STATE OF NEW MEXICO
OFFICE OF THE ADJUTANT GENERAL
SANTA FE

JOHN P. JOLLY
MAJOR GENERAL
THE ADJUTANT GENERAL

8 July 1960

SUBJECT: Annual Report of The Adjutant General of New Mexico

TO: Lt Col E. J. Hamilton
Lt Col Robert H. Moser
Lt Col Glenn Lovett
Lt Col Francis C. Williams ✓
Major Harold C. Eisenbarth
Major Donald W. Nighbert
Captain Antonio M. Martinez
Captain Henry H. Whitney

1. In order that this Department may render an annual report for the period 1 July 1959 to 30 June 1960, it will be necessary for each of you to prepare information and statistics concerning the activities of your section. Listed in par 2, below, are some of the items that should be covered; however, these are merely suggestions. The full scope of your activities should be given in order that we have a complete and accurate report. Annual Reports of other State Adjutants General are available and may give you some ideas. It is requested that each of you submit your portion of this report to Lt Col Hamilton not later than 30 September 1960.

2. Suggested coverage:

a. LT COLONEL HAMILTON - Armory Construction and overall supervision of Annual Report.

b. LT COLONEL MOSER

Audits and Inspections
Logistics and Property Accounting
Budget and Fiscal Accounting
Disbursements
Travel Expenditures
Service Contracts
Fuels and Lubricants
ANACDUTRA Expenses
Subsistence for inactive duty training

8 July 1960

SUBJECT: Annual Report of The Adjutant General of New Mexico

Armory Drill pay and Field Training pay
Officer Uniform Allowance
Clothing and Equipment issued
Purchasing and Contracting
Transportation
Command Inspection Funds expended
R & U Money

c. LT COL LOVETT

Strength and Distribution of units
Reorganization
Orders and Publications
Enlisted Records and strength by month
Officers Records and strength by month, include promotions
Retirement
Security Clearances
Line of Duty Investigations and Hospitalization
Inactive National Guard
Recruiting
Report of Claims
Awards and Decorations
Discharges and transfers
Records Disposition
Reports of Survey

d. LT COL WILLIAMS

Air National Guard Units and Strength by Month
Organization of NMANG
Officer and Airmen Records
Attendance Records
Field Training
Personnel Assignment
Full time personnel

e. MAJOR EISENBARTH

Budgets and Appropriations
Salaries of State personnel
Travel of State personnel
General Maintenance
Sale of Property
Armory Rentals and Armory Boards
State owned property
Retirement of State personnel
Insurance of State personnel
Social Security of State personnel
Income Tax of State personnel

8 July 1960

SUBJECT: Annual Report of The Adjutant General of New Mexico

f. MAJOR NIGHBERT

- Armory Drill Training
- ANACDUTRA
- Annual General Inspection
- Army National Guard Training Evaluation Reports
- Staff Performance
- Six-Month Training Program
- Command Post Exercises
- Army Service Schools
- State Schools
- NCO Schools
- Army Extension Course Program
- National Rifle Matches
- State Rifle Matches
- Officer Candidate School
- Training Objectives and Policies
- Alerts
- Training Awards

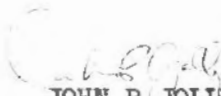

g. CAPTAIN MARTINEZ

Civilian personnel activities to include following:

- Total salaries
- Total Social Security
- Total Withholding
- Number of employees
- Number of resignations during year
- Number of employments during year
- Average number of employees
- Salary adjustments and increases
- Job title requirements
- Number of 201 files maintained

h. CAPTAIN WHITNEY

- Combined Maintenance Shop activities
- Organizational Maintenance Shops
- Command Maintenance Inspections
- Spot Check Inspections
- State Maintenance Policy and Plan
- Maintenance employees
- Equipment repairs and parts cost

REPLY TO

ATTN OF: Air Sec

SUBJECT: Annual Report of the Adjutant General

TO: Comdr, Hq 150th Str Group (AB)

1. The FY 1961 annual report of the Adjutant General will include the statistics and details of operation of the Air National Guard as of 30 June 1961. It is planned that this information will be compiled for the Adjutant General LPT 15 August 1961.
2. It is suggested that the project for compilation for this report be accomplished as far as possible during 1961 field training.

FOR THE ADJUTANT GENERAL:

CLAY D. KERN
Lt Col, MORG
Air Admin Asst

STATE OF NEW MEXICO
Office of The Adjutant General
Santa Fe

1 December 1960

The Honorable John Burroughs
Governor of New Mexico and
Commander-in-Chief,
New Mexico National Guard
Santa Fe, New Mexico

Sir:

Submitted herewith is an annual report of the Adjutant General of New Mexico pertaining to the administration of this Department for Fiscal Year 1960.

To perform its State mission in the protection of life and property, and to preserve the peace and order, the New Mexico National Guard realizes its responsibility to maintain an efficient, well trained, well equipped force, ready for use by the State in any emergency that might arise.

Our training objectives are being reached, and an increasing number of our units are being rated as Excellent and Superior. The New Mexico National Guard continues to take full advantage of the educational opportunities offered by the Army and Air Force by filling its quotas to the technical and service schools operated by those agencies. An increasing number of Guardsmen volunteering for six months basic training is supplying all of our units with basically trained personnel. The eight weeks basic training given by the Air Force also increases the efficiency of our Air National Guard.

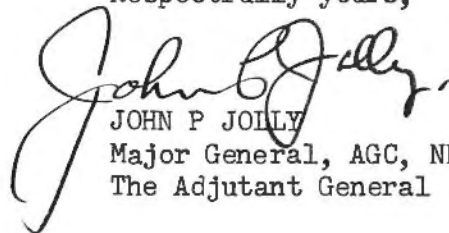

Our need for improved armory facilities has not yet been fully met, but full advantage has been taken of the funds supplied by the State, Federal Government, and local communities.

Armories have been constructed, or contracts have been let, in nine communities in the State in the last year. Continued advantages will be taken of the present policies of the Federal Government in helping to finance armories in these communities where they are needed.

Detailed reports as to the organization, training, administration, and logistical and fiscal support, are to be found in this report under their appropriate headings.

This report is intended to fulfill two purposes - (1) To provide information on the New Mexico National Guard for interested governmental and private organizations, and (2) To provide permanent reference material of historical value.

Respectfully yours,

A handwritten signature in cursive script, reading "John P. Jolly". The signature is written in dark ink and is positioned above the printed name and title.

JOHN P. JOLLY

Major General, AGC, NMARNG
The Adjutant General

POLICIES OF THE DEPARTMENT OF THE ARMY AND DEPARTMENT
OF THE AIR FORCE RELATING TO THE NATIONAL GUARD

1. DEFINITION:

The National Guard of the United States and the Air National Guard of the United States are integral parts and first line reserve components of the Army of the United States and the United States Air Force. The National Guard of the States and Territories continues to exist and, in time of national emergency, may be called or ordered into the Army of the United States and the United States Air Force through its National Guard of the United States status. All Federally recognized units and elements of the Active National Guard and the personnel of the Inactive National Guard of the several States, the District of Columbia and Puerto Rico, together, constitute the National Guard of the United States.

2. MISSIONS:

a. Mission of the National Guard of the United States and the policy relative to its employment are set forth in the Army Forces Reserve Act of 1952 (Public Law 476, 82nd Congress) as follows:

"Sec 201. (a) The Congress hereby declares that the reserve components of the Armed Forces of the United States are maintained for the purpose of providing trained units and qualified individuals to be available for active duty in the Armed Forces of the United States in time of war or national emergency, and at such other times as the national security may require, to meet the requirements of the Armed Forces of the United States in excess of those of the regular components thereof, during and after the period needed for procurement and training of additional trained units and qualified individuals to achieve the planned mobilization."

This law specifically defined and further clarified dictates that the mission of the National Guard of the United States is to provide a reserve component of the Army of the United States and the United States Air Force capable of immediate expansion to war strength, able to furnish units fit for service anywhere in the world, trained and equipped to: 1. Defend critical areas of the United States against land, seaborne or airborne invasion. 2. Assist in covering the mobilization and concentration of the remainder of the reserve forces. 3. Participate by units in all types of operations, including the offensive, either in the United States or overseas.

b. Mission of the National Guard of the Several States.

A dual mission is levied upon both the Army and Air National Guard. As stated above, both the Army and Air National Guard have the Federal mission of preparing their units and members for active military service in time of national emergency, however, there is also an important mission to perform for the State of New Mexico. The State mission, a peacetime one, is the traditional guardian of life and property and constitutes a State security force, which provides sufficient organization in the State so trained and equipped as to enable them to function efficiently at existing strength in the protection of life and property and the preservation of peace, order and public safety under competent orders of State authorities.

3. COMPOSITION OF THE NEW MEXICO NATIONAL GUARD:

The organization and units allotted to the several States will be those which are required for the accomplishment of the mission of the National Guard and, when taken with the units of the Regular Army, United States Air Force and their reserve components, will provide the essential forces required for early mobilization. Within the total allotment, organizations of the proper type will be allotted to each State to enable it to accomplish the Federal and State missions. (See page 36 of this report for a listing of the units allotted to the State of New Mexico).

4. FEDERAL AND STATE RESPONSIBILITY:

a. General

The National Guard is an integral part of the Army of the United States and the United States Air Force and its success depends upon mutual confidence between the Federal Government and the States. Such confidence is obtained only by the wholehearted efforts of all parties to maintain an effective National Guard.

b. The Federal Government is responsible for:

(1) Providing the pay of Federally recognized personnel for participation in authorized inactive duty training and active duty for training, including appropriate duty or duties and periods of equivalent duty or training, and administrative pay.

(2) The procurement and issue of uniforms, arms, equipment and supplies.

(3) The supervision of training.

(4) To appropriate a sum of money annually for the expense of providing ordnance stores, quartermaster stores, camp equipage and to contribute to State funds an equitable share of the expenses of construction and maintenance of certain training facilities, as are now or may later be authorized by law.

(5) Audit and inspect National Guard units, Army and Air, and accounts and records of the United States Property and Fiscal Officer.

c. The State Government is responsible for:

(1) Subject to such qualifications for Federal recognition as may be established by the Secretary of the Army and Air Force, appoint, promote, transfer, assign and separate personnel of the National Guard, Army and Air.

(2) Provide training and storage facilities, except as contributed to by the Federal Government.

(3) To train officers, warrant officers and enlisted personnel of the National Guard, Army and Air.

(4) To properly account for and maintain all Federal property and funds.

d. Advisors

Under policies of the Department of the Army and Department of the Air Force, selection and assignment of qualified advisors is reserved as a function of Headquarters, Department of the Army and Headquarters, Department of the Air Force with the Several States having the right of rejection. The supervision of the training responsibility of the advisors is vested in the Commanding General, Continental Army Command and Chief of Reserve Forces, Headquarters, United States Air Force. Personnel on duty as advisors with the National Guard have no command status with troops or units of the National Guard. The primary duty of advisors will be to advise and assist responsible commanders in the attainment and maintenance of that state of efficiency of the National Guard units as is prescribed by Headquarters, Department of the Army and Headquarters, Department of the Air Force.

e. National Guard Bureau

(1) The National Guard Bureau is charged with:

