MANEUVER SUPPORT FORCE

Chapter 09

FY22

The Force Management System (FMS) is the primary reference used for the information portrayed in this chapter. Global Force Management – Data Initiative (GFM-DI) Filter series Table of Organization and Equipment (TOE) were utilized if available and the date the data was pulled is indicated at the bottom left on each main page.

This reference is a depiction of the units TOE when fully modernized to the Objective TOE and should not be confused with the units annual MTOE (Modified Table of Organization and Equipment) which may differ due to equipment availability and fielding or due to modifications made to the TOE due to METT-TC unit capability modifications. This reference is intended to be used as a quick reference guide and training resource only. Only currently documented HQDA approved TOEs give an accurate documentation to a military unit type design, and can be viewed/downloaded through the U.S. Army Force Management Support Agency (USAFMSA), Fort Belvoir VA. website at <https://fmsweb.army.mil/>

This chapter is intended to be used as a quick reference guide and training resource only.
Only the major equipment is listed.

CBRNE COMMAND (RECAP)

SRC: 37800K000

CBRNE COMMAND (RECAP)

O/W/E: 96/14/152//262

MISSION

The 20th CBRNE Command exercises mission command over assigned FORSCOM CBRN and EOD forces; on order provides CBRN and EOD forces to Army and Joint, Interorganizational, Multinational (JIM) headquarters; on order deploys a Joint Task Force (JTF) capable headquarters in support of Combatant Command (CCM) Counter Weapons of Mass Destruction (CWMD), CBRN, and EOD requirements.

DEPENDENCIES

- When deployed OCONUS, elements of the theater for force protection, imagery analysis (intelligence), civilian and military operations, quartermaster repair, Force Health Protection, field feeding, transportation (to include aviation) of materials under analysis, all field maintenance and recovery, religious, legal, finance, personnel and administrative services, communications, communications-electronics, reach back support and Communications Security (COMSEC) support.
- Army Field Services Battalion (AFSB) for contracting management (TOE not yet approved).
- When stationed in CONUS, installation elements and/or supported unit for fuel and fuel handling, pre-deployment, staging, soldier-readiness functions, unit movement, airfield operations, facilities, quartermaster repair, health services support, field-feeding, all field maintenance and recovery, religious, legal, finance, personnel and administrative services, communications, communications-electronics and COMSEC support.
- CBRNE Op HQ Augmentation Table of Distribution and Allowances (Aug TDA) (UIC: WNE099) for supplemental support.

BASIS OF ALLOCATION

One per US Army.

CBRNE COMMAND (RECAP)

SRC: 37800K000

CBRNE COMMAND (RECAP)

O/W/E: 96/14/152//262

CAPABILITIES

- a) Command and control for Joint and Army Chemical, Biological, Radiological, Nuclear and High Yield Explosives (CBRNE) operations, execute WMD-Elimination and other specialized CBRNE operations, deploy and provide trained and ready forces, and provide technical capabilities in order to achieve national combating WMD objectives.
- b) Mission Command of technical operations, recovery and disposal of munitions, site exploitation and elimination operations, contingency planning and acts as Army Headquarters for Weapons of Mass Destruction (WMD) for Chemical, Biological, Radiological, Nuclear, and High Yield Explosives (CBRNE).
- c) Worldwide service as an Army Headquarters (HQ); or Joint Task Force (JTF) HQ; or core subordinate unit in support of Chemical, Biological, Radiological, Nuclear and High Yield Explosive (CBRNE) operations to include Weapons of Mass Destruction (WMD).
- d) Capability to disable and/or eliminate the nuclear weapons infrastructure, ensuring that all nuclear materials, mitigating radiological hazards and radiation sources are secured and contained. Also identifies, monitors and minimizes radiological health risks within the area of responsibility (AOR).
- e) Coordination for the supporting unit's planning and execution of CBRNE technical operations in the theater of operations. Provides mission Command of sensitive site exploitation (SSE), disablement, disposition, demilitarization and elimination of Weapons of Mass Destruction (WMD) for the Combatant Commander (CCMD) and the Joint Forces Land Component Commander (JFLCC).

