULY 1962

Beginning in July, 1961, the Georgia State Department of Public Welfare began to formulate a long-range objective for the Emergency Welfare Services program. The services for which this Department is responsible in case of a national emergency are feeding, clothing, registration and inquiry, and Emergency Social Services.

Prior to July, 1961, the Georgia State Department of Public Welfare had completed the Operational Manual for Emergency Welfare Services and had distributed this material to all welfare personnel, certain non-governmental agencies and State and local civil defense personnel. This Manual incorporates the basic plan for Emergency Welfare Services in Georgia and includes organizational charts for the five levels of organization, state, area, county, welfare center, and lodging district. Also included in this Manual are job descriptions for all positions included in the organizational charts.

All State employees and all welfare personnel in the 159 counties in Georgia, prior to July, 1961, had been instructed in the basic plan for Emergency Welfare Services and had been given definite emergency assignments in the five services for which Welfare is responsible in case of a national emergency.

On June 6 through 7, 1961, the Bureau of Public Assistance and the Children's Bureau, Region IV, held a Civil Defense Emergency Welfare Conference. The focus of this meeting was on Public Welfare and its technical leadership role in developing the program of Emergency Welfare Services, and on continuity of essential Public Assistance and Child Welfare functions. One session of this conference was devoted to a discussion of the guidance documents which were being developed at Federal level. Emphasis was placed on the basic document, "Emergency Welfare Service - Guidelines and Structure." Since this regional meeting the following documents in draft form have been received by this Department - Fiscal Policies and Federal-State Agreements, Supplement A to Appendix I "Emergency Welfare Service - Guidelines and Structure," - Emergency Social Services and Emergency Lodging.

As Georgia's Plan for Emergency Welfare Services is basically in agreement with the Federal documents it was felt that the Georgia State Department of Public Welfare could begin to plan a long-range program for this service in the State, and that later, after all Federal material in final form was received, Georgia's basic plan could be revised with more emphasis being placed on shelter protection, and the possible function of Welfare in this area.

During the period 1 July 61 through 1 July 62 this plan has been carried out. Emphasis during this period has been focused on the development of county plans for Emergency Welfare Services. These basic plans are the first steps toward community organization for Emergency Welfare Services and definite preparation to provide all possible welfare services under whatever conditions may exist in a national emergency.

During this year to further this Department's definite training program in this service two workshops have been held in strategic locations to further community organization and participation by non-governmental agencies in Emergency Welfare Services. Personnel participating in the program included

those persons in the Department responsible for certain services. Also, a five-day course in Disaster Casework Services was given by the National Red Cross to certain state personnel responsible for a specific service and Welfare personnel in eight Georgia counties. Mass feeding courses have also been conducted throughout the State and to date around 200 Welfare personnel have been trained in this service.

MANPOWER SERVICE
GEORGIA DEPARTMENT OF LABOR
1 JULY 1961 - 1 JULY 1962

In January, February and March 1961, a draft of the State Manpower Annex to the State Operational Survival Plan and Post Attack Local Office Employment Service Procedures was completed.

The Defense Coordinator assisted State Civil Defense personnel with two State Training Conferences, one on January 25 and another on March 6. These conferences were for the purpose of training additional people in Civil Defense activities as a result of Public Law 606 funds.

During the quarter April, May, and June 1961, the State Labor Department participated in Opal 1961 Exercises and briefings conducted by State Civil Defense in six areas prior to the exercise. The Defense Coordinator represented Manpower at a meeting designed to assist in developing emergency plan at Milledgeville State Hospital.

During the quarter July, August, and September, the activities in Civil Defense were concerned largely with the revision of the State Manpower Annex and the attendance at a State Civil Defense meeting held at State Civil Defense Headquarters in Atlanta. The State Manpower Annex was submitted to State Civil Defense Headquarters for possible suggested revision.

In this quarter certain local Civil Defense Directors began asking State Employment Service Managers to write annexes covering the responsibilities, obligations and connections with local State Civil Defense and participating agencies. The Labor Department cooperated in carrying out this request. At a meeting at State Civil Defense Headquarters during the month of September, reports were given by State, area and local agencies concerning what had been accomplished in their particular fields of activity. It was at this meeting that the first complete emphasis was placed on the building of shelters and evacuation was minimized as a possible protection during a nuclear attack. Emphasis was placed upon self-preservation in the area where the survivors would be and evacuation was an alternate consideration.

In the thirty-five (35) local offices of the Georgia State Employment Service, emphasis was placed on greater participation in meetings and in working with local Civil Defense Directors when called upon to do so.

The last quarter of 1961, October, November, and December, the Georgia State Manpower Annex was completed and distributed. Guidelines for the use of local office managers in preparing local office annexes were issued.

State Civil Defense officials established weekly meetings with State Civil Defense Coordinators to be held at State Civil Defense Headquarters each Monday at 10:00 a.m. The Georgia Department of Labor began participation in these meetings and is continuing to do so. At the present time these meetings are scheduled every other Monday rather than each Monday.