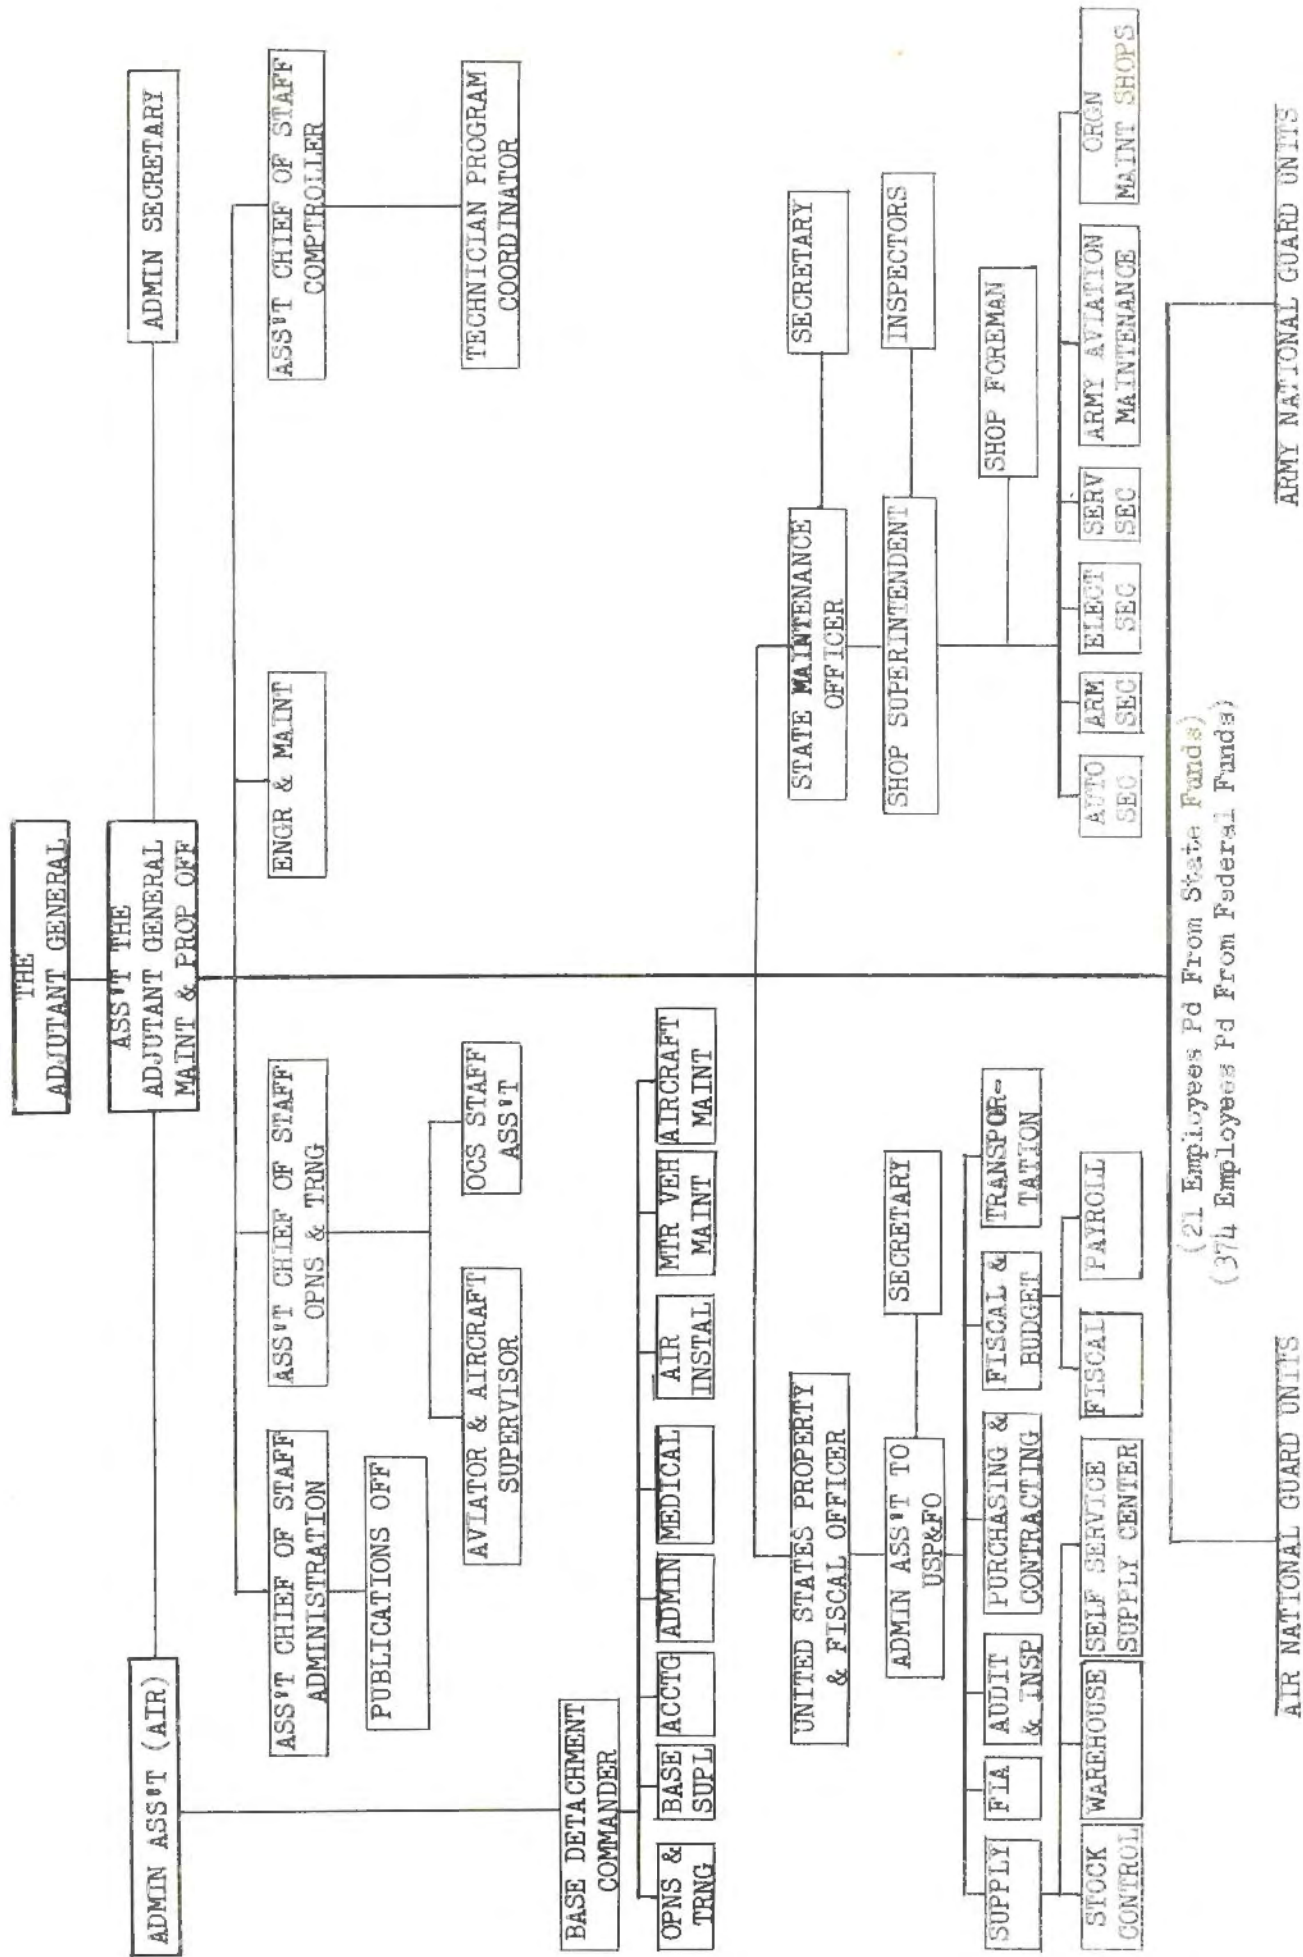

(a) Administering approved joint Army and Air Force policies, other than those relative to training, when such policies are applicable to both the Army National Guard not in the Federal service and the Air National Guard not in the Federal service and with promulgating joint Army-Air Force directives applicable to both the Army and Air National Guard, including those relating to training.

(b) Functioning as the channel of communication between the Departments of the Army and Air Force and the State on all matters pertaining to the Army and Air National Guard.

(c) Maintaining an office of record for all Department of the Army and Air Force records pertaining to the Army and Air National Guard not in the Federal service.

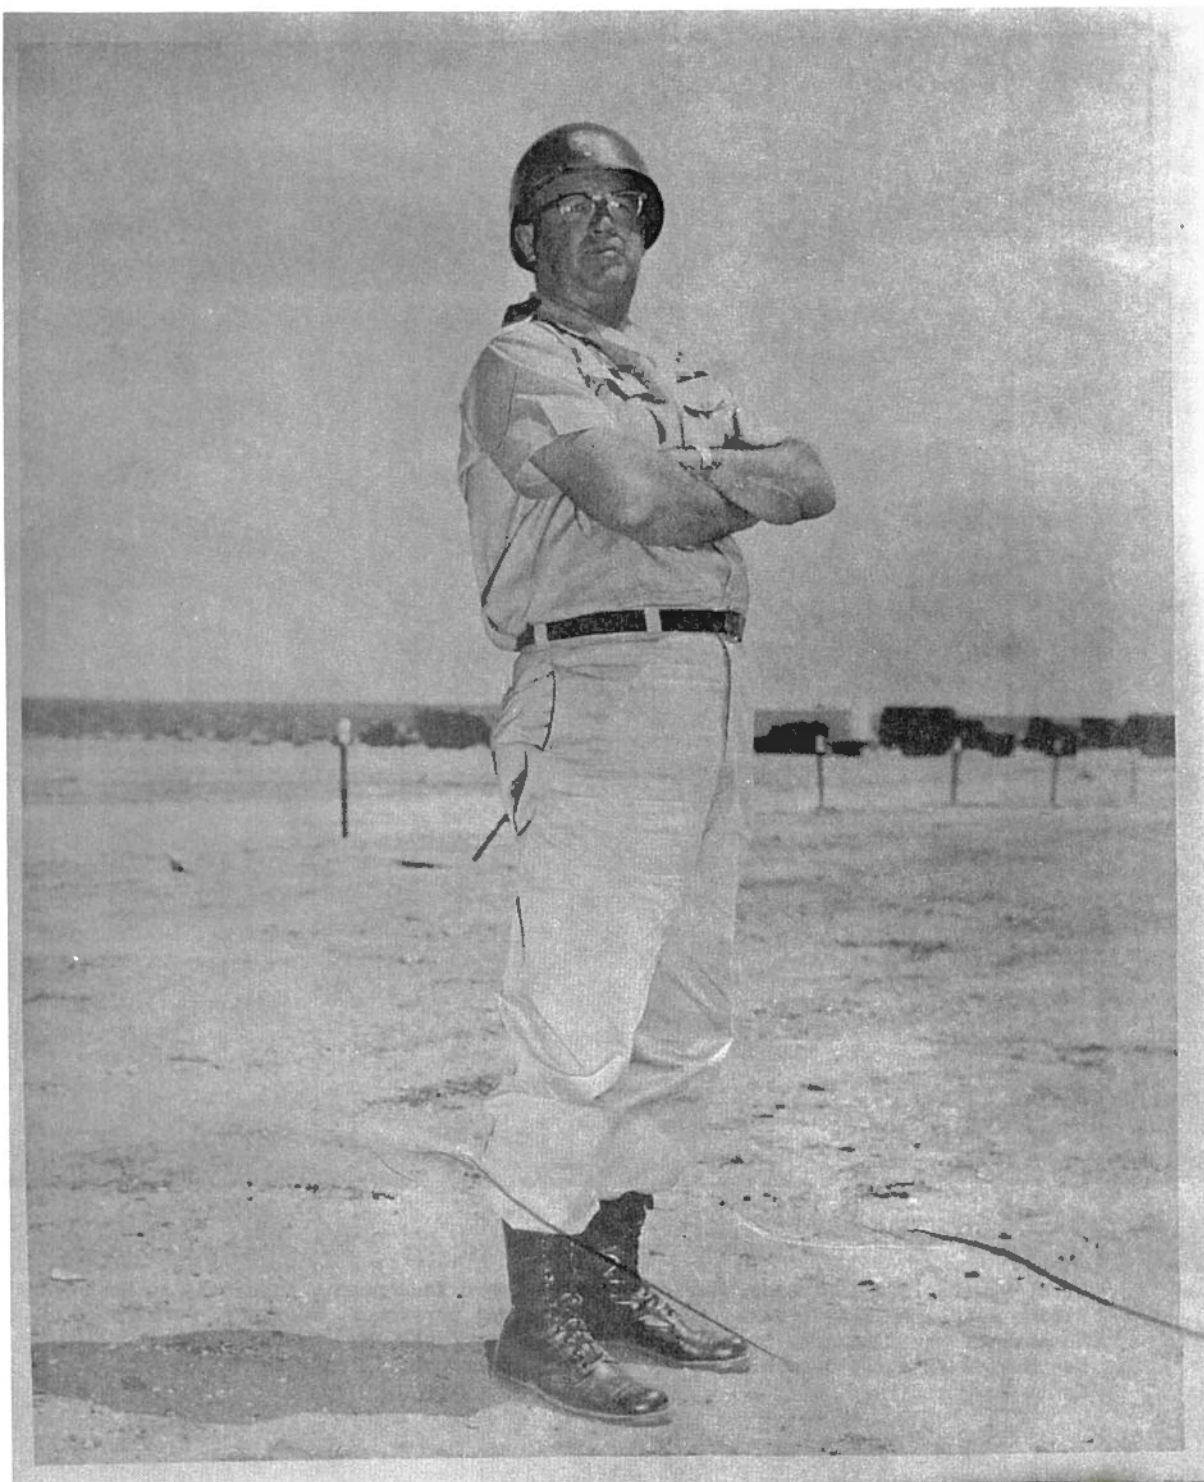

f. National Guard Policy Making

All policies affecting the National Guard are prepared by the General Staff Committee on National Guard Policy (known as the "Section Five Committee") for action by the Secretary of the Army and Secretary of the Air Force under normal Department of the Army and Department of the Air Force procedure. All regulations to carry such policies into effect are reviewed by this committee.

Trooping the line at the New Mexico National Guard Encampment, August 13 at Hueco Firing Range, Ft Bliss, Texas - Brigadier General Coryton M. Woodbury, Commanding General of the 111th Arty Brigade, Gov John M. Burroughs, Maj General John P Jolly New Mexico Adjutant General, driven by Sgt P. Escudero, 111th Arty Brigade, Santa Fe.

Brigadier General Coryton M Woodbury, Commanding General, 111th Arty Brigade,
Santa Fe, New Mexico. Hometown - Roswell, New Mexico

COMPTROLLER

1. Financial Support - The financial support of the Army and Air National Guard of New Mexico is provided jointly by the United States Government and the State of New Mexico. The Federal Government pays all Armory Drill and Field Training pay and allowances, provides all clothing, equipment, and munitions for training purposes pays salaries of a staff of three hundred sixty eight (368) civilian employees to operate the United States Property and Fiscal Office, the State Maintenance Shop, the Organizational Maintenance Shops, Staff Administrative Assistants, Training Officers, Administrative-Supply Technicians, and the Air National Guard Base at Kirtland, AFB.

2. The State of New Mexico pays all expenses incident to the operation of The Adjutant General, all Armory maintenance and utilities. Facilities occupied by the Air National Guard are maintained on a 75% participation by the Federal Government and 25% participation by the State. Armory construction is supported jointly, the Federal share being 75% and the State share being 25%.

3. This portion of this report deals only with the expenditures by State. The expenditure of Federal money can be found in another section of this annual report.

4. During the year a total of 2,124 State Purchase Vouchers were prepared and processed to cover the following operating and maintenance costs for the year:

- Employees Benefit Plans
- Travel
- Maintenance and Repairs
- Supplies and Materials
- Professional Services
- Communications
- Utilities
- Rentals
- Insurance and Bond Premiums
- Capital Outlay
- Other Expenditures

5. In addition to the above, a total of forty-five (45) State Salary Vouchers were processed covering the Salaries of personnel paid from State Funds, and a total of thirteen (13) Federal Vouchers covering the salaries of Technicians employed by the Army National Guard paid from Federal Funds.

6. This Section was responsible for all State Budget and Fiscal matters covering appropriate National Guard requirements. During the year we expended a total amount of \$310,648.44 of an authorized budget of \$313,385.00 State Funds in the Regular Budget with expenditures broken down as follows:

STATE ARMORY BOARD

1. Members of the State Armory Board as appointed by the Governor pursuant to the provisions of Section 9-7-3, New Mexico Statutes, 1953, Annotated, are as follows:

MAJOR GENERAL JOHN P JOLLY - President
MAJOR HAROLD C EISENBARTH - Secretary-Treasurer
MR PATRICIO S SANCHEZ - Member

2. Activities of the State Armory Board were limited primarily to Building or Structure Maintenance and Construction. The Board entered the 48th Fiscal Year with a fund balance carry-over from the 47th Fiscal Year of \$78,488.94. Cash receipts for the year totaled \$82,358.23, and the Board received an appropriation of \$100,000.00 from the State's General Fund, giving the Board a total of \$260,847.17 for the year. During the year a total of 152 Cash Receipt vouchers were processed for receipts derived from the following sources:

BOARD	RENTALS	SALE OF PROPERTY	TOTAL
State Armory Board	\$ 2,165.00	\$71,350.00	\$73,515.00

Tucumcari Armory Board of Control	120.00		120.00
TOTALS	\$ 9,669.95	\$72,688.28	\$82,358.23

3. Cash balance carry-over to the 49th Fiscal Year is \$113,887.14. The Board will not receive an appropriation from the State's General Fund for the 49th Fiscal Year. All revenues anticipated for the year must be derived from the rental or sale of property.

4. Members of the various Local Armory Boards appointed by the Governor pursuant to the provisions of Section 9-7-4, New Mexico Statutes, 1953, Annotated, are as follows:

ALAMOGORDO ARMORY BOARD OF CONTROL

1st Lt Roger J Torres - President
WO Salvador G Gonzales - Secretary-Treasurer
Billy J Dunn - Civilian Member

ALBUQUERQUE ARMORY BOARD OF CONTROL

Lt Col E J Hamilton - President
Maj Orvie L Green - Secretary-Treasurer
Col Clarence E Rothgeb (USA-Ret) - Civilian Member

ARTESIA ARMORY BOARD OF CONTROL

Capt William J Whitaker - President
Capt John C King - Secretary-Treasurer
Mr L W Brummett - Civilian Member

BELEN ARMORY BOARD OF CONTROL

Capt Salomon Abeyta - President
1st Lt Joe L Sanchez - Secretary-Treasurer
Mr Bernard Baca - Civilian Member

CARLSBAD ARMORY BOARD OF CONTROL

Capt Luther A Green - President
Capt George E Duffy - Secretary-Treasurer
Mr Horace G Hubert - Civilian Member

CLAYTON ARMORY BOARD OF CONTROL

Capt Rufus H Walker - President
2nd Lt Roy D Leighton - Secretary-Treasurer
Mr Hal Brown - Civilian Member

CLOVIS ARMORY BOARD OF CONTROL

Capt Reeford G Burrous - President
Capt Joe A Hinds - Secretary-Treasurer
Mr Joe B Sisler - Civilian Member

DEMING ARMORY BOARD OF CONTROL

Capt George E Ewan - President
Capt Robert Ochoa - Secretary-Treasurer
Mr A J Naves - Civilian Member

ESPANOLA ARMORY BOARD OF CONTROL

Capt Severo Martinez - President
2nd Lt Joseph F Merhege - Secretary-Treasurer
Mr Eloy Gomez - Civilian Member

FARMINGTON ARMORY BOARD OF CONTROL

1st Lt DeVere E Walker - President
1st Lt Bert G Barns - Secretary-Treasurer
Mr Orval Ricketts - Civilian Member

FORT SUMNER ARMORY BOARD OF CONTROL

Capt William H Carr - President
WO Ewell J Pruitt - Secretary-Treasurer
Mr John D Donnell - Civilian Member

GALLUP ARMORY BOARD OF CONTROL

1st Lt Roy V Bynum - President
2nd Lt Arnold F Hudgeons - Secretary-Treasurer
Mr William W Griffen - Civilian Member

HOBBS ARMORY BOARD OF CONTROL

Capt Howard B Kipple - President
 1st Lt Thomas W Wylie - Secretary-Treasurer
 Mr J W Neal - Civilian Member
 2nd Lt Robert Whitten - Member Ex-Officio