MOBILITY

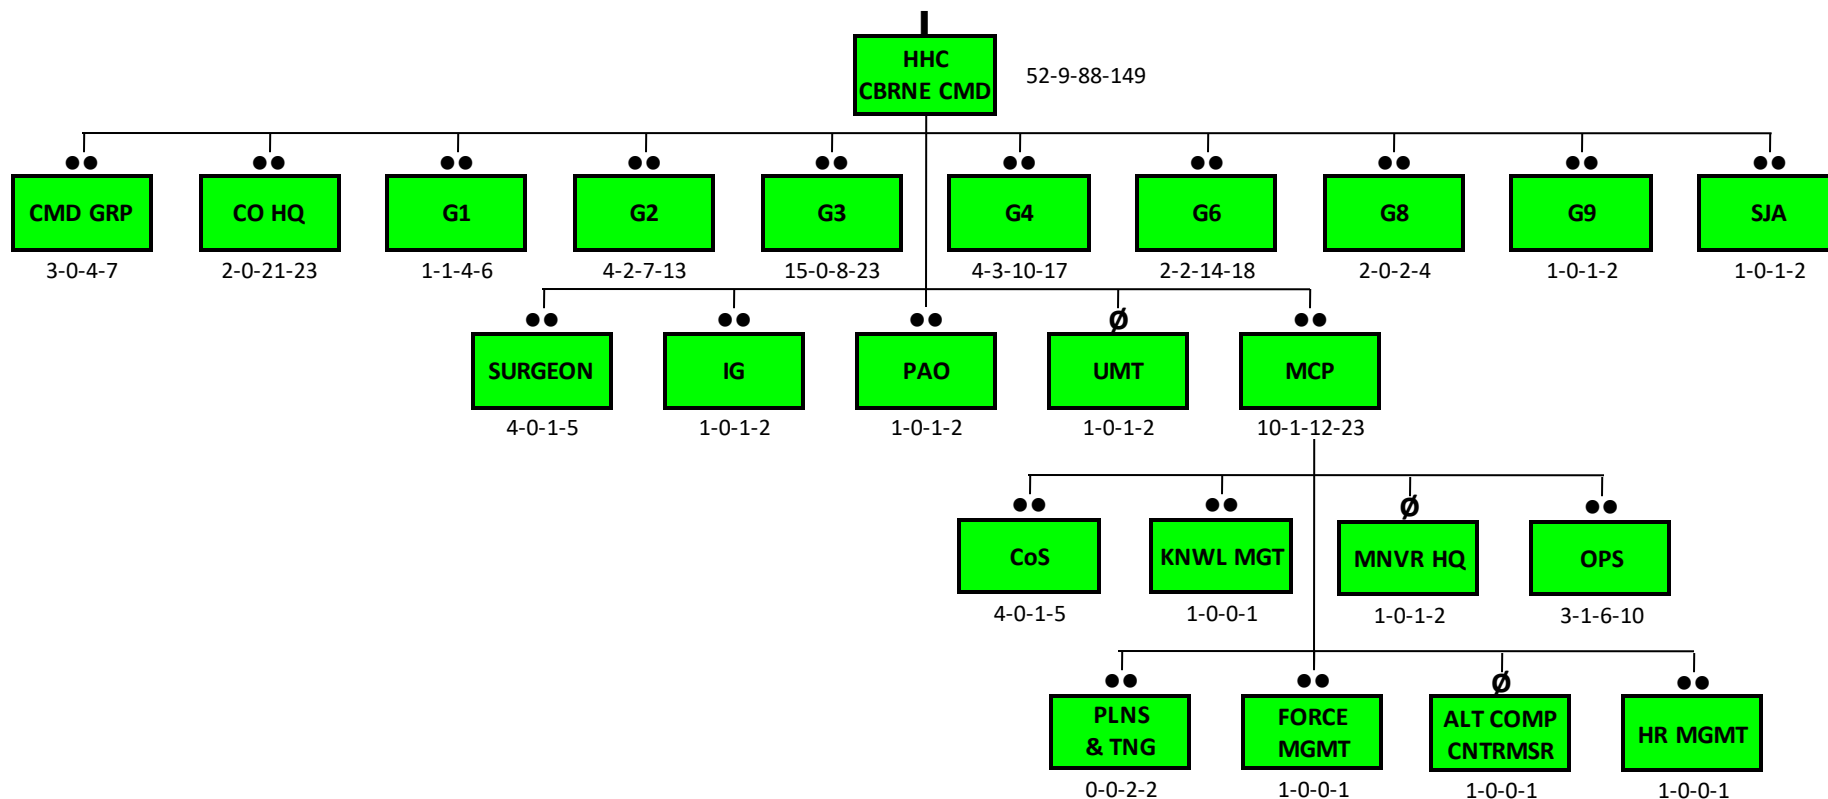

See the Section I for each subordinate TOE for mobility information.

