Honorable Otto Kerner  
Governor of the State of Illinois  
Springfield, Illinois

Dear Sir:

The following report of the Military and Naval Department is submitted in accordance with Section 26, Article IV, Military and Naval Code of Illinois, approved 8 July 1957, and covers the period between 1 November 1960 and 31 October 1962.

During this period two important events have occurred in the Illinois National Guard.

During the month of October, 1961, units and members of the 128th Ordnance Company, Quincy, Illinois, the 3637th Ordnance Company, Springfield, Illinois, the 169th Tactical Fighter Squadron (Special Delivery), Peoria, Illinois, and the 170th Tactical Fighter Squadron (Special Delivery), Springfield, Illinois, were called upon by the President of the United States for duty during the Berlin Crisis. These units were released to State control during the month of August 1962.

In addition to the call-up during the Berlin crisis, the Air National Guard has undergone a reorganization which has converted the 126th Air Defense Wing to the 126th Refueling Wing, converting from Jet Type Aircraft to KC 97 Tankers.

Their primary mission is to refuel Jet Aircraft while in flight. After months of intensive training, the first in-flight refueling by an all Air National Guard crew was accomplished in April, 1962.

The State Military Forces, attained their highest degree of efficiency since the Korean conflict and are highly capable of accomplishing their Federal and State mission.