LAS CRUCES ARMORY BOARD OF CONTROL

Capt Dorman C Brookey - President
 Capt Sammie T Chavez - Secretary-Treasurer
 Mr Clint Smith - Civilian Member

LAS VEGAS ARMORY BOARD OF CONTROL

Capt Lorenzo B Fulgenzi - President
 1st Lt Donald S Guerin - Secretary-Treasurer
 Mr Jimmy Bustamontes - Civilian Member

LORDSBURG ARMORY BOARD OF CONTROL

1st Lt Jesus J Estrada - President
 2nd Lt John S Landers - Secretary-Treasurer

LOVINGTON ARMORY BOARD OF CONTROL

Capt Robert O Sarver - President
 2nd Lt William E Tarry - Secretary-Treasurer
 Mr C R Razor - Civilian Member

PORTALES ARMORY BOARD OF CONTROL

Capt Lloyd L Call - President
 Capt Billy J Hollen - Secretary-Treasurer
 Mr Dewey F Langston - Civilian Member
 Capt Robert C Coleman - Member Ex-Officio

RATON ARMORY BOARD OF CONTROL

Capt Richard G Parker - President
 1st Lt John Aguilar - Secretary-Treasurer
 Mr Robert Skinner - Civilian Member

ROSWELL ARMORY BOARD OF CONTROL

Capt Robert F McDavid - President
 1st Lt Charles F Nichols - Secretary-Treasurer
 Mr W M Foster - Civilian Member
 Capt Herman M Miranda - Member Ex-Officio
 Capt Philip L Hosford - Member Ex-Officio

SANTA FE ARMORY BOARD OF CONTROL

Capt Eleuterio Nava, Jr - President
 Capt Joe M Martinez, Jr - Secretary-Treasurer
 Mr Joe L Larribas - Civilian Member

SILVER CITY ARMORY BOARD OF CONTROL

Capt Byron K Puleston - President
 1st Lt Andy M Padilla - Secretary-Treasurer
 2nd Lt George W Jameson, Jr - Civilian Member

SOCORRO ARMORY BOARD OF CONTROL

1st Lt Tomas C Crespin - President
1st Lt Wade R Hedgecoke - Secretary-Treasurer
Mr P H Karron - Civilian Member

SPRINGER ARMORY BOARD OF CONTROL

1st Lt Joseph Macaron, Jr - President
CWO Jerry F Smith - Secretary-Treasurer
Mr Daniel W Caldwell - Civilian Member
Mr Carl J Garitson - Member Ex-Officio

TAOS ARMORY BOARD OF CONTROL

Capt Herman W Knight - President
1st Lt Ernest T Suazo - Secretary-Treasurer
Dr Rec J Benson - Civilian Member

TRUTH OR CONSEQUENCES ARMORY BOARD OF CONTROL

Capt Robert W Adair - President
1st Lt Diego T Montoya - Secretary-Treasurer
Mr Joe D Tafoya - Civilian Member

TUCUMCARI ARMORY BOARD OF CONTROL

2nd Lt W A Wise, Jr - President
CWO Alvin N Cawthon - Secretary-Treasurer
Mr. Charles N Magruder - Civilian Member

5. All of the Secretary-Treasurers of the above stated Local Armory Boards of Control are covered by an Employees Honesty Blanket Position Bond in the amount of \$5,000.00 pursuant to the provisions of Section 9-7-6, New Mexico Statutes, 1953, Annotated.

CIVILIAN TECHNICIANS

1. The National Defense Acts permits employment of Civilian Technicians in the fields of Supply, Administration and Maintenance to enable the units to carry out their tactical missions. Officers and Enlisted Men employed as technicians are employed by the Adjutant General of New Mexico and paid by federal funds allotted by the National Guard Bureau.

2. LEGAL BASIS: The authority of the National Guard Bureau to regulate the employment and rates of compensation is contained in Department of Army General Order #96 dated 9 November 1951, Subject: "Delegation of Authority for the Employment and Fixing of Salaries of all Caretakers and Clerks in the National Guard".

3. POLICY: It is the policy of the National Guard Bureau and The Adjutant General of New Mexico through the Technician Program Coordinator that positions will be classified in an orderly manner to provide a systematic basis for salary or wage determination, as well as for the application of the various processes of technical personnel management and administration. This policy applied within the framework of governing laws and regulations, will facilitate the equal treatment, within each classification and pay category, of the technicians performing comparable work.

a. In order that this policy may be made operative, it is necessary that pay rates bear a direct relationship to the level of responsibility and qualification requirements of the work performed. Through a process of job evaluation both Classification Act type positions and Wage Board type positions are compared ranked, and graded to provide for the equitable application of the appropriate salary or wage schedules.

b. To provide for effective administration of the program, the classification structure will be maintained through periodic surveys.

4. CATEGORIES OF POSITIONS: There are two major categories of positions in the Army Technician Program these are:

a. Classification Act Type Positions. These positions are characterized by work in managerial, professional, administrative, and clerical occupations.

b. Wage Board Type Positions. These positions are characterized by trade and craft type occupations, and other positions excluded from the Classification Act.

5. TECHNICIANS: Technicians employed during FY-60 were:

a. Officers - - - - -	21
Warrant Officers - - - - -	31
Enlisted Men - - - - -	154
Civilian (Female) - - - - -	4

b. Listed below by category positions authorized during FY-60

Classification Act Type - - - - -	105
Wage Board Type - - - - -	<u>105</u>
Total	210

c. Due to the loss of supported positions determined by the manning criteria of the National Guard Bureau the difference of technicians resigned, terminated, and employed during FY-60 is reflected below:

Resigned or terminated - - - - -	34
Employed (new employees) - - - - -	26

6. The National Guard Bureau allotted \$1,136,900.00 to support technician positions in the three projects (7512) Organizational Technicians, (7513) USP&FO Technicians, and (7514) Field Maintenance Technicians. Of the funds allotted 99.84% were expended during FY-60.

Total Funds Allotted FY-60 - - - - -	\$1,136,900.00
Total Funds Expended FY-60- - - - -	\$1,133,912.65
Total Funds Returned to NGB FY-60 - - -	\$ 2,987.35
Total FICA paid Employers Share FY-60 -	\$ 28,386.24
Total FICA paid Employees Share FY-60 -	\$ 28,386.24
Total Federal Tax Withheld FY-60- - - -	\$ 117,697.98
Annual Man Months Allotted FY-60 - - - -	2,662

7. The major changes in the Technician Program during FY-60 were:

a. Conversion from the Semi-Monthly pay system to the Bi-Weekly pay system.

b. Implementation of the current Wage Board Schedules for the Combined Maintenance Shop

c. Revision of Time & Attendance Report Form AGONM Form 5-1-2.

d. Revision of Civilian Personnel Request & Action Order Form 5-1-1.

e. Promulgation of AGONM Regulation 5-1 dated 15 April 1960.

8. Attached as an appendix hereto is a list of Records, Reports, Forms, Letter, and inquiries and the number processed daily during FY-60.

Guardsmen training on the 50 cal. machine gun.

NEW MEXICO ARMY NATIONAL GUARD
MILITARY PERSONNEL

The Military Personnel Division (G-1 Section) is charged with the responsibility of providing administrative and operational services for the Adjutant General in connection with the assignment, promotion, appointment, enlistment, transfer, and separation of all personnel, officer and enlisted, of the Army National Guard, to include processing and maintenance of all records of such personnel. Custody and maintenance of records includes all records dating back to the Territorial Militia of 1860. The Division performs administrative services and records for the following:

- Officers and Warrant Officers
- Enlisted Personnel
- Reports and Regulations
- Recruiting, Orders, and Retained Records
- Publications and Reproductions
- Claims, Investigations, and Courts-Martials
- Security Clearance
- Reports of Survey

The Division is the office of record for all Army National Guard personnel assigned to the State of New Mexico, and is responsible for the development and implementation of policies and procedures for their personnel management, to include preparation and continuous maintenance of a file for each individual, officer and enlisted. Statistical data on appointments, promotions, etc., are as shown on Chart 1, this section.

Other actions performed during the past fiscal year:

Officer Efficiency Reports processed and forwarded to the National Guard Bureau - 367

Officer Physical examinations processed and forwarded to the National Guard Bureau - 232

Security Clearances;
 Officers - 268
 Enlisted - 303

Reports of Survey processed and forwarded to Headquarters, 4th US Army - 12

Line of Duty Investigations processed and forwarded to the National Guard Bureau - 11

Claims for Damages processed and forwarded to the National Guard Bureau - 3

Statements of Service completed and forwarded to requesting authority - 1014

Officer appointments and promotions processed and forwarded to the National Guard Bureau - 136

Enlistment Records processed and forwarded to the National Guard Bureau - 889

Courts-Martials Reviewed - 6

Enlisted 201 files processed and filed and/or forwarded - 2158

Orders reviewed and processed - 378

Personnel policies, procedures, and regulations are reviewed and published in concise AGONM regulations to better enable all units to conform to policies established by the National Guard Bureau and the Department of Army.

Recruiting and procurement programs are established annually and every effort is made to reach the strength established. After reorganization, 1 September 1959, an extensive recruiting campaign was conducted which resulted in an end strength of 3509 on 30 June 1960. Chart 2, this section, shows the summary program established on 1 September 1959; Chart 3, this section, shows the distribution of units by strength as of 30 June 1960. Chart 4, this section, is an analysis of strength by month for the State.

Decorations and Awards presented during fiscal year 1960 are shown on Chart 5, this section.

Disposition of records has been established by an AGONM Regulation for all units of the New Mexico Army National Guard. The Office of the Adjutant General is the receiving depot for storage until further instructions are furnished by the State Records Administration.

The Adjutant General of New Mexico utilizes the routine military orders system for issuing directives and instructions to units, commanders and individuals of the New Mexico Army National Guard, and in connections with the operation of the Adjutant General Department. These orders are published according to the style and format utilized by the US Army and the Department has adopted the appropriate regulations of that service for guidance. The Personnel Division receives requests for, processes, publishes, consolidates and distributes these written orders.

The Publications and Reproduction Section received from federal, state, and commercial sources approximately 25 tons of publications, blank forms and other material pertaining to the administration and training of the New Mexico Army National Guard. This material was distributed as indicated below:

1000 boxes federal publications, for initial distribution to units by separate forms. (Forwarded to units by small breakdown)

180 boxes federal publications for replenishment requisition of blank forms. (Forwarded to units on call)

Miscellaneous forms and public information data - Forwarded to units as required.

In addition to normal office reproduction work which amounted to 2,600 separate distributions of office publications and correspondence (approximately 800,000 copies), AGNM forms are reproduced and the following orders processed:

- General Orders - 39
- Special Orders - 64 (consisting of 2217 paragraphs)
- Letter Orders - 155
- School Orders - 120

Pursuant to authority contained in letter, Chief, National Guard Bureau, subject; Reorganization Authority, Number 89-59, dated 25 June 1959, the New Mexico Army National Guard completed its reorganization to the pentomic concept of the Army on 1 September 1959.

The Adjutant General of New Mexico and his staff spent long and tedious hours preparing and modifying the reorganization plan so as to best benefit all units and individuals within the state, as well as to accomplish the state goal of providing the best National Guard.

The organization, itself, was a monumental task as each and every unit was affected by this reorganization. Units had to be activated, converted, consolidated, redesignated and/or reorganized. Orders had to be issued on reassignment of all officers and enlisted men, and personnel records had to be posted. However, the reorganization will be recorded as an outstanding milestone in the history of the National Guard and provides the State of New Mexico with the potential which it is obligated to produce.

In planning the implementation of the new Combat Arms Regimental System, a careful historical analysis was made of all New Mexico Army National Guard combat arms units back to the days of the Territorial Militia for the purpose of establishing a listing of units. Upon completion of this analysis, new unit titles were selected in many cases, and approved by the National Guard Bureau, as shown in Chart 6, this section. Organization and separate units determined excess to the new troop allotment were consolidated and/or converted and consolidated for the retention of unit history and personnel.

Attachment of units for administration and command purposes is shown in Chart 7, this section.

OPERATIONS AND TRAINING

1. The mission of the New Mexico Army National Guard is to provide for the Army adequately organized, trained and equipped units which in case of national emergency or war, will be available for mobilization in accordance with the deployment schedules and capable of participating in combat operations in support of the Army's war plan. The mission may include the defense of critical areas of the United States against attack and to be so trained that a civil defense mission may be accomplished.

2. The responsibility for the accomplishment of the above mission is delegated to the Adjutant General by the Governor of New Mexico.

3. The training objectives are to train individuals of the NMGARNG in the fundamentals of combat readiness and to train units to the maximum degree of proficiency, so that a minimum of post mobilization training will be required to their being considered combat ready.

4. The training of the New Mexico National Guard falls into four general categories:

- a. Armory Drills
- b. Weekend or Multiple Drills
- c. Annual active duty for training
- d. Schools

5. The armory drills or inactive duty for training consists of twenty-four (24) two hour drills and twelve (12) multiple drills, for a total of one hundred forty-four (144) hours of training. This type of training is conducted at home stations and includes classroom and Gun Park training on a unit level. The subjects for this training is prescribed in the appropriate Army Training Programs.

6. Annual Armory Inspections.

a. The high point of armory training is the annual Inspector General visit, when the Inspectors General of the Active Army test the proficiency of the unit in such fields as:

- (1) Adherence to prescribed army training policies and directives.
- (2) Alert and mobilization readiness.
- (3) Supply administration and maintenance of equipment.
- (4) Care and maintenance of weapons, armories, records, vehicles and equipment.
- (5) Personal knowledge, morale, and appearance of individuals.
- (6) Leadership qualities of officers and noncommissioned officers.
- (7) Quality and quantity of assigned specialists.

b. The fifty-one (51) units (Battery and Company sized and the Detachments inspected during the months of April and May were graded as follows:

Superior - 1
 Excellent - 19
 Satisfactory - 30
 Unsatisfactory - 1
 *See Chart I

7. Multiple drills are held to give the unit an opportunity to conduct small unit operations, conduct small arms firing, conduct tactical field exercises, rifle matches, bivouacs, security, and on the job training for each individual in the unit.

8. Annual Active Duty for Training (Two weeks field training).

a. The New Mexico Army National Guard, each year, during the month of August conducts annual field training at Fort Bliss, Texas. During the training year 1959-1960, units of the 111th Arty Brigade spent ten (10) days on the firing ranges in the Fort Bliss Area.

This encampment included firing of all weapons on the antiaircraft ranges. This ANACDUTRA affords boards composed of Active Army officers an opportunity to test, analyze, and measure the combat efficiency of the Army National Guard. Results of these tests are disseminated to the Department of Defense, Continental Army Command, Army Commanders, and the Adjutant General for information relative to selection of units to round out the ready forces for commitment to action in support of approved Army war plans. There were some 3000 Guardsmen that attended ANACDUTRA CY 59.

b. General comment of the inspecting teams termed the camp as one of the most successful ever conducted by the New Mexico National Guard. There were fifty (50) excellent and one (1) Superior ratings.

See Chart II.

9. Service Schools.

a. The educational standards required by the National Guard Bureau and other commands of the Army, make the school program the most active year-round activity. During the 1959-1960 training year, thirty-five (35) Officers and one hundred ten (110) enlisted men furthered their education by attending service schools. (See Chart III). These service schools conducted by the Active Army ranged in length from two (2) months to nine (9) months duration.

b. The RFA Six Months Training Program continues to be the most important phase of training for new recruits. During the year 1959-1960 the input of six hundred twenty three (623) new trainees constitutes a record for this program. (See Chart IV). The outstanding feature of this program is that it relieves the unit commander of the need for conducting basic training of new men. When an enlisted man returns to the unit, he is not only trained as a basic soldier, but is advanced individually trained. With this training, he can fit into the unit training program as a trained individual.

c. The Extension Correspondence Courses of instruction is another phase of the school system. During the training year, sixty-six (66) members of the NMARNG participated in this program. This is an accomplishment, considering that

this type of schooling is done by the individual in his spare time. This is indicative of the spirit of the men in the guard.

d. During the training year, two Army Area Schools were conducted for the technician personnel, both administrative and maintenance. These courses were of forty (40) hour duration. In the administrative school, Administration was the only subject, primarily this was a review of new policies.