HHC CBRNE COMMAND

SRC: 37801K000

HHC, CBRNE COMMAND

O/W/E: 52/9/88//149

MISSION

Conducts mission command for all assigned and attached units. Provides trained and ready forces and technical capabilities in order to achieve national combating Weapons of Mass Destruction objectives. On order deploys as Joint Task Force Elimination headquarters in support of Chemical, Biological, Radiological, Nuclear and High Yield Explosive (CBRNE) operations to include Weapons of Mass Destruction(WMD) operations.

DEPENDENCIES

- a) When deployed OCONUS, elements of the theater for imagery analysis (intelligence), civilian and military operations, quartermaster repair, force health protection, field feeding, transportation (to include aviation) of materials under analysis, religious, legal, finance, personnel and administrative services, communications, communications-electronics, reach back support and communications security (COMSEC) support.
- b) Army Field Services Battalion (AFSB) for contracting management (TOE not yet approved).
- c) Support Maintenance Co (SMC), TOE, (43470K000) for small arms and electronic maintenance and recovery support.
- d) CBRNE Operational Headquarters Augmentation Table of Distribution and Allowances (Aug TDA) (UIC: WNE099) for supplemental support.
- e) Mobile Public Affairs Detachment (MPAD), TOE 45413K000, for full public affairs support when deployed.
- f) Higher headquarters for General Court-Martial Convening Authority (GCMCA).

BASIS OF ALLOCATION

One per CBRNE CMD RECAP, TOE 37800K000.

CAPABILITIES

- a) The combatant commander (COCOM) with various defeat options based on information characterizing the nature of WMD facilities and threats.
- b) Planning for locating, characterizing, securing, and rendering safe an adversary's WMD material, weapons, equipment and infrastructure.
- c) C2 and integration of technical and forensic intelligence and lab capability.

Continued on next page

HHC CBRNE COMMAND

SRC: 37801K000

HHC, CBRNE COMMAND

O/W/E: 52/9/88//149

CAPABILITIES Continued

- d) C2 of initial destruction, dismantlement, removal, transfer or otherwise verifiable disposal of WMD material, weapons, equipment and infrastructure.
- e) The capacity to assist the theater in the establishment of post hostility long term elimination of WMD production sites and other related activities.
- f) Collaboration and sustainment of relationships with joint and interagency intelligence organizations in order to support both Continental US (CONUS) and Outside the Continental US (OCONUS) CBRNE Operations.
- g) Collaboration with joint and interagency organizations in planning CBRNE related Strategic and Operational Intelligence, Surveillance, and Reconnaissance (ISR).

MOBILITY

This unit requires 50 percent mobility of its TOE equipment to be transported in a single lift using organic vehicles with the exception of the Command Group which is 100% mobile, and MCP which is not mobile. (Source: Operational and Organizational Concept for the CBRNE Operational Headquarters, 22 June 2006).

MISSION

To rapidly and efficiently exploit and disable nuclear or radiological weapons of mass destruction (WMD) infrastructure and components in an OCONUS uncertain or permissive environment to deny near-term capability or reuse by enemy forces and facilitate follow-on WMD-E operations.

DEPENDENCIES

- When deployed OCONUS, elements of the theater for force protection, security (route, convoy, and site) to remain at sites confirmed to have WMD until all items of proliferation concern are removed to prevent looting and loss of positive control of special nuclear material, imagery analysis (intelligence), civilian and military operations, fuel and fuel handling (when not collocated with Operational Command Post), quartermaster repair, Force Health Protection, field feeding, transportation (to include aviation) augmentation for collection and movement of material to temporary storage facility, , all field maintenance and recovery, religious, legal, finance, personnel and administrative services, communications, communications-electronics, C2 and reach back support (when a Weapons of Mass Destruction Coordination Element is not assigned), supply, life support, interpreters, technical linguist, combat medical and engineer support as required, and communications security (COMSEC) support.
- Army Field Services Battalion (AFSB) for contracting management (TOE not yet approved).
- When stationed in CONUS, installation elements and/or supported unit for pre-deployment, staging, Soldier readiness functions, unit movement, airfield operations, facilities, quartermaster repair, health services support, field feeding, all field maintenance and recovery, religious, legal, finance, personnel and administrative services, communications, communications-electronics and COMSEC support.
- CBRNE Operational Headquarters Augmentation Table of Distribution and Allowances (Aug TDA) (UIC: WNE099) for supplemental support.