Although the State Manpower Annex as developed originally is complete and comprehensive, there is a need for certain minor up-dating as new instructions and/or revisions are received from our Regional Office and the U. S. Department of Labor.

TRAINING AND EDUCATION SERVICE
GEORGIA STATE DEPARTMENT OF EDUCATION
1 JULY 1961 - 1 JULY 1962

The Georgia State Department of Education has continued to have one professional employee assigned part-time to the coordination of civil defense activities in the Department. In addition, three new professional persons have been employed in Adult Civil Defense Education.

During the 1962 fiscal year the major activities in this effort have been:

1. A local school Civil Defense Survey was made. It was concerned with:
 - a. Local school civil defense planning with emphasis on fallout shelters.
 - b. Radiological kits in high schools.
 - c. The place of Civil Defense topics in the existing curriculum.
2. Assistance was given in the initiation of the Medical Self-Help program in Georgia. This involved an orientation at Battle Creek, Michigan, and serving on the State committee which made plans for implementing this program in Georgia.
3. A tentative draft of a sample annex in Training and Education for use by the local Civil Defense Units was prepared and furnished as guidance to two local units. It will be revised and distributed on a need basis.
4. The Department's representative has participated in the regular planning meetings of the representatives of the various departments of State government.
5. Preliminary study leading to a revision of the current State OSP for Training and Education has been conducted.
6. In addition to the above, the State Department of Education is participating in an Adult Education Civil Defense program in cooperation with the U. S. Office of Education. Three professional persons have been added to the staff of the Adult Education Unit to train instructors to teach adult classes. The Department contracted with the U. S. Office of Education to train 200 instructors this Spring - we have trained 500. In addition to reaching adults, these instructors are teaching many of the Civil Defense concepts in their regular public school classes.

RESOURCES MOBILIZATION AND MANAGEMENT

1 JULY 1961 - 1 JULY 1962

In September 1961, the Governor of Georgia, upon recommendation of the State Civil Defense Director, appointed Alvan C. Gillem, Jr., Lieutenant General, U.S.A., retired, to serve as Chairman, Economic Stabilization Committee. General Gillem formed his over-all committee and selected three able and experienced Georgians to serve as chairmen of the three sub-committees to the over-all State Emergency Economic Stabilization Committee. They are respectively:

Rent Control

Mr. Jesse Draper
Chairman of Board
Draper-Owens Realty Company
Atlanta, Georgia

Price Control

Mr. Edgar Forio
Senior Vice-President
The Coca-Cola Company
Atlanta, Georgia

Consumer Rationing

Mr. Marvin Roberts
Owner
Northside Pharmacy
Atlanta, Georgia

The chairmen as indicated selected two individuals to serve as members of his respective sub-committees. These individuals have assisted in preparing State Plans for the three phases of the Economic Stabilization program. The titles of the three sub-committees have been changed to read task groups.

Effective 1 October 1961, John T. Jones, Lieutenant Colonel, U.S.A., retired, a former Civil Defense Area Director was assigned as State Economic Stabilization Officer and Co-Chairman of the over-all committee.

The State Over-all Economic Stabilization Committee will consist of twelve members as follows:

Chairman
Chairman of each Task Group
Two (2) Representatives from USDA
Chairman of each Area six (6) Emergency Stabilization Committee

Draft of the Economic Stabilization Annex to State Plans has been completed. Plans will be finalized and then furnished to appropriate personnel after receipt of implementing instructions.

Plans to assist county and civil defense units have been formulated. The proposed program has been informally discussed with many county and city elected officials as well as many civil defense directors. Implementation of the program was fully discussed with all State Area Directors in December 1961. Area Directors pledged full support of the program.

Later developments of this program will be discussed later in this report.

During January 1962, Governor Vandiver appointed General Gillem as Director, Emergency Planning for the State of Georgia. General Gillem was to retain his position as Chairman, Economic Stabilization Committee, and also chair the Emergency Resources Planning Committee.

General Gillem appointed a Deputy for Emergency Planning who would also serve as Co-Chairman of the Emergency Resources Planning Committee.

General George J. Hearn, State Civil Defense Director, has approved a draft of a State Emergency Resources Plan. Proposed organizational structure at State and Area levels follows along the guidelines furnished in pamphlet, "The Comprehensive Program for Survival of Government and Management of Resources." The Georgia program is a direct responsibility of the State Civil Defense Director. At county levels present written plans require a local advisory group staffed with qualified personnel to handle all aspects of Emergency Planning.

State Plans require heads of eight (8) State Departments to serve as members of the Emergency Resources Planning Committee, which is charged with the pre-emergency and post-emergency resource defense planning for the State. These individual department heads will serve as supervisors and coordinators for a designated resource or resources, and as chairman of his respective task group. Individual task groups will furnish continuing technical advice to its chairman. Current plans require a similar set up in the six (6) geographical areas as now approved at State level, that is a planning director, an Emergency Planning Committee, and support task groups.