10. New Mexico Army National Guard Military Academy.

a. The New Mexico Army National Guard Military Academy was established as directed by General Orders Number 8, Office of the Adjutant General, dated 29 April 1958. National Guard Regulation Number 46, authorizes the establishment of, and outlines the operation of, a state operated Officer Candidate School.

b. The purpose of the NMARNGMA is to select outstanding, enlisted personnel of the New Mexico National Guard, and develop within them, the characteristics of leadership, command ability, and tactical proficiency that is required of a commissioned officer.

c. Operation of this Academy gives the Adjutant General far greater control over the selection of officers to fill existing and future vacancies in the officer ranks of the New Mexico National Guard.

d. The following outlines the number of officers that have been commissioned through this program:

<u>CLASS NR</u>	<u>GRADUATED</u>	<u>NR OF GRADUATES</u>
1-59	15 Aug 1959	20
2-60	13 Aug 1960	17
3-61	18 Aug 1961	18*

*Estimated

e. The program of instruction is written, printed, and distributed to the Forty-six existing state academies by the United States Army Infantry School, Fort Benning, Georgia. The instruction follows the same line as that given at the regular Army Officer Candidate School at Fort Benning, placing emphasis on leadership, tactics and weapons.

f. Candidates (applicants) for each class, are ordered to appear before the Academic Board in July of each year. The Board convenes at the permanent home of the Academy, Bruns Hospital Area. Those candidates that are accepted are appointed as Cadets, and attached to the Academy for training. The course of instruction starts at summer camp. After this two week training period, the Cadets meet at the Academy in Santa Fe, on the third weekend of each month. During these weekend drills, the cadets receive from eleven (11) to thirteen (13) hours of instruction. The Cadets receive a total of two hundred twenty-five (225) hours of instruction during the entire course.

g. During the year, the Cadets are constantly observed and evaluated on their progress, both academically and in the development of leadership potential.

h. Upon successful completion of the course, the graduates are appointed as Second Lieutenants, New Mexico Army National Guard.

i. Of the fifty Cadets that have entered the program, thirty-seven have graduated and been commissioned. This amounts to 74%, which is higher than the national average. The high graduating percentage can be attributed to the percentage of college students and graduated that are entering the program and the fact that the majority of the cadets have had at least two years active or National Guard service, and the rigid screening process by the Academic Board.

11. Army Aviation.

a. Army National Guard Aviation in New Mexico is progressing very slowly. With the reorganization of the NMGARNG in September 1959, an Aviation Augmentation to Headquarters, 111th Arty Brigade (AD) was forwarded with TO&E of three (3) aviators, two (2) rotors and one (1) fixed wing - eight (8) enlisted men. An aviation augmentation was also approved for the 200th Arty Group (AD) but no additional TO&E positions were allotted. There is also one TO&E aviator position on the State Staff.

b. The New Mexico Army National Guard now has three (3) pilots on flight status and all three (3) are dual qualified, with one L-20 utility aircraft and one H-23 C reconnaissance helicopter assigned at present with the TO&E allowance of two L-19 observation aircraft and one more reconnaissance helicopter due to be assigned to the state when they become available.

c. There is one aviator on full time duty at the Office of the Adjutant General who does most of the flying for army aviation during the year. Administrative missions of all types are flown, such as supply and inventory for the USP&FO, inspections of the construction program, Inspections with State Maintenance Shop personnel, and many liaison visits with Adjutant General Staff Officers to units throughout the state and Fourth Army personnel at Fort Bliss, Texas and Fort Sam Houston, Texas.

d. Missions of other type were also flown during the year. Among these were:

(1) In January, 1960, the Office of the Adjutant General was contacted at 0900 hours, to help find two young girls who had gone for a drive in the mountains on the previous day and had failed to return that evening. A search mission by L20 aircraft found the girls, cold and hungry, with their car stuck in the mud, at 1030 hours that same morning.

(2) In February, 1960, a severe snow storm covered the Eastern half of the State where many sheep and cattle are pastured. During a two week period, many air missions of search for these animals were made, hay drops for feeding them were performed, and inspections of the ability for survival were flown, in support of the ground forces who were feeding the animals by truck.

(3) Several search missions for downed aircraft were flown in support of the Civil Air Patrol, Federal Administration Agency and the U. S. Air Force.

e. The maintenance situation for NMARNG Army Aviation still leaves much to be desired. At present the only facility is a quonset type building twenty feet (20') by twenty-four feet (24'), located at the Santa Fe Municipal Airport. An aircraft parking area has been established and covered with gravel near this building. The building is used to house all aviation equipment, parts, etc., and serves as operations office. It is anticipated that much needed improvements will be made in the next fiscal year. Two mechanics are on duty at all times, one of them is helicopter qualified. With no hangar facilities, it is very difficult to perform anything but first or second echelon maintenance. Therefore, New Mexico is supported by the Holloman AFB Army Aviation Maintenance Shop for most third or fourth echelon maintenance. Fort Bliss Parachute Shop supports the NMARNG aviation in the complete maintenance of the parachutes issued.

f. The school situation for aviation is very good. Two pilots completed helicopter training this fiscal year. One mechanic completed Rotary Wing Mechanic School and one mechanic completed the Aviation Mechanic Entrance school. In the next fiscal year, two pilots are scheduled for Instrument School, one is entering the Fixed Wing School, all phases, and two are scheduled for the Rotary Wing Course. One mechanic is scheduled for the Advanced Fixed Wing Course.

ARMY AVIATION FLYING TIME

380 Hours - Actual Flying Time
 Time Aircraft was out of operation for maintenance.
 Organizational Maintenance - 42 Days
 Field Maintenance - 34 Days
 Depot Maintenance - 34 Days

12. National and State Rifle Matches.

a. Each year the Adjutant General conducts a State Rifle Match. The year 1959 matches were conducted in May, and from these shooters the Camp Perry Team was selected. The high shooters selected from the State March are as follows:

Lt Colonel Paul Wright
 1st Lt Wade R. Hedgecoke
 CWO Lowell Smith
 M/Sgt James Middleton
 M/Sgt Richard Jackson
 SFC Harley L. Parks
 S/Sgt Carroll LaRue
 SP4 G. M. Speer
 SP2 George Duggins
 SP5 Robert L Pomerank
 PFC Emilio A Pena
 Rct. Carl A Schultz

b. The members of the New Mexico Army National Guard Camp Perry team selected from the high shooters of the State match participated in the Perry matches during the period 5 thru 29 August 1959. Although the team did

not place in the top ten, members of the team won several medals for performance. Lt Colonel Paul Wright won the Distinguished Marksmanship Medal.

Members of the team were as follows:

Lt Colonel Paul Wright - Captain
1st Lt Wade R. Hedgecoke - Ass't Captain
M/Sgt James Middleton
SFC Harley L. Parks
SP5 George Duggins
SP5 Robert L Pomerank
SP4 Garland M. Speer
PFC Emilo A Pena

13. Alerts. On 22 February 1960, at 0330 hours the New Mexico Army National Guard was alerted by the Adjutant General. The purpose of this alert was a test of the alert and mobilization Plans of each unit in the State. All units were alerted by 0430 and by 0530 hours, 84% of the officers and men were present for duty at their home armories. This is an accomplishment that was possible only due to the planning at the unit level, also the alert established that in case of a nuclear attack, each unit could be on duty within a two hour period.

14. Rifle Ranges. The state range plan includes provisions for establishing four new ranges, the funds for these ranges are 100% Federal. The estimated cost would be approximately \$48,000. The proposed sites are Tucumcari, Carlsbad, Deming, and Albuquerque. The reason for construction at these sites is the availability of land that is suitable for weekend training.

REPORT OF MAINTENANCE ACTIVITIES
New Mexico Army National Guard

STATE MAINTENANCE OFFICER

1. The State Maintenance Officer has technical responsibility on all matters pertaining to maintenance of supplies and equipment in the State. He is a commissioned officer of the NMARNG occupying a position on the Staff of the State Adjutant General. He is the technical advisor to the Adjutant General, United States Property and Fiscal Officer and organizational commanders on maintenance of supplies and equipment. He has the technical responsibility for the establishment and operation of the State-wide maintenance program. He keeps current on Depot maintenance requirements and assistance available through Liaison Representatives of the various Tech Services. He is responsible for the efficient operation of the Combined Field Maintenance Shop through the CFMS Superintendent. He renders technical advice and assistance to the **Organizational Maintenance Shops**.

2. The State Maintenance Facility and Support Plan, AGONM Regulation Nr. 4-1 is his established Maintenance Doctrine. Information and instructions of a technical nature not covered in the afore-mentioned plan are disseminated in Maintenance Letters.

3. During the reporting period the SMO has accomplished or has participated in the following projects: Command Maintenance Inspection, Quarterly Inspections of Organizational Maintenance Shops and Administrative Storage Compound Sites, arranged for Spot Check Inspection of Army National Guard units at Annual Field Training by Fourth U. S. Army, performed follow-up inspections of unsatisfactory grades resulting from the Command Maintenance Inspection and the Spot Check Inspection, coordinated and established firing ranges and unit areas for Annual Field Training at Ft Bliss, screened and obtained excess property at Ft Bliss for use of Organizational Maintenance Shops worked with Technician Program Coordinator on authorization and distribution of maintenance technicians, worked with the USP&FO on redistribution of equipment resulting from reorganization, arranged for rebuild of all Signal items in the State with Ft Worth Signal Depot, instructed in OMS Chief School, attended National Guard Fourth U. S. Army Area Conference at New Orleans, Fourth U. S. Army Area Maintenance Conference at Ft Sam Houston, and various Pre-camp Conferences at Ft Bliss.

COMBINED FIELD MAINTENANCE SHOP

1. The Combined Field Maintenance Shop (CFMS) is located in Building T-110, Kirtland Air Force Base, Albuquerque, New Mexico and is under the supervision of the CFMS Superintendent. The mission of this field maintenance facility is to: Repair assemblies, components and end items for return to using organizations, service stock or USP&FO warehouse stock, provide technical assistance, mobile repair crews and repair parts to lower echelons where necessary, furnish contact repair team support of organizational maintenance shops and units, provide inspection teams, evacuate unserviceable materiel requiring maintenance beyond the authorized scope or capabilities of the CFMS.

2. The CFMS furnished inspector personnel for the conduct of the Command Maintenance Inspection. Contact Teams from the CFMS visit all units of the New Mexico Army National Guard at least once a year to inspect equipment and make necessary repairs at the using organization.

3. The equipment maintained by the CFMS includes 1,470 wheeled vehicles and trailers, 30 tracked vehicles and materiel handling equipment, 426 generators and power units, 138 artillery pieces, 7,429 small arms and components, 620 instruments, 99 radar and fire control systems, 2,215 radios and telephones, one light aircraft and one helicopter.

4. To accomplish the field maintenance support of the above equipment this maintenance organization is operated with a force of fifty (50) employees broken down into sections as follows: Shop Office - 6, Automotive Section - 18, Armament Section - 6, Electronics Section - 12, Service Section - 6, and Army Aviation Maintenance Section - 2.

5. During the reporting period the following items were processed by the CFMS with parts cost as indicated:

<u>CATEGORY</u>	<u>JOBS</u>	<u>PARTS COST</u>
Vehicles	1,294	\$32,956.52
Artillery	214	6,040.17
Small Arms	3,435	794.07
Fire Control & Instruments	267	9,599.91
Signal	1,993	900.86
Engineer	474	4,476.75
Rebuild	488	2,726.76
Aircraft	1,627 labor hours	<u>1,406.45</u>

Total Parts Cost \$58,901.49

The above production was accomplished in 55,040 direct labor hours.

6. CFMS personnel accomplished the following miscellaneous projects: The establishment of a State-wide Training and Administrative Radio Net to include the conditioning and furnishing radio sets and the installation of telephone poles and antennas at eleven (11) stations, the complete fabrication and installation of air condition ducts in sixteen (16) fire control systems, installed sixteen (16) generators on 1½ Ton Stake and Platform vehicles, helped prepare equipment for administrative storage at four (4) OMS & ASC's, demilitarized 90mm guns given to various communities, borescoped and exercised 73 artillery pieces, accomplished Engineer 5-73 Program to include 317 Engineer items, performed acceptance check on M-42 tracked vehicles delivered to 1st Battalion, evacuated M-42s to Ft Bliss for Field Training, and returned M-42s to home stations, picked up M-33 FCS spare parts in Missouri, Louisiana, and Florida, picked up two (2) M-33 FCS from Missouri, picked up four (4) 45 KW Cummins Diesel Generators from Missouri, processed and completely rebuilt 32 M-55 machine gun mounts for issue to 90mm Bns, delivered sixteen M-55s to units, performed technical inspection of equipment transferred and declared excess resulting from reorganization, performed numerous modification work orders, graded road for aircraft section in Santa Fe, modified stencil sets, directed re-stencil program and re-stenciled all equipment going through the CFMS, evacuated 358 Signal items to Ft Worth Signal Depot for rebuild and picked them up, and delivered and repaired equipment used for 82ng Airborne Show at Santa Fe.

7. In addition to the above, maintenance personnel participated in the following projects with State Pay or Equivalent Training from their units: Coordinated with New Mexico State Police and delivered feed to snow-bound livestock in Vaughn, Duran, Palma, Encino, Corona, and Cedarvale, furnished gun salute squads for Governor's Day (Air Guard) and Armed Forces Day at Kirtland Air Force Base, furnished display of equipment and instructors for Armed Forces Day at Kirtland Air Force Base and the 350th Anniversary at Santa Fe, and constructed 22 unit designation signs for the NMARNG.

8. To further the technical knowledge of the men on the equipment being supported, 32 full time technicians were in attendance at Service Schools or On The Job Training at Army Installations for a total of 216 weeks during the reporting period.

9. The following schools were conducted at the Combined Field Maintenance Shop: Organizational Maintenance Technicians School, 45 KW Diesel Generator School, OMS Chief School, M-42A1 School, and Field Maintenance Signal School.

10. Schools were conducted at the request of units as follows: Engineer School for 5th Battalion, and a MPQ-1 School for the 200th Arty Group. One man from the 4th Battalion performed on the job training on Engineer equipment at the CFMS.

ORGANIZATIONAL MAINTENANCE SHOPS AND ADMINISTRATIVE STORAGE COMPOUND SITES

1. The mission of the OMS and ASC Sites is as follows: The performance of all organizational maintenance beyond the capabilities of using personnel, to maintain an administrative storage compound for unit vehicles and materiel not currently required for training, to maintain minimum stocks of fast-moving parts and supplies, to furnish a base for the operation of field maintenance contact repair and inspection teams, to furnish contact teams for the performance of organizational maintenance and inspections when this procedure would be more economical than scheduling equipment into the OMS, and to evacuate equipment to the CFMS.

2. The plan for the establishment of seven (7) OMS and ASCs for the New Mexico Army National Guard was approved by the National Guard Bureau. Orders were published on four (4) organizational maintenance facilities and were placed in operation. They were: 1st AW Bn (SP) 200th Arty at Artesia, 2nd Gun Bn (90mm) 200th Arty at Deming, 4th Gun Bn (90mm), 200th Arty at Santa Fe, and 515th Ordnance Bn at Albuquerque.

3. A definite date of 1 September 1960 was established for the remaining three (3) installations to be placed in operation. They are as follows: 3rd Gun Bn (90mm) at Belen, 5th Gun Bn (90mm) at Roswell, and the 6th Gun Bn (Skysweeper) at Tucumcari.

4. Steps were taken to obtain Federal funds from the National Guard Bureau for the purpose of rehabilitating existing facilities and the construction of new facilities where needed.

5. Standing Operating Procedures for these installations are outlined in the State Maintenance Facility and Support Plan, AGONM Reg Nr. 4-1, dated 1 January 1960 and approved by the Chief, National Guard Bureau.