NUCLEAR DISABLEMENT TEAM (CBRNE)

SRC: 37611KA00

NUCLEAR DISABLEMENT TEAM (CBRNE)

O/W/E: 8/0/3//11

BASIS OF ALLOCATION

Four per CBRNE OPS HQ, TOE 37600K000.

CAPABILITIES

- a) Exploitation and disablement of nuclear WMD infrastructure in an OCONUS uncertain or permissive environment with ability to characterize the purpose of the site, the types of nuclear and radiological materials present, and the proliferation risk of the site.
- b) Disablement operations for near-term denial with techniques that will support follow-on WMD-E operations for long term disablement or conversion.
- c) Packaging, transportation, and safeguards for nuclear and or radiological material that pose an immediate threat to friendly and coalition forces or local civilian populations.
- d) Collection/transportation of samples of radiological material/WMD intelligence for forensic analysis.
- e) Establishment of objective criteria to determine which radiological sources have the potential to pose a hazard to friendly forces.
- f) Elimination of threat sources of material for radiological dispersal devices.
- g) Ability to produce high confidence level radioisotope identification and characterization of special nuclear, industrial and medical radiological materials.
- h) Specialize radiological search capability in the form of ground vehicle mounted and personnel carried equipment for area search of suspect sites.

MOBILITY

This unit requires 100 percent mobility of its TOE equipment to be transported in a single lift using organic vehicles. (SOURCE: FMI 3-90.10 Chemical, Biological, Radiological, Nuclear, and High Yield Explosives Operational Headquarters; Operational and Organizational Concept For The CBRNE OP HQ.)

MISSION

On order, deploy and provide Combatant Commanders, lead federal agencies, or supported commanders with specialized CBRNE staff augmentation and technical subject matter expertise in support of CONUS or theater based CBRNE operations, accidents or incidents with emphasis for CBRN related operations. Coordinates the supporting unit's planning and execution of CBRNE technical operations in the theater of operations. Provides mission command of sensitive site exploitation (SSE), disablement, disposition, demilitarization and elimination of Weapons of Mass Destruction (WMD) for the Combatant Commander (COCOM) and the Joint Forces Land Component Commander (JFLCC).

DEPENDENCIES

- When deployed OCONUS, elements of the theater for force protection, fuel and fuel handling (when not collocated with Operational Command Post), imagery analysis (intelligence), civilian and military operations, quartermaster repair, Force Health Protection, field feeding, transportation (to include aviation) of materials under analysis, all field maintenance and recovery, religious, legal, finance, personnel and administrative services, communications, communications-electronics, reach back support and communications security (COMSEC) support.
- Army Field Services Battalion (AFSB) for contracting management (TOE not yet approved).
- When stationed in CONUS, installation elements and/or supported unit for fuel and fuel handling (when not collocated with the Operational Command Post), pre-deployment, staging, Soldier readiness functions, unit movement, airfield operations, facilities, quartermaster repair, health services support, field feeding, all field maintenance and recovery, religious, legal, finance, personnel and administrative services, communications, communications, electronics and COMSEC support.
- CBRNE Operational Headquarters Augmentation Table of Distribution and Allowances (UIC: WNE099) for supplemental support.

WEAPON OF MASS DESTRUCTION COORDINATION TEAM-A (CBRNE)

SRC: 37621KA00

WMD COORDINATION TEAM-A (CBRNE)

O/W/E: 4/1/11//16

BASIS OF ALLOCATION

Up to three per CBRNE OPS HQ, TOE 37600K000.