The Director, Emergency Planning, has designated State Geographical Area A (Northwest Georgia) consisting of twenty-three counties as a pilot area for organizing and staffing. This area has been canvassed; local civil defense directors and elected county officials have nominated more than 200 knowledgeable individuals in the various resource fields to staff the Area Emergency Resources Mobilization and Management organization including the Economic Stabilization Committee.

The Director, Emergency Planning, addressed letters to these individuals requesting their services. Forty seven (47) have consented to serve. This personnel, along with elected county and city officials as well as county/city civil defense directors, will be briefed by the Director, Emergency Planning on June 5, 1962, in Cartersville, Georgia.

The procedure mentioned above will be utilized in the other five (5) areas in the State.

Our assigned State Department liaison officers are doing a fine job in updating their plans in various resource fields, i.e., transportation, food, water, solid fuels, and petroleum. Action is being taken to insure formulation of plans in those resource areas not previously assigned to respective State Departments.

Vigorous and continuing action will be taken to expedite plans and organizations to insure adequate emergency planning within the State.

ENGINEERING SERVICE
STATE HIGHWAY DEPARTMENT
1 JULY 1961 - 1 JULY 1962

A radiological school of four hours' length was held in each of the six divisions of the Georgia State Highway Department--Gainesville, Cartersville, Tennille, Jesup, Thomaston and Tifton. In all six divisions of the Highway Department there are two hundred and sixty employees who have civil defense radios either in the truck or private vehicle. Each of these two hundred and sixty, and many other State Highway office personnel, have completed the four-hour radiological course and have been issued a geiger counter. Approximately four hundred people have completed the course. In addition, a follow-up program has been carried out in each division to see that each person can operate his geiger counter as instructed. These instruments are checked regularly by the State Highway radio technician. These courses were open to the highway personnel and to the general public. Many civil defense directors and civil defense workers throughout the six State Highway divisions attended the schools.

Meetings were held in each of the six divisions, with each division civil defense director. The overall plan for the division was developed on a division level with re-evaluation of the civil defense program studied and discussed, and certain changes in the civil defense program which included the installation of auxiliary generators and the inspection of rescue equipment.

A State building shelter survey has been made by State Highway engineers in the State Office and in each of the six divisions. Each employee of the State Highway Department is being assigned to a specific shelter and to an alternate shelter. A training program in survival for highway department employees is now complete.

The overall plan for the State was studied and revised. Information compiled and developed concerning engineering service annex at State level. Information compiled concerning organization and operation of engineering service; present plan re-evaluated and revised; specific revisions concerning engineering of public utilities including water, power, gas and sewage.

Weekly and twice monthly meetings were held with civil defense coordinators from other departments at State level. These meetings were very helpful in the coordination of similar or related problems of civil defense.

A study was made of local city/county Civil Defense Engineering Annex. Each city/county Civil Defense Engineering Annex submitted was reviewed and corrected using the approved guide, "If Attack Comes," and following it exactly with application to the local situation.

Work has continued in the compiling of information regarding organization and operation of engineering services. Cooperation with other related agencies and coordination of civil defense with these State Agencies has been stressed. Training of city/county local civil defense workers has been stressed.

A building survey in all six divisions has been made for the purpose of compiling information concerning the desirability of emergency location of all State Agencies in district highway buildings.

SUPPLY SERVICE
DEPARTMENT OF AGRICULTURE
1 JULY 1961 - 1 JULY 1962

This report covers the period from July 1, 1961, to May 10, 1962.

1. Full-time Civil Defense Coordinator employed by State Department of Agriculture on July 5, 1961.
2. The Supply Annex is completely revised to include changes which have been issued by the National Office. The necessary memorandums of understanding between State and National Agencies, which affect supply management, are now being written and will be attached as appendices to the Supply Annex.
3. Liaison is well established with the USDA State Defense Board, State Welfare, State Health, State Commerce, and State Purchasing Department.
4. Procedures for promoting Rural Civil Defense throughout the State are being continued and revised. The State winner in the Future Farmers of America Public Speaking Contest in July of 1961, was on "Farm Family Fallout Shelters." The State Department of Vocational Agriculture, through its food preservation program, is canning water in the Food Processing Plants. The teachers of Agriculture conducted informational meetings on Rural Civil Defense by using kits distributed to them on this subject.
5. The State Department of Agriculture has assigned personnel to work with the U. S. Department of Agriculture personnel in the protection of livestock and poultry, and in the inspection of animals going to processing plants for slaughter.
6. One full-time clerk employed on September 18, 1961.
7. Job descriptions for all persons included in the organizational chart for Supply and Procurement are completed.
8. An operational manual for guidance of State, area and county personnel is in progress. This manual will include Standing Operating Procedures for each person charged with responsibility of carrying out certain responsibilities for the Director, Supply and Procurement.
9. Standing Operating Procedures were written to cover methods and procedures for procurement, storage, distribution, allocation, and reporting functions pertaining to:
 - a. Medical Supplies
 - b. Engineering Supplies
 - c. Petroleum Products
 - d. Solid Fuels
 - e. Food
 - f. General Supplies (which include clothing and bedding)