6. Maintenance Technician assignments at organizational maintenance facilities are governed by the density of assigned equipment as outlined by the National Guard Bureau. There are 53 Organizational Maintenance Technicians authorized in the State at the present time. When all seven (7) OMS & ASCs are established, the technician breakdown will be as follows: OMS #1 Artesia - 6, OMS #2 Deming - 7, OMS #3 Belen - 8, OMS #4 Santa Fe - 8, OMS #5 Roswell - 9, OMS #6 Tucumcari - 9, and OMS #7 Albuquerque - 6.

IG INSPECTION OF MAINTENANCE DIVISION

1. The annual Inspectors General Inspection was conducted at the State Maintenance Office and the Combined Field Maintenance Shop 5 - 6 May 1960. The rating received was "EXCELLENT."

SPOT CHECK INSPECTIONS OF OMS & ASC SITES

1. The Quarterly Spot Check Inspections of established OMS & ASC Sites performed by the State Maintenance Officer resulted in the following yearly average rating:

<u>OMS #</u>	<u>LOCATION</u>	<u>RATING</u>
1	Artesia	84% GOOD
2	Deming	95% SUPERIOR
4	Santa Fe	82% GOOD
7	Albuquerque	89% EXCELLENT

ANNUAL SPOT CHECK INSPECTION OF NMARNG UNITS

1. The Annual Spot Check Inspection of Units of the NMARNG was performed by Fourth U. S. Army at Ft Bliss, Texas, 19, 20, and 21 August 1959, resulting in the following grade totals by Tech Service:

<u>TECH SERVICE</u>	<u>SUP</u>	<u>EX</u>	<u>GOOD</u>	<u>FAIR</u>	<u>UNSAT</u>
Engineer	10	7	11	8	9
Ordnance	132	21	0	3	1
Signal	21	10	0	0	0
Quartermaster	90	44	18	10	2

COMMAND MAINTENANCE INSPECTION

1. During the past year, the responsibility for the conduct of the Annual Command Maintenance Inspection of all New Mexico Army National Guard Units and Maintenance Facilities has been delegated to the State Maintenance Officer. An itinerary was published which established dates 4 January 1960 through 3 March 1960 for the inspection. An inspection team under the direction of the SMO and composed of 12 members from the Combined Field Maintenance Shop and one (1) member from the USP&FO conducted the inspection as scheduled. The results of the inspection reflect the following grade totals by Tech Service:

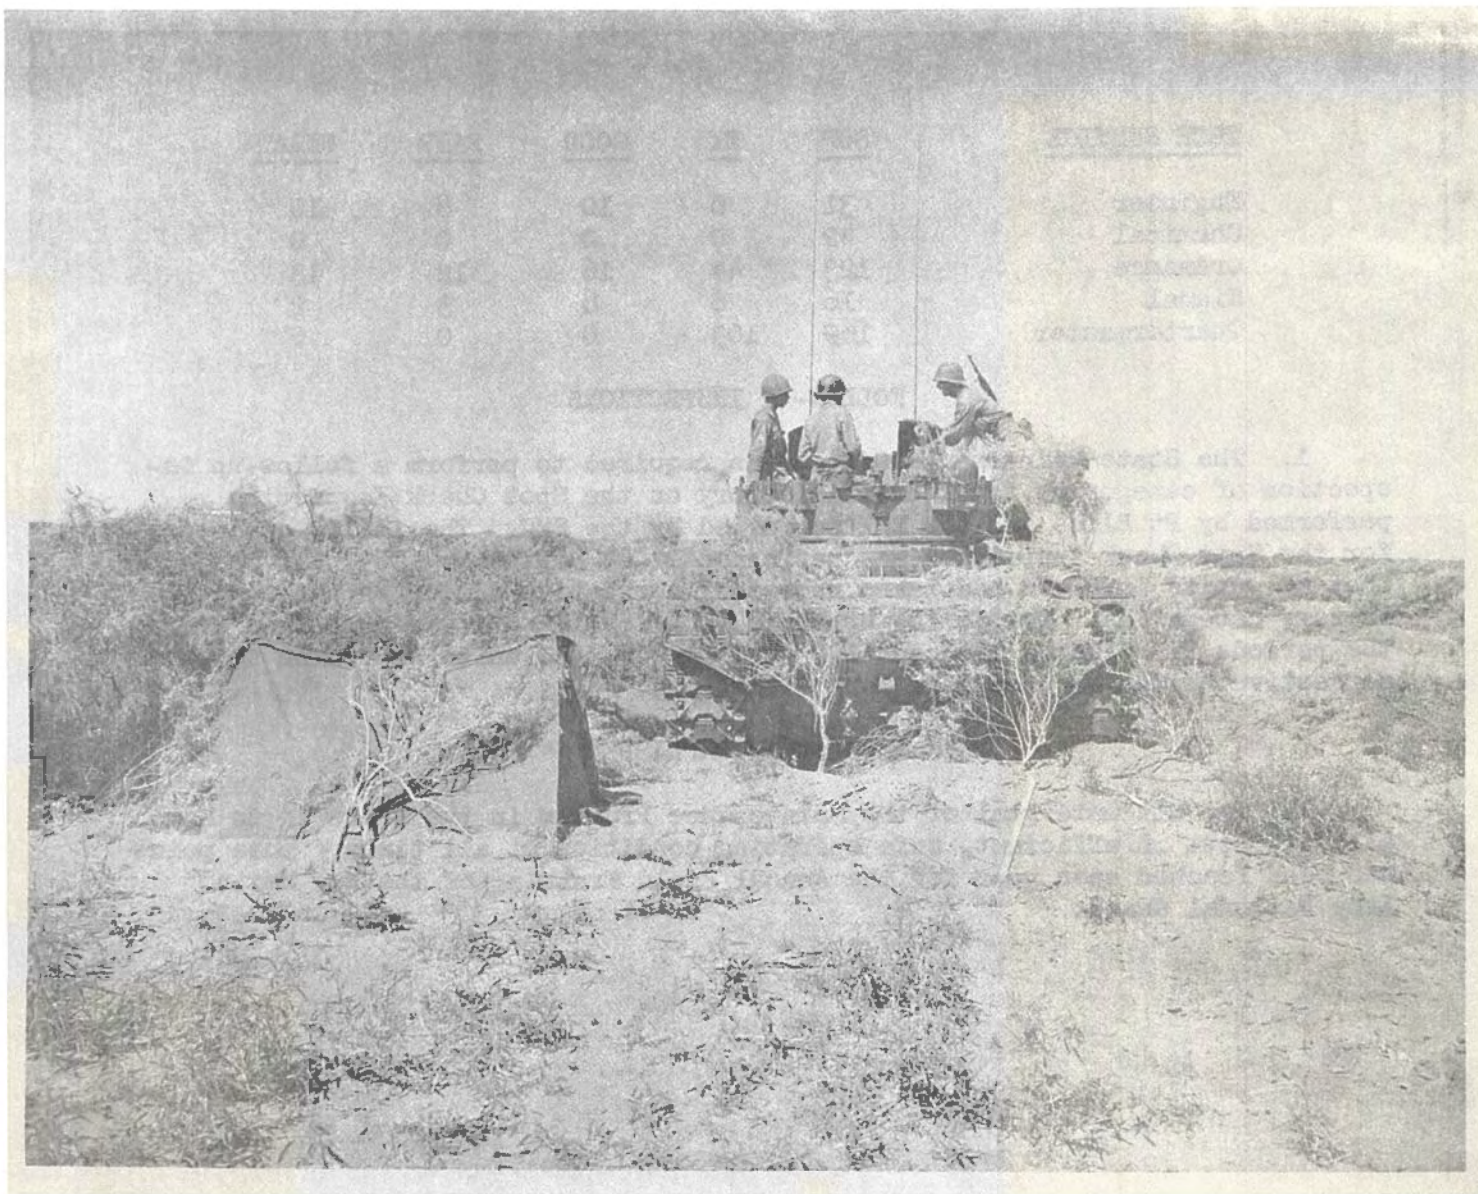

<u>TECH SERVICE</u>	<u>SUP</u>	<u>EX</u>	<u>GOOD</u>	<u>FAIR</u>	<u>UNSAT</u>
Engineer	31	6	10	8	10
Chemical	42	0	0	0	0
Ordnance	123	44	16	12	13
Signal	16	6	8	3	2
Quartermaster	169	103	0	0	0

FOLLOW-UP INSPECTIONS

1. The State Maintenance Officer is required to perform a follow-up inspection of categories found unsatisfactory on the Spot Check Inspection performed by Ft Bliss and the CMI performed by the SMO. The follow-up inspection for the Spot Check Inspection was performed 14-24 September 1959. It was noted that all units involved had taken necessary corrective action on the unsatisfactory categories. The follow-up inspection for the CMI was performed during the periods 21-25 March 1960 and 1-7 April 1960. All units had taken necessary corrective action on unsatisfactory categories.

MISSION ACCOMPLISHED

1. The ultimate goal of the Maintenance Program in the State is to have all equipment in efficient, safe operating condition at all times. This point has been reached each year for the Annual Field Training of the New Mexico Army National Guard.

Members of 1st AW BN (SP) participating in maneuvers, Ft Bliss, Texas.

Airmen of the 188th FIS, NMANG honored at Governor's Day Review, Albuquerque. From left to right winner of the Squadron Airman of the year, Alc Roger C Bablock, T/Sgt Charles Duray accepting the Adjutant General's Trophy for the Administrative Section, winner of the Aircraft Maintenance Trophy, S/Sgt Dennie V Adkins.

SP Rafael Romero, Roswell at the switchboard of Hq & Hq Btry 200th Arty Group.
Capt Charles Nichols, Roswell, Btry CO, looking on.

U.S. PROPERTY AND FISCAL OFFICER FOR NEW MEXICO

- I. THE U.S. PROPERTY AND FISCAL OFFICER.
- II. MISSION OF THE U.S. PROPERTY AND FISCAL OFFICER.
- III. RESPONSIBLE DIVISIONS OF THE U.S. PROPERTY AND FISCAL OFFICER (ARMY).
 - A. Administrative Division.
 - B. Audit Branch.

 - G. Purchasing and Contracting Branch.
 - H. Transportation Branch.
 - I. Air Force Property Division.
 - J. Air Force Budget and Fiscal Division.
- IV. ARMY ADVISORS.
- V. RESUME.
- VI. APPENDICES.

PART I - THE U.S. PROPERTY AND FISCAL OFFICER.

The U.S. Property and Fiscal Officer is a New Mexico National Guard Officer on active duty. This Officer is accountable for all federal property used by the Army and Air National Guard and all federal funds expended to support the New Mexico Army and Air National Guard. 40 civilian employees are employed for Army and 20 civilian employees are employed for Air. These employees are paid from federal funds.

PART II - MISSION OF THE U.S. PROPERTY AND FISCAL OFFICER.

The mission of the U.S. Property and Fiscal Officer for New Mexico is to equip, supply, and maintain the authorized National Guard Units of the State of New Mexico in behalf of the federal government. He handles all administrative details in connection with the supply of National Guard units, including the maintenance of prescribed forms, and the maintenance of property accounts containing complete records as to receipt and disposition of federal property; thus constituting a record of accountability for all Department of the Army and Air Force property in possession of the National Guard of the State. He also acts as Fiscal Officer, maintaining accounting records for federal funds allotted to the State of New Mexico and procures federal supplies and equipment not available through normal supply channels. The U.S. Property and Fiscal Officer acts as Transportation Officer, handling shipment of property and movement of individuals and troops. He is responsible for the maintenance, repair and authorized alterations to buildings, grounds and utilities, and for any construction authorized from federal funds. The U.S. Property and Fiscal Officer also is charged with the responsibility of maintaining in a combat serviceable condition all supplies and equipment issued to the New Mexico National Guard.

To accomplish this mission, the Office of the U.S. Property and Fiscal Officer is divided into several divisions and branches, each under the supervision of a division or branch chief who is responsible for the functions of his division. The various divisions are as follows:

- Administrative Division.
- Audit Branch.
- Army Property Division.
- Warehouse Branch.
- Army Budget and Fiscal Division.
- Financial Inventory Accounting Branch.
- Purchasing and Contracting Branch.
- Transportation Branch.
- Air Force Property Division.
- Air Force Budget and Fiscal Division.

The annual inspection of the USP&FO for New Mexico for Fiscal Year 1960 was conducted by representatives of the Inspector General, Headquarters Fourth U.S. Army, 1 May 1960 through 6 May 1960. An overall rating of Excellent was given as a result of this inspection.

An internal audit of the USP&FO for New Mexico was completed by the United States Army Audit Agency on 15 June 1960. This audit covered the period 1 October 1958 to 31 May 1960. No major deficiencies were disclosed by the audit.

PART III - RESPONSIBLE DIVISIONS OF THE U.S. PROPERTY AND FISCAL OFFICER.

A. Administrative Division.

This division maintains control of all recurring reports required by higher headquarters to insure timely and adequate submission. Instructions, guides and procedures are published for distribution to units of the New Mexico National Guard and the divisions and branches of the USP&FO for New Mexico. All reports to the National Guard Bureau are reviewed by this division.

All Standing Operating Procedures published by the Office of the U.S. Property and Fiscal Officer were reviewed during the period covered by this report and revised or republished where necessary.

Representatives of the Office of the U.S. Property and Fiscal Officer attended the following conferences during the period covered by this report:

NGB 4th Army Area Conference, New Orleans, Louisiana.
Pueblo Ordnance Depot Conference, Pueblo, Colorado.
Signal Conference, Fort Worth, Texas.
Pre-Camp Conference, Fort Bliss, Texas.

B. Audit Branch.

During the period covered by this report, the Audit Branch was responsible for conducting annual property audits of all Army National Guard units, special audits when required due to transfers or change of command, audits of Army Advisor Accounts and audits of special accounts under Table of Allowance 130, New Mexico. Seven (7) new accounts were activated:

The 211 Ord Det (CC), M-18, 292nd Ord Det (CC), M23, 110th Signal Intell Off Section, M-37, 391st Ord Det (CD), M-45, 390th Ord Det (CD), M-12 and the 127th Labor Supv Det, M101.

The Audit staff of two field auditors performed audits and inventories on all Memorandum Receipt Accounts from the Office of the U.S. Property and Fiscal Officer, which resulted in thirty-nine (39) annual audits and inventories and twenty-three (23) change of command audits and inventories. Also, the annual inventory of property in the U.S. Property and Fiscal Office Warehouse was made.

Additional duties performed by the Audit Division included the receipt of M-42 Guns, Self-Propelled, Full Track, Twin, 40 mm and associated property from Depots and issue of this property to four batteries of the 1st AW Bn.

The Auditors also supervised lateral transfer of property between units resulting from reorganization in September of 1959.

C. Army Property Division.

The Army Property Division, in addition to continuing its direct support, supply and property accounting functions to New Mexico Army National Guard units during the period covered by this report, has undergone a number of internal changes necessitated by reforms in funding for supplies and by new accounting procedures imposed by the Department of the Army and the National Guard Bureau. The primary aim in introducing these changes has been the establishment of effective management controls.

During the period September-December 1957, Financial Inventory Accounting went into effect. This system provided means of developing budget requirements, exercising control over spending, and reviewing and analyzing our progress. This is accomplished by giving a dollar value to all inventories and inventory transactions, in addition to item accounting procedures formerly used exclusively.

In September 1959, the reorganization of the New Mexico Army National Guard was begun. This involved the deactivation of the Headquarters and Headquarters Battery, 515th AAA Group, 108th and 109th RCAT Dets, the 502nd FA Bn and the Medical Detachments of all Battalions.

Some units were redesignated from Arty to Ordnance and some firing batteries of 90mm were redesignated to Headquarters Batteries. A Battalion of towed 40 mm guns was redesignated as SP and equipped with the M42 twin 40mm gun mounted on a tracked carriage. A few completely new type of units were activated, creating a demand for new type equipment. Funds from the National Guard Bureau were not sufficient to completely equip the units in the reorganization program. This created the problem for commanders to determine the most essential items needed to meet the training program, within available funding.