CAPABILITIES

- a) CBRNE subject matter expertise (including CBRN, EOD, and nuclear operations) as well as internal intelligence and communication capabilities. Assistance to Army Force Commanders on CBRNE aspects with anti-terrorism and force protection plans.
- b) Knowledge and experience to assist the commander and subordinate commands with the integration of the CBRNE operational headquarters, potential JTF-E headquarters, and other CBRNE assets into current and future plans.
- c) Ability to assist in the planning, coordination, nesting, and execution of all facets of WMD-E operations from exploitation to disposal. An initial deployment CP to facilitate the establishment of the CBRNE Operational CP.
- d) Capacity to fuse operational and intelligence data to develop and maintain the CBRNE common operating picture through a variety of intelligence working groups within the supported command.
- e) Assist COCOM and Joint Commanders on CBRNE aspects such as: planning, modeling, and hazard prediction, in their Antiterrorism and Force Protection (AT/FP) plans.

MOBILITY

MISSION

On order, deploy and provide Combatant Commanders, lead federal agencies, or supported commanders with specialized CBRNE staff augmentation and technical subject matter expertise in support of CONUS or theater based CBRNE operations, accidents or incidents with emphasis for Explosives related operations. Coordinates the supporting unit's planning and execution of CBRNE technical operations in the theater of operations. Provides command and control of sensitive site exploitation (SSE), disablement, disposition, demilitarization and elimination of Weapons of Mass Destruction (WMD) for the Combatant Commander (COCOM) and the Joint Forces Land Component Commander (JFLCC).

DEPENDENCIES

- When deployed OCONUS, elements of the theater for force protection, fuel and fuel handling (when not collocated with Operational Command Post), imagery analysis (intelligence), civilian and military operations, quartermaster repair, Force Health Protection, field feeding, transportation (to include aviation) of materials under analysis, all field maintenance and recovery, religious, legal, finance, personnel and administrative services, communications, communications-electronics, reach back support and communications security (COMSEC) support.
- Army Field Services Battalion (AFSB) for contracting management (TOE not yet approved).
- When stationed in CONUS, installation elements and/or supported unit for fuel and fuel handling (when not collocated with the Operational Command Post), pre-deployment, staging, Soldier readiness functions, unit movement, airfield operations, facilities, quartermaster repair, health services support, field feeding, all field maintenance and recovery, religious, legal, finance, personnel and administrative services, communications, communications, electronics and COMSEC support.
- CBRNE Operational Headquarters Augmentation Table of Distribution and Allowances (UIC: WNE099) for supplemental support.

WEAPON OF MASS DESTRUCTION COORDINATION TEAM-B (CBRNE)

SRC: 37621KB00

WMD COORDINATION TEAM-B (CBRNE)

O/W/E: 4/1/11//16

BASIS OF ALLOCATION

Up to three per CBRNE OPS HQ, TOE 37600K000.

CAPABILITIES

- a) CBRNE subject matter expertise (including CBRN, EOD, and nuclear operations) as well as internal intelligence and communication capabilities. Assistance to Army Force Commanders on CBRNE aspects with anti-terrorism and force protection plans.
- b) Knowledge and experience to assist the commander and subordinate commands with the integration of the CBRNE operational headquarters, potential JTF-E headquarters, and other CBRNE assets into current and future plans.
- c) Ability to assist in the planning, coordination, nesting, and execution of all facets of WMD-E operations from exploitation to disposal. An initial deployment CP to facilitate the establishment of the CBRNE Operational CP.
- d) Capacity to fuse operational and intelligence data to develop and maintain the CBRNE common operating picture through a variety of intelligence working groups within the supported command.
- e) Assist COCOM and Joint Commanders on CBRNE aspects such as: planning, modeling, and hazard prediction, in their Antiterrorism and Force Protection (AT/FP) plans.
- f) This unit differs from SRC 37621KA00 (Weapons of Mass Destruction Coordination Element- A) in the explosives emphasis due to this TOE documentation of a 89E Commander and 89D50 Operations Sergeant.

MOBILITY

This unit requires 100 percent mobility of its TOE equipment to be transported in a single lift using organic vehicles. (SOURCE: Operational and Organizational Concept For The CBRNE OP HQ).

SRC: 37400K000	MEB (RECAP)	O/W/E: 65/15/164//244
----------------	-------------	-----------------------

MISSION Provides a task organized force that conducts area operations support, maneuver support operations, support to consequence management, and stability operations in order to assure the mobility, protection, and freedom of action of the supported force.
DEPENDENCIES a) Appropriate elements of the Division, Corps or Theater for religious, legal, finance, personnel and administrative services, security augmentation, fire support, close air support coordination, aviation support, Equal Opportunity (EO), Equal Employment Opportunity (EEO), recruitment and retention services, and Inspector General (IG) activities. b) Weather support from appropriate USAF organizations assigned or attached to the Division, Corps or Theater. c) Dependent upon a Headquarters and Headquarters Company, Combat Sustainment Support Battalion (CSSB) for perform field support maintenance on Communications Security (COMSEC) equipment, resupply, field feeding, low density maintenance and reinforcing support beyond organic capabilities. d) This unit requires assignment of TOE 11307K600, Brigade Signal CO (MEB/CAB/SB) for communications support and operation of the Net Control Station. e) When in support of Joint Force Land Component (JFLC) or Joint Task Force (JTF), it may require selected Joint Manning Document (JMD) augmentation for sister service specific functions.
Continued on next page

MANEUVER ENHANCEMENT BRIGADE (MEB) (RECAP)

SRC: 37400K000

MEB (RECAP)

O/W/E: 68/15/199//282

DEPENDENCIES Continued

- f) Appropriate augmentation is required for Tactical Air Control Party (TACP) and Joint Tactical Control elements for leveraging Joint, Coalition and similar sister service delivery platforms when performing air support combat operations within the assigned Division, Corps or Theater and the MEBs assigned Area of Operations (AO). Density and employment of assets are METT-TC dependent based upon the Commander's discretion.
- g) Expeditionary MI Brigade (E-MIB) and / or the MI Brigade - Theater (MIB-T) for support to meet the commanders intelligence requirements, and for 35T support to integrate and maintain DCGS-A cross-domain hardware and software into the intelligence network.

BASIS OF ALLOCATION

One per Division, Corps or Senior Army HQs.

CAPABILITIES

- a) Mission Command (MC) of and staff planning for all task organized units. Normally the MEB provides MC for up to two Engineer Battalions, two Military Police Battalions, one Chemical, Biological, Radiological, Nuclear (CBRN) Battalion, a Tactical Combat Force (TCF) and other task organized units as required by METT-TC, but should not exceed MC of seven battalions for an extended period. When MC capabilities of the MEB have been exceeded, a Functional Brigade(s) may be necessary for functional Battalion MC.
- b) The capability to perform simultaneous security and functional missions within an assigned AO.
- c) This headquarters may provide MC to subordinate units involved in TCF operations, or as required, to augment other units under the direction of the Division, Corps or Theater Commander.
- d) The Brigade Signal Company provides 24-hour operational Command, Control, Communications, Computer, Intelligence, Surveillance, and Reconnaissance (C4ISR) signal systems network to the supported Maneuver Enhancement Brigade (MEB) which includes deploying, installing, operating, and maintaining these systems.

MOBILITY

See the Section I of each subordinate TOE for mobility requirements and capabilities.