A lateral transfer of Major Items became necessary due to redesignation of units. The greater part of this was accomplished at Fort Bliss, Texas during the 1959 field training period. The smaller items of equipment requiring lateral transfer, were effected after the units returned to their home station.

A Self Service Supply Center was established for handling expendable maintenance and repair parts, office supplies and hand tools. Issues are made on a mail order basis to out-of-town units, and over the counter to local units. Units are given a monetary credit each calendar quarter, and supplies issued against this allowance. This type of issue is designed to speed up issue processes, eliminate delaying paper work, get the unit to program their requirements, discourage hoarding and instill and encourage supply economy and discipline.

A truck delivery system known as the "Road-runner Express" operates to effect delivery and pick-up of property. The schedule is arranged so that a unit is visited once each month, thereby speeding up service and supply to the units.

On 1 July 1959 a change in property accounting procedures was required by the National Guard Bureau. This change required a new Stock Record Card to be established for each item for which accountable records are maintained. Also required was the establishment of unit files of all transactions to be used in the audit of unit accounts.

Additional statistical data pertaining to Army Property is included in Appendix "A", this section.

D. Warehouse Branch.

The Warehouse branch receives, stores and issues all property for the New Mexico National Guard. This branch is divided into section; that is, the Bulk Storage Warehouse, Ord Parts and Parts Exchange Warehouse, Store Section and other technical services warehouse.

This branch is responsible for the operation of the "Roadrunner Express". During Fiscal Year 1960, this "Express" traveled approximately 28,332 miles within the State with an estimated 192,000 pounds of materiel delivered to the units. In addition, approximately 150,000 pounds of materiel was shipped from this branch during the reporting period.

There were 1,216 vouchers processed by this department for materiel worn out through fair wear and tear by the units of the New Mexico Army National Guard. This materiel went to Property Disposal Officers in accordance with existing regulations.

A total of 4,800 incoming shipments was recieved, checked and stored during fiscal year 1960. These shipments represent approximately 25,000 line items.

With the establishment of the Self Service Supply Center, installation of shelves and other requirements were met by Warehouse personnel.

All dry cleaning required, such as blankets, for out of town units as well as Warehouse stock was handled by this branch.

During the fall of 1959, a new Green winter uniform was issued to all Army National Guard personnel in this State. Because of the reorganization of units within the National Guard during this period a deadline date for accomplishing this initial issue was set and met. This required the distribution of 3,260 complete uniforms.

E. Army Budget and Fiscal Division.

This Division has the responsibility for controlling all Federal funds allotted this State by the National Guard Bureau, Washington, D. C., for support of the New Mexico National Guard, by maintaining necessary accounting records and processing various vouchers for payment.

During the Fiscal Year 1960, the Budget and Fiscal Division administered the following appropriations:

- a. 2102020 - Operations and Maintenance, Army.
- b. 2102060 - Personnel, Army National Guard.
- c. 2102065 - Operations and Maintenance, Army National Guard.
- d. 21X2085 - Military Construction, Army National Guard.
- e. 21M2060 - Merged Accounts prior fiscal years.

The following is the Annual Funding received from Chief, National Guard Bureau per Advice of Allotments during Fiscal Year 1960:

a.	2102020	\$	2,300.00
b.	2102060		636,850.00
	Field Training:		393,260.00
	Other:		<u>243,590.00</u>
c.	2102065		1,546,215.00
	Field Training:		26,784.00
	Other:		<u>1,519,431.00</u>
d.	21X2085		<u>369,492.69</u>
TOTAL FUNDS ISSUED:			2,554,857.69

Approximately 14,000 line postings were made to General Ledgers (Machine postings) in this division. Approximately 10,000 line postings were made to Auxiliary Ledgers (manual postings).

The following records are maintained in this division:

a. Commitments:

Commitments are known future expenses for which funds must be reserved. Only one (1) phase of accounting in the Budget and Fiscal division has a requirement for keeping commitments. These are pay and travel expenses for Army National Guard personnel attending service schools. In Fiscal Year 1960 commitments were kept for \$135,000.00.

b. Obligations:

Obligations are expenses for which orders, requisitions or purchase orders have been issued. Obligations are kept for the current and past Fiscal Year. Obligations outstanding are reconciled monthly from Obligation Files to Ledgers.

c. Disbursements:

Disbursements are posted from actual paid vouchers. Disbursements are kept for the current and past three (3) Fiscal Years. After three years these records are retired.

d. Miscellaneous Ancillary Records:

Miscellaneous ancillary records are maintained for one (1) year and then retired or destroyed.

All Army Regulations in the 35 and 37 Series, Circulars, Pamphlets are relative to Finance and Accounting and therefore effect the division. Other directives relative to Fiscal are published by National Guard Bureau and are strictly adhered to.

The following reports are submitted to Chief, National Guard Bureau as indicated:

- | | | |
|----|---------------|--|
| a. | CSNGB-40 (R3) | - Technician Status (Army) - Monthly. |
| b. | CSCAB-7 (R-2) | - Status of Allotment Report - Monthly. |
| c. | RCS CSNGB-136 | - ARNG Service Contract Costs - Annually. |
| d. | CSNGB-14 | - Estimate of Funds, Field Training, Annual. |
| e. | CSNGB-43 | - Obligations of Funds, Field Training - Annual. |
| f. | Budget 1026 | - Report by Object Class - Annual. |
| g. | FIN-124 | - Personnel Covered by Bond - Annual. |
| h. | ARNGB-(OT)-16 | - Purchase and Issue of Gasoline, Annual. |

Additional fiscal data is included under Appendices "B" and "C", this section.

F. Financial Inventory Accounting Branch.

This branch of the Office of the United States Property and Fiscal Officer was established during September-December 1957 to provide financial accounting data on property transactions for the U.S. Property and Fiscal Officer and the National Guard Bureau.

The purpose of Financial Inventory Accounting is to provide management with a system that reflects its inventory in dollars. To aid management, materiel is grouped into categories of like items within a funding group/code system. An example of this is Quartermaster stock fund, Category 230/1B (P7050) which evaluates all footwear.

A few of the uses for Financial Inventory Accounting by management are as follows:

1. Reports which present the inventory status at any given time and indicate trouble areas where imbalances may exist between the authorized allowance and the actual amount on hand. These reports will give direction as to where corrective action is necessary.
2. Determines the progress made in reducing the operating stock by committing to excess those items no longer needed within the State or no longer authorized within the allowances established by the National Guard Bureau.
3. Determines the rate of turnover and present-future stock position of operating supplies.
4. Determines the progress made in reducing unfilled orders, disposition of surplus property and shipments of unserviceable equipment.

5. Determines the progress made in cutting or increasing procurement to meet changing objectives.
6. Determines stock conditions.
7. Establishes trends of unit returns as compared to issues, indicating thereby the efficiency of units in determining requirements.

Inventory status table is included as Appendix "D", this section, for comparison purposes of changes occurring since the implementation of FIA. This is indicative of continued progress in reducing warehouse inventories to within established authorized allowances.

This branch utilizes the property vouchers of the Army Property Division to convert item transactions into their monetary equivalent. These dollar amounts are then posted to Financial Inventory Accounting Category/Project Group Ledgers and to Warehouse Increase and Decrease Journals.

At the present time, the total value of U.S. Property and Fiscal Officer warehouse inventory held in accountability is \$1,236,130.50. This sum is divided among 326 separate category ledgers of the stock fund and non-stock fund divisions of the seven technical services.

G. Purchasing and Contracting Branch.

This Branch is responsible for the proper and timely handling of purchases and for maintenance of all records, reports and related activities necessary to fulfil the requirements of purchasing and contracting.

During Fiscal Year 1960, 2,816 purchase orders were initiated by this division for a total of \$176,674.00.

H. Transportation Branch.

This branch consists of a Traffic Manager who supervises all movements of personnel and freight by commercial means. In addition, this branch is charged with the responsibility of procuring and distributing credit cards for purchase of gasoline from commercial outlets.

During Fiscal Year 1960, this branch issued 145 Government Bills of Lading with an approximate cost of \$5,664.30. Total tonnage shipped on Government Bills of Lading was 59.011. Equipment received on GBLs amounted to 175.78 tons during this report period.

There were 502 Transportation Requests issued at an approximate cost of \$19,173.59. This was due largely to the six-months' active duty program and the attendance of military personnel at Army Service Schools.

The number of meal tickets issued was 1,372 at an estimated cost of \$2,058.00.

Total number of Government Bills of Lading accomplished was 258.

I. The Assistant U.S. Property and Fiscal Officer (Air Property).
Historical Report, FY 1960.

During this report period, this division of the New Mexico National Guard supported twenty-two F100A's, two F100F's, one C-45 and one C-47. Active number of stock record cards at the commencement of the Fiscal Year amounted to 9,130 and ended the year with only 4,820 active cards. The reduction was due to the cut down in F100 spares stocked in the warehouse. Disposition of F-80 and T-33 spare parts accounted for a portion of this reduction. Required support for the C-45 and C-47 is negligible and supply spares for these aircraft has been almost completely eliminated. The monetary value of the total inventory dropped from \$1,302,380.21 on 1 July to \$672,833.13 on 30 June during this same period. This is a decrease of almost 50 percent.

In February of 1960, the Air Force required this division to take a "wall-to-wall" inventory, as was required of all Air Force bases. A large number of man-hours was consumed during this project count; however, the results gained were most productive. An inventory accuracy of 100% in Category I (Hi-Valu) items was achieved: 99.9% in Category II and 89.7% in Category III (low-cost) items. This type of closed-warehouse inventory will continue to prevail as experience has shown a more accurate inventory than the cycle method previously utilized. Present plans call for the next inventory to be conducted the first week of January 1961.

During Fiscal Year 1960, 10,018 requests were handled from units supported by this group. Transactions totaled 12,574 with Air Force depots, including both requisitions and shipments. A total of 381,926 pounds of serviceable and reparable freight by commercial means was shipped during the same period utilizing 194 Government Bills of Lading. In March of 1960, this installation commenced utilization of the Air Force's Logair System and during the last four months of FY 1960, 474 pieces of freight of 31,352 pounds were shipped via this means. Although a considerable number of pieces were shipped parcel post, there is no record kept to indicate the number.

Local purchases amounted to 622 separate cash purchases and 227 separate purchase orders were prepared for purchases from out-of-town vendors. The latter having a total value of over One Hundred Dollars. Sixty-Six (66) separate purchases were made from the Kirtland AFB retail store.

Engine Status Reports, submitted to the Air Force Engine Manager by the Air Guard's Engine Manager amounted to 391 processed.

A total of 1,039 requisitions for publications were submitted through the Base Supply Section. This section has operated the Publications Distribution System for this installation; however responsibility for this department rests with the Administrative Section. Because of a lack of space elsewhere, this function has been assumed by the Base Supply Section. A required four-hours a day necessitates one person for the requisitioning, receiving and distributing of publications.

The above has been accomplished with a maximum of 17 assigned technicians, which is the standard authorization for ANG base of this size. A number of built-in inefficiencies are worthy of mention. Storage facilities

are in three widely separated locations, thus causing loss of man-hours going to and from locations. In addition, while most incoming freight is delivered to the main warehouse, daily requirements are such that pick-ups at the municipal terminal, the Air Freight terminal and the main receiving warehouse, both at Kirtland Air Force Base, must be made.

During the past year, this division of the New Mexico Guard has operated with a shortage of one employee due to resignation and the 98% limitations on Air Technician strength.

J. Assistant USP&FO for New Mexico (Air Fiscal)

1. Personnel

The Office of the Assistant USP&FO for New Mexico Air (Fiscal) is authorized three technician positions by the NMANG Technician Manning Document.

a. The Accounting Supervisor (Asst USP&FO for New Mexico Air Fiscal) who supervises the accounting section and maintains the allotment ledgers.

b. An Accounting Technician who assists the Accounting Supervisor and maintains the General Ledger and the Expense Ledger.

c. An Accounting Specialist who maintains the Inventory Accounting Monetary Records (IAM).

In addition to the three authorized positions, the position of Finance Specialist was assigned to this section from the Administrative Section. Now under the complete supervision of the Assistant USP&FO for New Mexico Air (Fiscal) the Finance Specialist maintains a bi-weekly payroll for 150 Air Technicians, along with all related records and reports.

An additional position is anticipated for the Office of the Assistant USP&FO for New Mexico Air (Fiscal). The position of Administrative Specialist is to be reassigned from the Administrative Section. Utilization of this position will be for the Military Payroll Functions. This move will complete the centralization of all Accounting and Finance functions under the Office of the Assistant USP&FO for New Mexico Air (Fiscal).

During Fiscal Year 1960 the Office of the Assistant USP&FO for New Mexico Air (Fiscal) has undergone a 66% turnover. During August 1959 the Assistant USP&FO resigned his position. One month later the position of Accounting Specialist was also vacated.

From September 1959 thru December 1959 the Office of the Assistant USP&FO for New Mexico Air (Fiscal) was supervised by the Assistant Base Supply Officer as an extra assignment. During this period the Assistant Base Supply Officer was assisted by one Accounting Specialist.

In October 1959 the Accounting Specialist was designated to the Accounting Technician position and a new Accounting Specialist was appointed. The appointment of a new Accounting Supervisor on 7 December 1959 brought the section strength to 100%.

The Accounting Supervisor was designated as the Assistant USP&FO for New Mexico Air (Fiscal) on 16 May 1960.

2. Organization.

The organization of the Office of the Assistant USP&FO for New Mexico Air (Fiscal) is based on the Air Force integrated accounting concept, as prescribed by AFM 177-01, and for practical purposes is divided into four major areas.

a. General Ledger Accounting.

The general ledger accounting system provides a uniform accounting technique for classifying all financial transactions under the classification of assets, liabilities, expenses, revenue and investment accounts as outlined in AFM 170-7.

b. Expense Accounting.

The expense accounting system provides financial data for the expense accounts in the subsidiary ledgers controlled by the operating expense account of the general ledger.

c. Appropriation and Fund Accounting.

Appropriation accounting provides a system of administrative control which restricts obligations or expenditures against such appropriations or other fund to the amount available therein, and provides financial data required for reports on the status of funds administered. It identifies and accounts for each appropriation through apportionment, transfer, allocation, allotment, commitment, obligation, expenditure, liquidation, reimbursement, or refund, and until lapsed or merged.

d. Inventory Accounting Monetary (IAM).

IAM encompasses all material in stock for use or consumption when under the control of and accounted for by the Base Supply Officer. In summary it provides accounts to reflect material transactions by property subclass and further by inventory classification. IAM accounts provide all the data required for meeting reporting requirements of material management.

3. Funding.

For Fiscal Year 1960 the New Mexico Air National Guard received allotments totaling \$1,146,700.00. Detailed expenditures of these allotments received are summarized in Appendix "E", this section.

Operating Expense.

Fiscal Year 1960 operating expenses including items transferred out for payment from open allotment which are not otherwise reflected by allotments received expenditures total \$2,755,832.00.

Inventory Statement.

The two most outstanding items effecting the Inventory Accounting Monetary area during fiscal year 1960 were (1) the accomplishment of a 100% inventory during February 1960 and (2) a very noticeable decrease in total inventory during June 1960. The following statement will show the effects of these two items:

Beginning Inventory, 1 July 1959.		\$1,302,380.00
<u>Increases</u>		
Receipts - AF Depots	\$4,999,410.00	
Physical Inv Over	509,300.00	
Other Increases	<u>5,606,020.00</u>	
Total Increases		\$11,114,730.00
<u>Decreases</u>		
Shipments - AF Depots	\$5,275,100.00	
Physical Inv Decrease	834,670.00	
Other Decreases	<u>5,634,510.00</u>	
Total Decreases		11,744,280.00
Net Decrease		<u>629,550.00</u>
Ending Inventory, 30 June 1960		<u>\$ 672,830.00</u>

Inventory "In Use"

The total "In Use" equipment on hand as of 30 June 1960 was \$1,453,714.65.