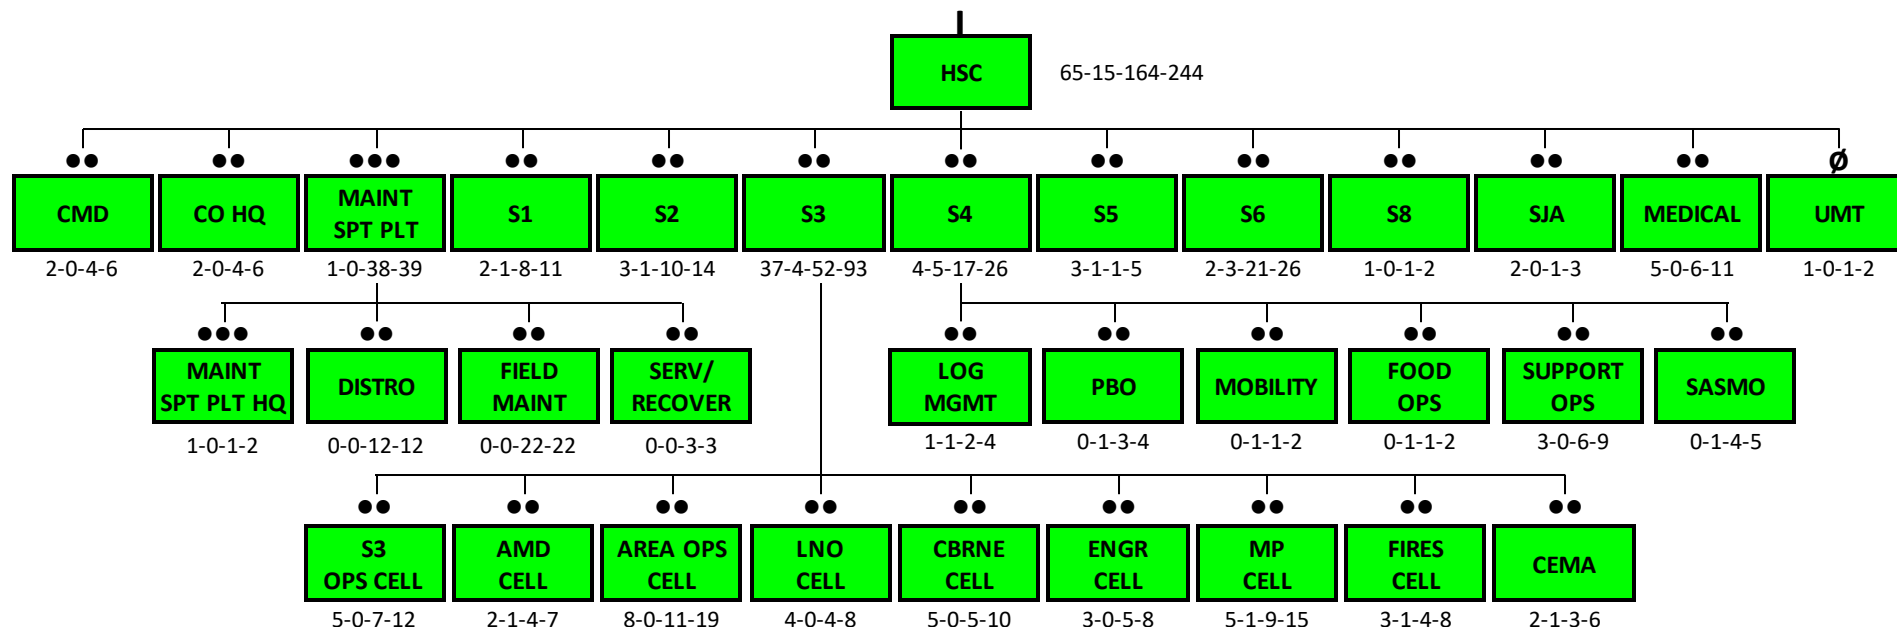

HSC, MANEUVER ENHANCEMENT BRIGADE (MEB)

SRC: 37402K000

HSC, MEB

O/W/E: 65/15/164//244

MISSION

Provides mission command for a tailored force that conducts support area operations, maneuver support operations, support to defense support of civil authorities,, and support to stability in order to assure the mobility, protection, and freedom of action of the supported force.

DEPENDENCIES

- a) Appropriate elements of the Division, Corps or Theater for religious, legal, finance, personnel and administrative services, security augmentation, fire support, close air support coordination, aviation support, Equal Opportunity (EO), Equal Employment Opportunity (EEO), recruitment and retention services, and Inspector General (IG) activities.
- b) Weather support from appropriate USAF organizations assigned or attached to the Division, Corps or Theater.
- c) This unit requires assignment of a Brigade Signal CO (MEB/CAB/SB) for communications support and operation of the Net Control Station.
- d) When in support of Joint Force Land Component (JFLC) or Joint Task Force (JTF), it may require selected Joint Manning Document (JMD) augmentation for sister service specific functions.
- e) Appropriate augmentation is required for Tactical Air Control Party (TACP) and Joint Tactical Control elements for leveraging Joint, Coalition and similar sister service delivery platforms when performing air support combat operations within the assigned Division, Corps or Theater and the MEBs assigned Area of Operations (AO). Density and employment of assets are METT-TC dependent based upon the Commander's discretion.
- f) Dependent upon a Headquarters and Headquarters Company, Combat Sustainment Support Battalion (CSSB) for perform field support maintenance on Communications Security (COMSEC) equipment, resupply, field feeding, low density maintenance and reinforcing support beyond organic capabilities.
- g) This unit is dependent upon the Expeditionary MI Brigade (E-MIB) and / or the MI Brigade - Theater (MIB-T) for support to meet the commanders intelligence requirements, and for 35T support to integrate and maintain DCGS-A cross-domain hardware and software into the intelligence network.