The total value of aircraft on hand as of 30 June 1960: \$25,010,660.00.

PART IV - ARMY ADVISORS.Army Advisors.

There are twenty-three Regular Army Advisors assigned duty with the New Mexico Army National Guard. Federal funds in the amount of \$118,800 were disbursed for salaries during 1959 (approx).

The following is a breakdown of number of advisors by location and salaries within the State:

	<u>NUMBER OF ADVISORS</u>	<u>LOCATION</u>	<u>SALARIES</u>
	4	Santa Fe	\$23,700.00
	9	Albuquerque	45,960.00
	3	Roswell	15,000.00
	2	Las Cruces	10,560.00
	2	Artesia	10,140.00
	2	Clovis	10,560.00
	1	Tucumcari	2,880.00
TOTALS:	<u>23</u>		<u>118,800.00</u>

Travel expenditures within units of the State for Army Advisors amounted to approximately \$10,000.00.

PART V - RESUME

During the period covered by this report a great increase in workload was imposed on the Office of the USP&FO by changes in property accounting procedures and by the reorganization of the New Mexico Army National Guard. In spite of this increased workload, the overall efficiency of the operation has been improved.

It is felt that many areas still can be improved. Policies and procedures are constantly being studied with a view toward more efficient operation. The future goal of the USP&FO is to provide the optimum support to the New Mexico National Guard within funding as provided by Congress and the National Guard Bureau.

APPENDIX "A"

1. Total number of documents processed from 1 July 1959 thru 30 June 60:

- a. Control Numbers: 18,328
- b. Voucher Numbers: 4,080

2. Total number of Accounting Technicians processing property actions:
19

3. Total amount of gasoline consumed for Armory and Field Training amounted to 314,000 gallon from 1 July 1959 thru 30 June 1960.

4. Excess property shipped or transferred to other Government Agencies amounted to \$3,033,332.00.

5. Statements of Charges, Reports of Survey and Reports of Operational Losses processed during this reporting period were as reported below:

a. Statement of Charges:

These are used when property is lost, destroyed or damaged by an individual who admits liability:

Number of Statements of Charges	255
Total amount of Statement of Charges	\$2,971.34

b. Reports of Survey:

These are used when loss, destruction or damage is not directly attributable to a specific individual:

Number of Reports of Survey	12
Total amount of Report of Survey	\$9,015.06

c. Report of Operational Losses:

Each unit is allowed a droppage allowance of \$30.00 per quarter and \$100.00 for the quarter in which field training is performed. This is used to drop items having a value of \$10.00 or less which are lost, destroyed or damaged in normal operation through the fault or neglect of no-one.

Number of Losses	296
Total amount of Losses.	\$4,752.57

d. Droppage on Wire:

Regulations provide special droppage allowance for wire during ANACDUTRA.

Total Feet on Wire	62,936
Total Amount on Wire	\$3,508.09

APPENDIX "A" (cont)

6. Valuation of Federal property in the hands of the units is noted:

Chemical	6,968.94
Engineer	428,525.02
Medical	15,586.95
Ordnance	16,841,620.99
Quartermaster	289,855.40
Signal	1,826,261.78
Transportation	47,224.00
Clothing & Individual Equip.	<u>343,780.00</u>
 TOTAL	 <u>19,799,823.08</u>

A total of fifty-one (51) units in the State have Federal property on Memorandum Receipt.

7. The following listed cities and towns which support National Guard Units in New Mexico Are:

Albuquerque	(16)	Las Vegas	(1)
Alamogordo	(1)	Lovington	(1)
Artesia	(1)	Lordsburg	(1)
Belen	(1)	Hobbs	(1)
Carlsbad	(2)	Portales	(1)
Clayton	(1)	Roswell	(2)
Clovis	(2)	Raton	(1)
Deming	(1)	Socorro	(1)
Espanola	(1)	Santa Fe	(3)
Ft. Sumner	(2)	Springer	(1)
Farmington	(1)	Silver City	(1)
Grants	(1)	Taos	(1)
Gallup	(1)	T or C	(1)
Las Cruces	(2)	Tucumcari	(1)

APPENDIX "B"

1. Funds actually expended during FY 60 were:

a. 1959 Annual Active Duty for Training, Fort Bliss, Texas,
9-23 August 1959 (FY 1960):

Pay and Allowances Officer and EM	\$337,635.61
Subsistence	52,344.50
Petroleum, Oil and Lubricants	21,731.83
Miscellaneous	4,746.77
Travel and Transportation	969.48
TOTAL ANACDUTRA 1959	<u>\$417,428.19</u>

b. Other operating expenditures for operations and training during
FY 60 were as follows:

Pay and Allowances, Service School	135,213.26
Travel, Service School	14,749.34
Pay and Allowances, Hospitalized	382.34
Rations, Weekend assemblies	13,897.94
Officers Uniform Allowances	10,150.00
Individual Equipment (T/A)	38,204.29
Inspections, Command	218.25
TO&E Equipment	93,612.10
Repair Parts and Materials	114,686.47
Contractual Repair of Equipment	7,122.00
POL, Administrative and Armory	38,926.23
Office Supplies (Administrative)	8,347.63
Burial Expenses	600.00
Cleaning and Repair (Clothing)	1,010.70
Packing and Crating Material	1,238.84
Transportation of Equipment and Material	9,923.53
Technician Travel	
Unit Personnel	6,702.71
USP&FO Personnel	7,068.69
Combined Maint	
Shop Personnel	11,040.37
Communications	4,055.37
Technician Pay	1,133,900.00
Organizational	625,000.00
USP&FO	191,000.00
Combined Maint	317,900.00
Service Contracts	12,850.57
OMS Construction and Repair	64,271.35
TOTAL OPERATIONS AND TRAINING	\$1,728,172.08
GRAND TOTAL FIELD TRAINING & OPERATIONS TRAINING	\$2,145,600.27

APPENDIX "B" (cont)

2. Funds Obligated and Disbursed for Physical Examinations and Medical Care (2102020) are as follows:

Officer, Initial Appointment	12.00	
Officer, Other than Initial	103.82	
Enlisted Men, Initial	1,737.83	
Medical Care, Officers and EM	446.35	
TOTAL		2,300.00

3. The following were funds expended during Fiscal Year 1960 for Armory Construction: 21X2085.

1 Unit, Belen, New Mexico	62,695.00	
A&E, Belen, New Mexico	2,558.80	
2 Unit, Roswell, New Mexico	104,902.50

Total Expenditures: \$1,122,790.00

2. ASSETS ANG

Cumulative assets of the New Mexico Air National Guard as reflected by the general ledger on 30 June 1960 are summarized below:

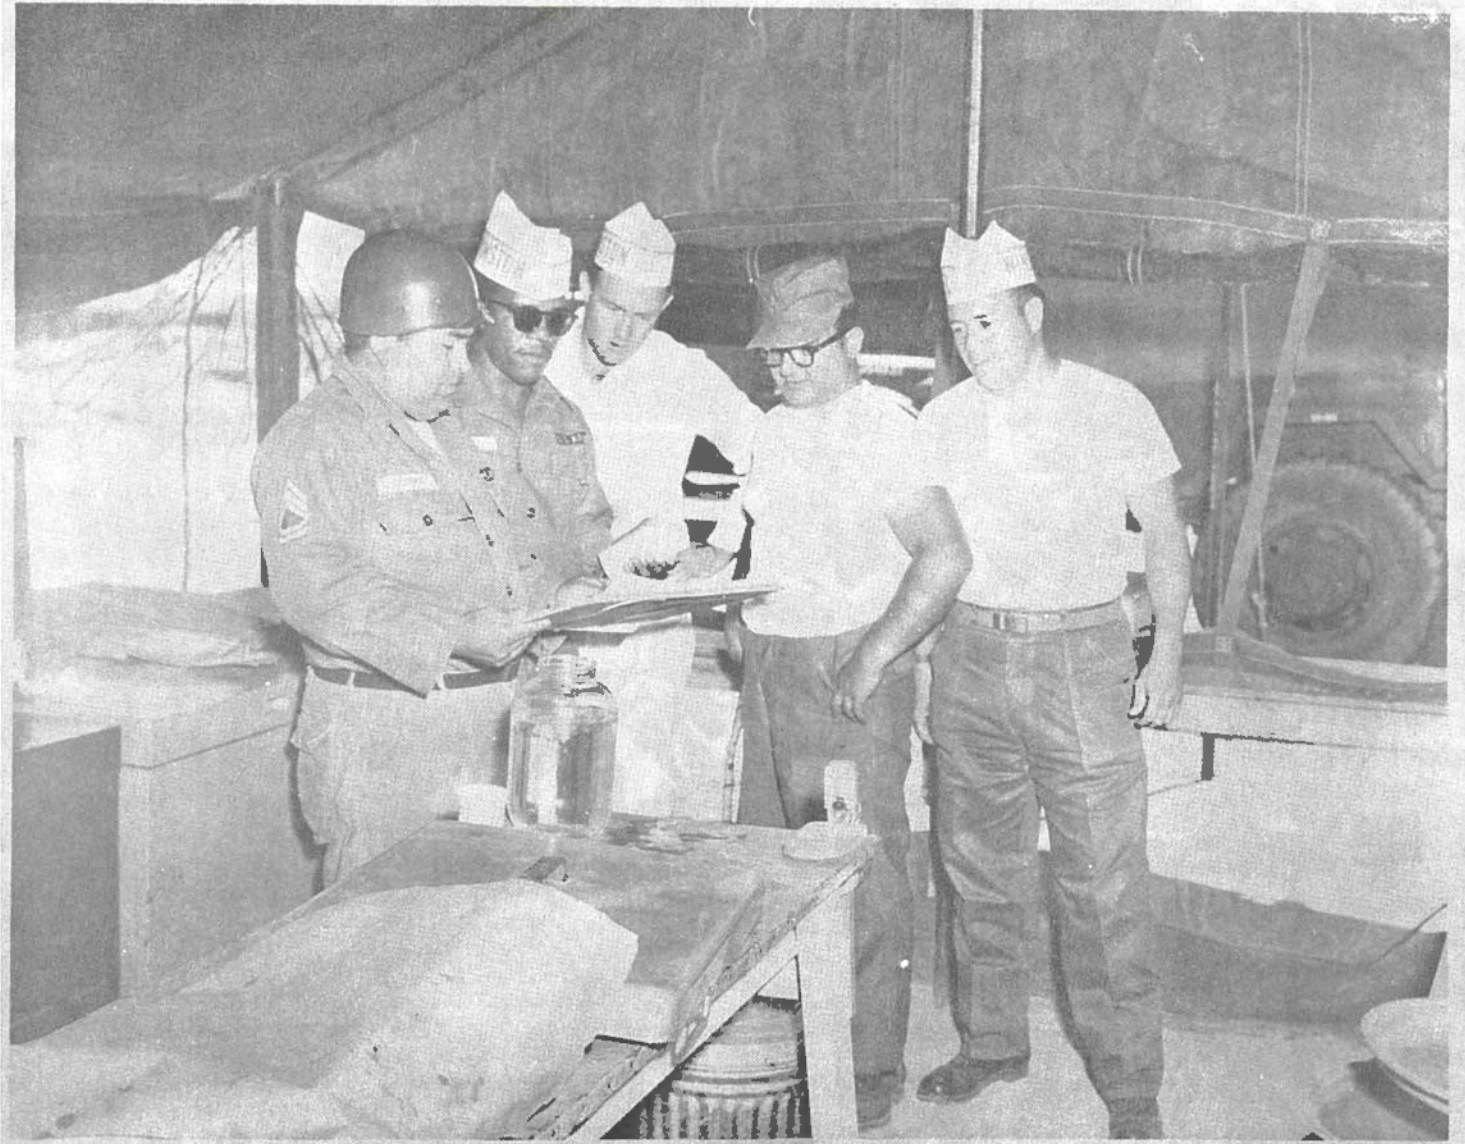

1. Aircraft	25,010,660.00
2. Equipment in Use (UAL)	1,453,710.00
3. Material on Hand (BSO)	672,830.00
4. Buildings and Structures	613,560.00
5. Construction in Progress	24,700.00
6. Other Assets (Aggregate)	289,000.00

Total Assets \$28,064,460.00

APPENDIX "E"

The Operations Center, 111th Arty Brig. Spl Freddy Baca, Pecos, Sgt Donald Lithgow, Santa Fe, Pfc Richard Romero, Santa Fe, Sfc Raymond Chavez, Santa Fe.

The busiest soldiers at New Mexico National Guard's 1960 Summer Encampment at Ft Bliss were the cooks. Shown above are the very efficient cooks of Alamogordo's Btry D, 5th Battalion - SFC R. M. Guerra, SP5 L. Tray, SP5 P. M. Certer, Sgt T. Pappas and Spl Salas.

Leisure time, summer field training, Hueco Firing Range, Ft Bliss, Texas.

INSTALLATIONS SECTION

CONSTRUCTION

1. The 81st Congress of the United States made it possible to utilize Federal Funds for construction of armories within the States. Construction of armories is generally on a 75% Federal/25% State participation basis.

2. New Armory construction completed during Fiscal Year 1960 is as follows:

<u>STATION</u>	<u>TYPE</u>	<u>COST</u>	<u>FEDERAL</u>	<u>STATE</u>
Artesia	1 Unit	76,253.55	56,015.16	20,238.39
Clovis	2 Unit	160,528.58	108,054.98	52,473.60
Portales	1 Unit	87,746.90	63,091.00	24,655.90
Las Cruces	2 Unit	136,181.00	92,435.00	43,746.00

3. New Armory construction pending completion at end of Fiscal Year 1960 is as follows:

<u>STATION</u>	<u>TYPE</u>	<u>COST</u>	<u>FEDERAL</u>	<u>STATE</u>
Silver City	1 Unit	84,914.00	62,403.30	22,510.70
Socorro	1 Unit	86,551.00	63,727.50	22,823.50
Belen	1 Unit	85,273.00	62,695.00	22,578.00
Espanola	1 Unit	83,681.00	62,295.75	21,385.25
Roswell	2 Unit	158,983.00	104,902.50	54,080.50

4. Non-Armory construction is based on 100% Federal participation and the money is allotted after full justification of projects.