BASIS OF ALLOCATION

One per Division, One per Corps, or One per Senior Army Headquarters

HSC, MANEUVER ENHANCEMENT BRIGADE (MEB)

SRC: 37402K000

HSC, MEB

O/W/E: 65/15/164//244

CAPABILITIES

- a) Mission Command (MC), staff planning and supervision of the operational units assigned/attached to the Brigade. Normally the MEB provides MC for up to two Engineer (EN) Battalions, two Military Police (MP) Battalions, one Chemical, Biological, Radiological, Nuclear (CBRN) Battalion, a Tactical Combat Force (TCF), and other task organized units/detachments. Other combinations of task organized units may be applied based on METT-TC requirements, but should not exceed MC of seven battalions for an extended period. When MC capabilities of the MEB have been exceeded, a Proponent specific Functional Brigade may be necessary for functional Battalion MC.
- b) The capability to perform simultaneous security and functional missions within an assigned AO.
- c) This headquarters may provide MC to subordinate units involved in TCF operations, or as required, to augment other units under the direction of the Division, Corps or Senior Army Headquarters Commander.
- d) The capability to support a Division or Corp SACP. Depending on the situation, including the threat, size of the support area, and number of units within the support and consolidation areas, Division and corps commanders may form a support area command post (SACP) to assist in controlling operations (FM 3-0, 2-174).

MOBILITY

This unit requires 100 percent mobility of its TOE equipment transported in a single lift using organic equipment. (Source: FDU, Maneuver Enhancement Brigade, Headquarters and Support Company dated: XX Xxx 2017.

MISSION

To provide 24-hour operational Command, Control, Communications, Computer, Intelligence, Surveillance, and Reconnaissance (C4ISR) signal systems network to the supported Maneuver Enhancement Brigade (MEB), Combat Aviation Brigade (CAB), and/or Sustainment Brigade (SB), which includes deploying, installing, operating, and maintaining these systems.

BRIGADE SIGNAL COMPANY (MEB/CAB/SB)

SRC: 11307K600

BRIGADE SIGNAL COMPANY (MEB/CAB/SB)

O/W/E: 3/0/35//38

DEPENDENCIES

- 1) Appropriate Elements of the Corps or Division for religious, legal, force health protection, finance, personnel and administrative, logistical services.
- 2) This Unit requires support from appropriate Brigade to perform field support maintenance on organic equipment, Communications Security (COMSEC) equipment, unit administration, and for Nuclear Biological and Chemical (NBC) support.

BASIS OF ALLOCATION

One per Maneuver Enhancement Brigade (MEB), TOE 37342K000; Sustainment Brigade (SB), TOE 63302K000; and/or a Combat Aviation Brigade (CAB), TOEs 01300K000 and 01400K000.

CAPABILITIES

- a) Tactical Internet (TI) supporting Force XXI Battle Command Brigade and Below (FBCB2) or Joint Base Communication Platform (JB C-P) AN/UYK-128B Situational Awareness (SA) and Command and Control (C2) data exchange capabilities to Maneuver, Maneuver Support, and C2 elements.
- b) Combat net radio retransmission of voice using Single-Channel Ground and Airborne Radio System (SINCGARS), Improved High Frequency Radio (IHFR), and single channel Tactical Satellite (TACSAT) for C2, with a secondary role of data retransmission where TI or Army Common User System (ACUS) capabilities do not exist for the HHC BCT.
- c) Global Broadcast Service with the ability to receive high bandwidth products such as imagery, logistics data, and digital map information to support Army Battle Command System (ABCS) employment by Commanders and Staffs.
- d) Multi-channel TACSAT to extend the range of the Brigade's communications services.
- e) Establishment of primary Tactical Operations Center (TOC) voice/video capabilities for the Brigade.

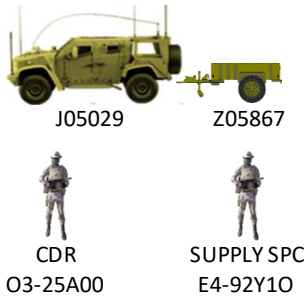

MOBILITY

This Unit requires 100 percent mobility of its TOE equipment transported in a single lift using organic vehicles (SOURCE: FM 11-41/11-50).