5. Non-Armory construction completed during Fiscal Year 1960 is as follows:

<u>STATION</u>	<u>TYPE</u>	<u>COST</u>
Deming	Organizational Maintenance Shop and Storage Compound Site.	23,175.00

6. Non-Armory construction awarded, but not completed during Fiscal Year 1960 is as follows:

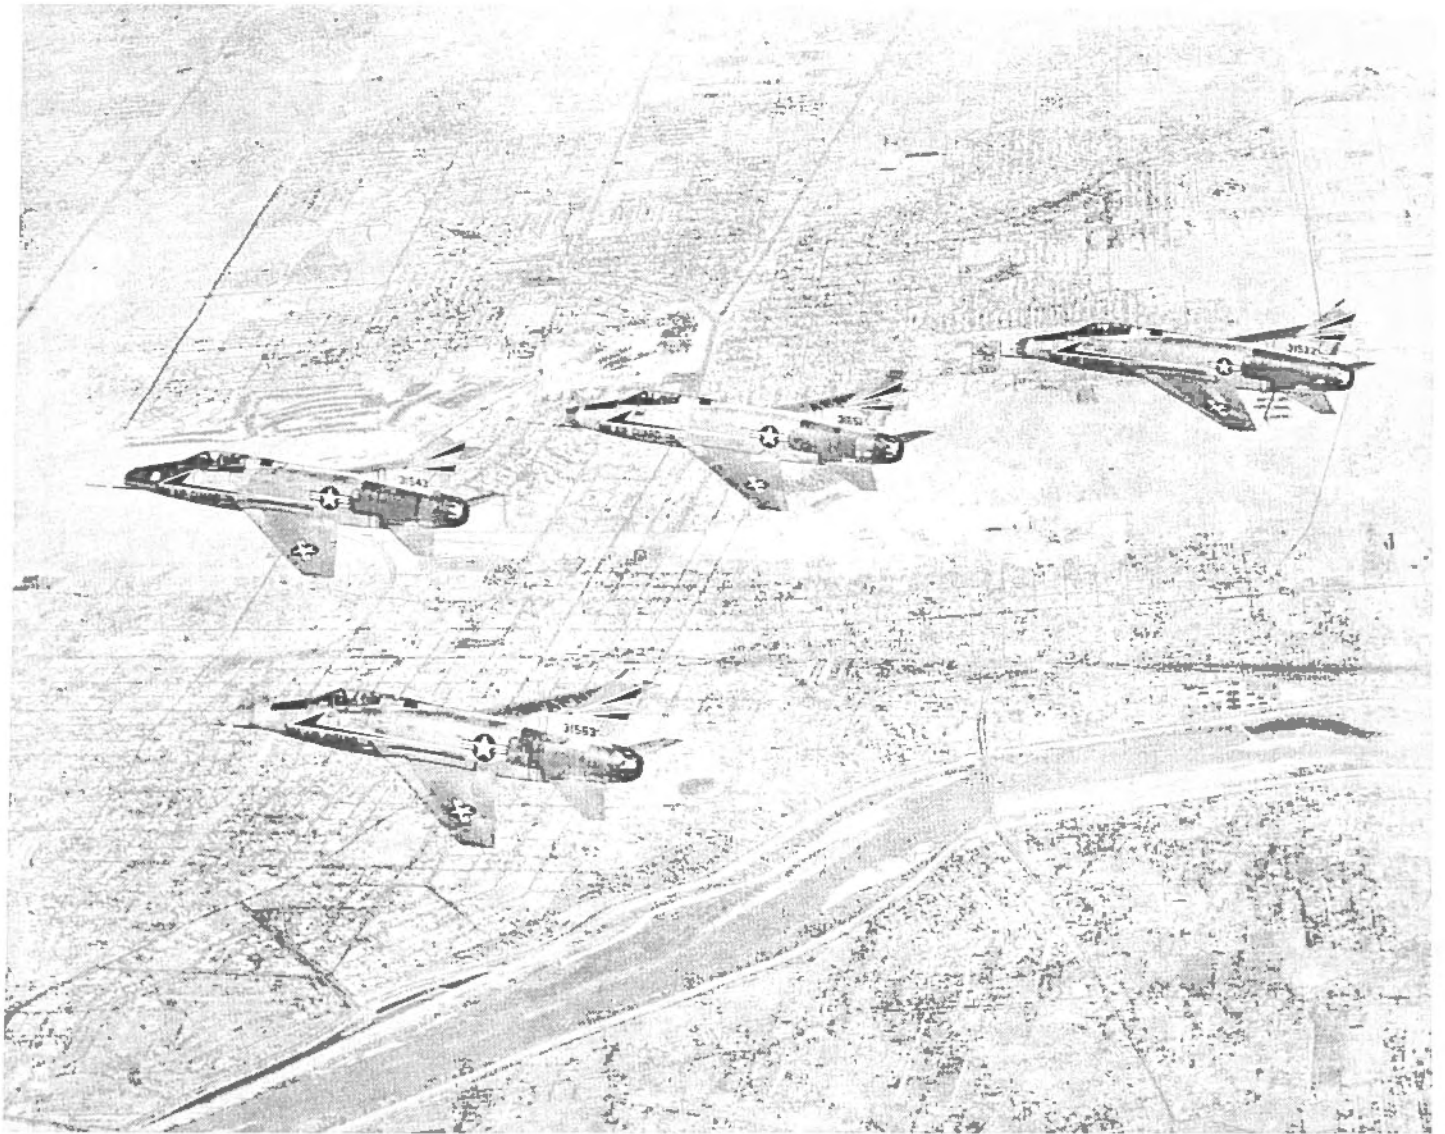

<u>STATION</u>	<u>TYPE</u>	<u>COST</u>
Santa Fe	Organizational Maintenance Shop and Storage Compound Site.	21,511.72
Tucumcari	Organizational Maintenance Facility.	9,569.93
Roswell	Organizational Maintenance Facility.	9,662.29

7. Maintenance and Repairs of New Mexico Army National Guard facilities, 75% Federal and 25% State, for Fiscal Year 1960 is as follows:

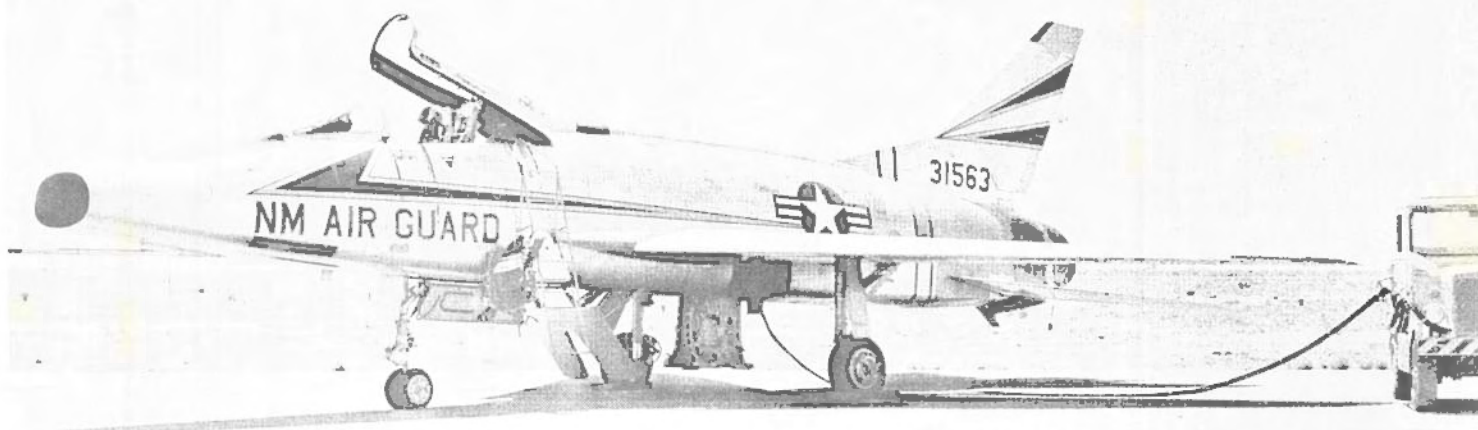

Federal Share	-	\$2,886.58
State Share	-	<u>962.09</u>
Total	-	\$3,849.37

FUTURE CONSTRUCTION

1. The National Guard Bureau has given the New Mexico Army National Guard approval to submit plans and specifications for construction of an Organizational Maintenance Shop at Artesia, Tucumcari, Roswell, and Belen.

A Flight of F-100A jet aircraft, 188th Fighter Interceptor Squadron, New Mexico Air National Guard over Albuquerque.

F-100A jet aircraft of the 188th Fighter interceptor Squadron, New Mexico
Air National Guard.

NEW MEXICO AIR NATIONAL GUARD

OBJECTIVES

1. The objective of the New Mexico Air National Guard is to recruit, equip, and train individuals and units to be available for active duty in the Air Force in time of national emergency and other times as the national security may require.

2. The New Mexico Air National Guard actually participates in the Air Defense Command Alert Program by providing personnel and aircraft, fully armed, from thirty minutes before sunrise to thirty minutes after sunset each day. Pilots on Air Defense Command Alert, when properly notified, which is several times daily, are airborne within five minutes for the purpose of intercepting any unknown or known enemy aircraft in the area.

3. The utilization of the Air National Guard in the actual defense of our nation in time of peace demonstrates its vitally important position in the national defense structure. The responsibilities thus imposed upon the officers and airmen of the Air National Guard are many times greater than they have ever been in the past.

FEDERAL RECOGNITION AND ORGANIZATION

1. The New Mexico Air National Guard was federally recognized on 7 July 1947 as a Fighter Bomber Squadron, and was equipped with F-51 Mustangs.

2. Two officers and two airmen of the original twelve officers and thirty-four airmen are still members of the New Mexico Air National Guard.

3. The Squadron is currently equipped with twenty-three F-100A and two F-100F, the A model being single place and the F being two place, and used for training purposes.

4. The F-100 had the distinction of holding the world speed record for a time in 1955 and 1956. This aircraft is equipped with four twenty millimeter cannons, and is capable of carrying the GAR-8, which is an air to air guided missile.

5. The New Mexico Air National consists of Headquarters, and the 188th Fighter Interceptor Squadron (Augmented), as shown below, which is authorized strength for each element.

<u>UNIT</u>	<u>OFFICERS</u>	<u>AIRMEN</u>

UNITED STATES AIR FORCE ADVISORS

1. The mission of the regular Air Force Advisor personnel assigned for duty with the New Mexico Air National Guard is to advise and assist the Air National Guard in the attainment and maintenance of prescribed efficiency standards. This mission is presently being accomplished by the assignment of one officer and three airmen in the various specialties of maintenance, administration, supply, etc. The annual cost to the Air Force for such personnel is estimated to be \$36,000.

ANNUAL AND INFORMAL INSPECTIONS

1. All units of the New Mexico Air National Guard were inspected by representatives of the Department of the Air Force on 30 July through 3 August 1959, and were given a rating of "Satisfactory." Only two ratings are given, Satisfactory and Unsatisfactory.

2. Members of the inspection team were from Tenth Air Force Headquarters, which is one of three numbered Air Forces responsible for training and inspection of all components of the Air Force Reserve.

3. In the future, inspection teams will be from the gaining command and in the case of the New Mexico Air National Guard, this team will be from the Air Defense Command.

4. The personnel of the Office of the Senior Air Force Advisors periodically made informal inspections of the various sections within the New Mexico Air National Guard.

ANNUAL FIELD TRAINING

1. Annual Field Training was held at the unit's home station at Kirtland Air Force Base, New Mexico, with one hundred percent of its assigned strength, physically or constructively present, beginning 11 June and ending 25 June 1960. Those constructively present consisted of 17 basic airmen in training at Lackland Air Force Base and one Aviation Cadet in Advanced Flying School at Webb Air Force Base, Texas. The Fifteen days were considered successful from several stand points.

a. All tactical pilots became qualified in air to air gunnery and each scored a hit with the GAR-8.

b. All personnel, other than air crews increased their operational capabilities approximately nine percent.

2. The fifteen days were highlighted by Governor's Day on the last day of camp. This consisted of a parade, an aerial fly-by of sixteen F-100s, and the presentation of three annual awards by Lt Governor Mead.

3. There were no aircraft accidents or incidents during this period.

ANNUAL AWARDS

1. There are three trophies awarded during each annual Field Training period. Two of the trophies are awarded to individuals and one is awarded to a section within the unit.

a. The Squadron Airman of the year, donated by Cooks Sporting Goods in 1954, was won by ALC Roger C. Babcock in 1960.

b. The Aircraft Maintenance Airmen Trophy, donated by Snow Construction Company in 1959, accompanied by a two hundred dollar check, plus an all-expense trip for two to Las Vegas, Nevada, for three days, won by SSgt Dennis J. Adkins in 1960.

c. The Adjutant General Trophy, donated by the Adjutant General of New Mexico in 1960, was awarded to the Administrative Section in 1960. This trophy is awarded for outstanding performance by a particular section within the New Mexico Air National Guard. Chart # 1 shows the criteria and final scores by sections for 1959-1960.

2. The National Guard Association of the United States has created a trophy in their name to be awarded to the unit that has shown the most improvement toward combat readiness for each type of aircraft. The F100 unit selected was the 150th Air Defense Group, 188th Fighter Interceptor Squadron, Kirtland Air Force Base, New Mexico.

TRAINING

1. During this reporting period, sixty-four new members of the Air National Guard attended an eleven week Basic Military Training Course at Lackland Air Force Base in San Antonio, Texas. Eleven other airmen attended formal technical training schools at various Air Force Bases.

2. Thirty-nine members are currently taking military correspondence courses, and one Aviation Cadet is in Flying School and will graduate and return to the unit sometime in November, 1960.

AIR TECHNICIANS

1. The number of full time employees for the New Mexico Air National Guard increased from 146 to 150 during this period. Two of these people are at the Office of The Adjutant General and the balance are at Kirtland Air Force Base. Air Technician pay for this period was \$878,170.00

Mr. Moody Brassell, Ft. Sumner rancher, thanking Major Clay O. Keen, Squadron Commander, 188th FIS, for his assistance in the air delivery of hay to his snow bound sheep. December 1959.

1st Lt John Parker and his scoring crew assessing the damage done to Aerial Target (Dart) by 1st Lt Duane W. Rice.

NEW MEXICO ARMY NATIONAL GUARD
Communication Facilities

1. A statewide radio net was established in the New Mexico Army National Guard on 1 March 1959 to supplement and, if necessary during emergencies, replace telephone communications. The primary purpose of the net is training; however, this does not preclude its use in the event of disaster, mobilization, or other special requirements.

2. The radio net was assigned the call word assignment of OXBLOOD by Fourth U. S. Army with the net control station at the Combined Field Maintenance Shop in Albuquerque. Satellite stations, to form the net, are located in the following towns:

Santa Fe - Office of the Adjutant General
Tucumcari
Clovis
Roswell
Artesia
Belen
Las Cruces
Deming

3. The above stations are operating daily, Monday through Friday, 8 AM to 4 PM, on an assigned frequency of 4255KCS. Each station, other than Albuquerque and Santa Fe, has a set period each day during which the units call in to that station.

4. Although administration and routine traffic are handled by mail, the statewide radio net has been of inestimable value for special reports, vehicle repair, and alert information. All personnel are now well trained and capable of operating and maintaining all radio equipment. The entire OXBLOOD net was established by the use of surplus SCR 543 radio receivers and transmitters. Joint Army-Navy-Air Force Radiotelephone procedure is used at all times, station logs and message books are maintained, and the entire net is monitored by the net control station in Albuquerque. A standard operating procedure for the statewide radio net was published in AGONM Regulations for the information and guidance of all personnel.

I am the Guard

Civilian in Peace, Soldier in War... of security and honor, for three centuries I have been the custodian, I am the Guard.

I was with Washington in the dim forests, fought the wily warrior, and watched the dark night bow to the morning. At Concord's bridge, I fired the fateful shot heard 'round the world. I bled on Bunker Hill. My footprints marked the snows at Valley Forge. I pulled a muffled oar on the barge that bridged the icy Delaware. I stood with Washington on the sun-drenched heights of Yorktown. I saw the sword surrendered... I am the Guard. I pulled the trigger that loosed the long rifle's havoc at New Orleans. These things I knew—I was there! I saw both sides of the War between the States—I was there! The hill at San Juan felt the fury of my charge. The far plains and mountains of the Philippines echoed to my shout... On the Mexican border I stood... I am the Guard. The dark forest of the Argonne blazed with my barrage. Chateau Thierry crumbled to my cannonade. Under the arches of victory I marched in legion—I was there! I am the Guard. I bowed briefly on the grim Corregidor, then saw the light of liberation shine on the faces of my comrades. Through the jungle and on the beaches, I fought the enemy, beat, battered and broke him. I raised our banner to the serene air on Okinawa—I scrambled over Normandy's beaches—I was there!... I am the Guard. Across the 38th Parallel I made my stand. I flew MIG Alley—I was there!... I am the Guard.

Soldier in war, civilian in peace... I am the Guard.

I was at Johnstown, where the raging waters boomed down the valley. I cradled the crying child in my arms and saw the terror leave her eyes. I moved through smoke and flame at Texas City. The stricken knew the comfort of my skill. I dropped the food that fed the starving beast on the frozen fields of the west and through the towering drifts I ploughed to rescue the marooned. I have faced forward to the tornado, the typhoon, and the horror of the hurricane and flood—these things I know—I was there!... I am the Guard. I have brought a more abundant, a fuller, a finer life to our youth. Wherever a strong arm and valiant spirit must defend the Nation, in peace or war, wherever a child cries, or a woman weeps in time of disaster, there I stand... I am the Guard. For three centuries a soldier in war, a civilian in peace—of security and honor, I am the custodian, now and forever... I am the Guard.
